RV ECOLITE VAN RACKING

RV EcoLite Van Racking

Our new ECOLITE van racking is both economical and light. While it is similar to what's out there in the market place the difference is it’s more robust with heavier gauge steel, hem folding for strength and safety and comes with quality fittings and instructions. They are suitable for Fischer plastic bins available from RV (see page 8).

NEW optional Doors

The NEW universal Lockable Door Panel for our flat pack Van Racking features locks and hinges which are good quality metal items. The door is made to fit the standard shelf opening of 200mm. It features a channel folded edge for strength. It can be used on any level shelf or in multiple shelves.

THEY WILL COME IN A FLAT PACK. ASSEMBLY WILL BE REQUIRED.

P/N: EL-RA1612-00

VAN RACKING KIT
RRP $549.00 each incl. GST
SIZE OD: W1060 x H1200 x D410mm
SHELF SIZES ID:

RRP $129.00 each incl. GST
DOOR SIZE: W1020 x H200mm
Kit includes:
2x Hinges and 2x Locks
EL-CRH  Cable Roll Holder
RRP $99.00
RV EcoLite Ute Racking

Our new RV LITE ute racking is simple in design, and made with robust thicker gauge steel. The shelves are hem folded for strength and safety and we use only quality fittings throughout. The Kit has 3 shelves and two end panels and comes with a universal fitting kit. The racking takes Fischer tubs as specified on page 8, which are available as a separate item if required.

The new Ute Shelving from RV provides an affordable user-friendly option for tradesman that need upright organized storage for their many parts and trade tooling. The rack is orientated so it is accessible from the side window of the canopy but can also be accessed from the rear, particularly the bottom shelf.

There are many extras that can be used with the Ute racking to make the job easier such as water containers, hand cleaner units, cable rollers etc., listed on page 11. The rack is designed to sit on the RV EcoLite drawer systems for most popular Dual Cabs Utes and comes with a universal fitting kit to secure to the drawers leaving the side of the drawers open for storage and access for other items.

Most canopies of standard height are fine for the Drawer / Racking combo but we recommend you check your clearance height prior to purchase.

**THE RACKING COMES FLAT PACKED WITH COMPREHENSIVE INSTRUCTIONS AND IS SIMPLE TO ASSEMBLE.**

NEW RV EcoLite Cargo Slide

Rugged all-steel construction, like all RV products, to keep your business going.

Fitted with 4 stainless steel adjustable tie down points as standard, our Cargo Slide makes securing your load easy.

The Cargo Slide extends a full 1020mm making access a breeze.

- All-steel roller bearing runners will handle up to a 400kg load.
- Incremental slide extension locking points allow the tray to be extended as far as necessary and ensures the tray won’t roll back if you are parked on an incline.
- Thick UV stable carpet top ensures your cargo is not damaged.
- Prevent work place injuries by allowing easier access to your cargo.
- The Cargo Slide will easily mount to any solid flat surface, including your ute tray floor.

RV Storage Solutions have the latest available C.N.C. manufacturing machinery and software on site here in New Gisborne Victoria, making us more competitive, flexible and first-to-market on new products or as new vehicles are released to market.

We manufacture aftermarket vehicle storage solutions and accessories to suit 4WD, Recreational Vehicle’s and Light Commercial Vehicles.

In the 4WD and recreational vehicles market, our products are distributed within Australia through quality 4WD accessory retailers.

In the Commercial vehicle market, our products are distributed directly by RV Trade and Fleet in conjunction with strategic business partnerships.

Strict quality control and assurance checks are carried out in all parts of the manufacture and assembly process.

All storage systems and relevant products where safety is crucial are tested and complied to Australian and New Zealand Design Standards.

RV Storage Solutions 100% Australian Owned and all products are made and or designed in Australia without exception.
