ROCKET III ROADSTER

With the world's biggest production motorcycle engine the latest Rocket III Roadster builds on the huge performance of the original Rocket III but now with even more torque.

The 2.3 litre, three-cylinder engine is designed to be an arm-wrenching thrill to ride, yet easy and unintimidating too, despite its thunderous roar. Its sweet handling chassis, rigid frame and sophisticated suspension gives you the confidence to sweep through corners and change direction with an agility that belies this Roadsters size.

The latest Rocket III features blackened components including radiator cowls, rear mudguard rails, airbox cover, fork protectors, and mirrors giving our Roadster an even more menacing look.

There's nothing else like it out there, not to look at, nor to ride.

ACCESSORIES

We are obsessed with creating the best motorcycles in the world. Ones that bring the best out of every single rider. And the only person that can improve on what we do, is you. That's why we have created an extensive range of accessories for you to fine tune your bike to suit your ride. From styling to performance, luggage to protection, you'll find our complete range within the Accessories Catalogue. You can even see how your accessories change the look of your bike by using our industry-leading configurator. Whichever you choose, all Triumph Accessories are developed in conjunction with the bike itself. They go through a full testing and development process to ensure the highest levels of quality, reliability and safety.

CLOTHING

Our desire to get the most out of every ride applies as much to our clothing as it does to our bikes. Every piece of Triumph clothing is designed to play a part with technical innovations in materials and design, focusing on style, safety and comfort. Designed and tested by people that ride to deliver a perfect fit.
