

2017 KFX50

Start them Right with a Kawasaki Fun ATV

Start them on the right track with the lime green fun of the Kawasaki KFX50. Designed specifically with little bodies in mind, the KFX50 boasts a range of user-friendly features such as a built-in throttle limiter, automatic transmission and low seat height. Recommended for children 6 years and older under direct adult supervision. For extra parental control and safety, the KFX50 is fitted with a second rear-mounted, lanyard-style kill switch enabling the parent to follow behind and shut the engine down in an instant. The KFX50 is the kid sized ATV that will bring them years of fun and provide a safe learn-to-ride environment.

Engine Type	4-stroke, single-cylinder,SOHC
Displacement	49.5 cm³
Cooling	Air cooled
Bore & Stroke	39.0 x 41.4 mm
Compression ratio	10.8:1
Carburettor	Keihin PTE 16
Starter system	Electric starter with auxiliary kick start
Transmission	Automatic clutch, CVT belt, chain final drive
Fuel Capacity (inc reserve)	5.5 litres
Colour	Lime Green

Wheelbase	965 mm
Seat Height	635 mm
Ground clearance	85 mm
Wheel Travel (front/rear)	71/74 mm
Brakes - Front	Drums
Brakes - Rear	Single disc
Suspension - Front	Independent, Single A-arm
Suspension - Rear	Swing arm
Tyre - Front	AT 16x8-7 Tubeless
Tyre - Rear	AT 16x8-7 Tubeless
Curb Mass	111kg

The specifications mentioned here apply to and have been achieved by production models under standard operating conditions. We intend only to give a fair description of the vehicle and its performance capabilities but these specifications may not apply to every machine supplied for sale. Kawasaki Heavy Industries, Ltd. reserves the right to alter specifications without prior notice. Equipment illustrated and specifications may vary to meet individual markets.

50cc Fun - Key Features

- Parental Controls
- CVT (Auto) Transmission
- Electric Start
- Kid-Size
- 49cm³ Single Cylinder
- 4-Stroke Engine

Parental Controls

A throttle limiting screw located on the top of the throttle housing allows parents to limit the throttle opening to help new riders gain experience at slower speeds.

A removable collar installed in the CVT limits travel of the driven converter, producing a lower overall drive ratio to reduce speed.

Keyed ignition switch prevents starting without a key.

Ignition cut-off tether allows and adult to immediately stop engine operation by pulling on the tether line.

Continuously Variable Transmission (CVT)

Simple operation for young riders.

The CVT eliminates gear shifting to simplify operation.

The young rider can simply push the throttle and go.

The centrifugal clutch on the driven converter allows engine braking under certain conditions for added control and slowing power when travelling down hills.

Electric Start with Interlock

Easy push button start with the key switched on.

The interlock feature only allows the engine to be cranked when the parking brake is engaged.

The sealed battery requires minimal maintenance.

The KFX50 has a back up kick starter system if the battery does go flat.

Floorboards

Full floorboards provide sure footing and help to keep the young rider's feet and legs away from the wheels.

Suspension

Single A-arm front suspension with twin shock absorbers.

Single Shock rear suspension system

Brakes

Responsive braking performance from dual front drums and single rear disc

Controls

The control levers on the KFX50 are sized to suit young riders and placed within reach of the ATV rider

Accessories for KSF50BHF 2017 KFX50 (2771)

AIR FILTER CLEANER

* Quickly and easily removes filter oil, dirt and other contaminants * Advanced formula removes super tacky air filter oils by breaking down and solubilising the oil * Easily washes out with water * Works with both foam and fabric air filter elements * Will not degrade foam, paper or glued air filter seams * For best results use with Kawasaki Performance Air Filter Oil * 64 US FLOZ (1892mL)

CLEANER WIPE DOWN

* High gloss formula specifically developed for the Powersports industry * Wipe down cleaner coats plastic, fiberglass and painted surfaces * Restores showroom shine in a few quick wipes * Makes cleaning process fast, simple and effortless * Leaves a clear coat film for extended protection against the elements * 12 US FLOZ (355mL)

DETAILER WAX AND SHINE

* The All-In-One Detailer that cleans, shines and protects all painted surfaces, chrome parts, windshields and plastics * Carnauba wax formulation provides a deep show-like shine making your vehicles painted surfaces come to life * Easy spray applicator * 12 US FLOZ (355mL)

GREASE MULTIPURPOSE

* Multi-purpose extreme pressure, lithium complex grease which imparts superior high and low temperature characteristics and chemical stability * High tensile strength provides durability under heavy loads, resists mechanical breakdown and water "wash-out" * Offers excellent rust & oxidation protection and is highly compatible with seals * 16 OZ (454g)

MOTO MINDER HOUR METER

* MM is an engine hour meter specifically designed for use in the harsh environment of motocross racing. As such, it will operate reliably in a number of other applications * - Motorcycles - MM has been specifically designed for motocross racing * It is also useful for tarmac race bikes, ATVs, enduro bikes, karts etc * Note: MM will operate on the new generation "pencil coil" ignitions * - Marine - MM is fully spec'd for saltwater marine use * Applications include outboard motors, jet skis and other recreational and race craft * MM has a dual purpose input circuit * This means that the red sense wire can be cable tied along a sparkplug HT lead (Inductive Connection) OR it can be connected directly into a voltage supply (Direct Connection)

PREWASH - ON AND OFF ROAD

* Unique formula breakdown dirt, grime and oils while gently protecting paint and other delicate finishes * Safe on plastics, carbon fiber, paint, anodizing, aluminum, titanium, rubber * Biodegradable cleaning formula * Contains no harmful acids, CFC's or solvents * Will not harm seals or brake pads * Spray on, wash off, go ride * 32 US FLOZ (946mL)
