

# Wall Names Instructions and Care

**Thanks for purchasing one of our wall names for your home or event!**

## **Care of your sign:**

- These are extremely delicate. Dropping them will almost certainly break them. Please handle with care.
- Mirror signs are supplied with the protective paper or plastic on the front. Please remove this only after you have installed the wall name.
- Avoid cleaning the wall name if you can. However, if you need to, isopropol alcohol and a soft cloth is best - do not use paper towels or tissues as it will scratch acrylic signs.
- Once permanent adhesives have been attached to the mirror backing, do not try to remove them, as you will remove the mirror backing too.

## **Installation:**

- For temporary installation, use a generous quantity of fresh blu-tac.
- For a temporary installation on greenery walls or similar, you can use fishing line to tie parts to the greenery. Don't pull the line too tight to avoid breaking the items.
- For permanent installation, use adhesive poster strips or double sided tape. If you want to be able to remove it later, use two part poster strips that have a part for the sign and a part for the wall; as you can separate these later with a butter knife. Blu-tac can also work, but ensure you use a lot of fresh blu-tac.
- You may also use silicon adhesive for a more permanent installation; however, use a neutral cure silicon. It is best to test the adhesive before you try this - we can send you some sample pieces to test first if needed.
- Do not hang above cots or beds, as they may fall off and leave small parts.

## **Issues or Questions?**

If you have any issues at all, please email us at [hello@footeandflame.com.au](mailto:hello@footeandflame.com.au) and we'll fix it for you!
