NISSAN
JUKE

Ti-S Auto model shown in Magnetic Red.

*Available on Ti-S Auto model only.

**WHAT IF...
YOUR CROSSOVER
THRILLED YOU LIKE
A SPORTS CAR?**

It's a lot to ask, but the Nissan JUKE delivers big with a higher ride, quicker driving response, and a distinct ability to turn heads. This unique compact car gives you serious boost along with fuel efficiency, and an innovative All-Wheel Drive system* that actually turns power into grip. Want more style? You can customise details inside and out, to make it unique to you. With the Nissan JUKE, you really can have it all.

INTERIOR THRILLS

Ready to ride? Inside the Nissan JUKE, you'll find a pulse-raising centre console inspired by the radical lines of an Italian sport bike. Circular gauges help keep the controls, and your thrills, in check. And stitching on the seats and steering wheel ensure you're ready for a gripping performance.

HOODED GAUGES

Racing bike-inspired circular gauges with hood cover add an extra-sporty look to the instrument panel.

PREMIUM TOUCHES

Add a little extra class with stylish chrome door handles and customise your look with painted door trim, in your choice of chic gunmetal grey or optional personalisation of Tokyo Glossy Black, Energy Orange or Power Blue.

POWER THE ROAD LIKE A PRO.

Ti-S Auto model shown in Gun Metallic with optional
Energy Orange myJUKE Personalisation Pack.

Ti-S Auto model shown in Gun Metallic with optional Tokyo Gloss Black myJUKE Personalisation Pack.

CHOOSE TO OUTPERFORM.

The perfect balance of power and efficiency is yours with the Nissan JUKE. Its most powerful offering, the 1.6L turbo-charged petrol engine, provides boost for greater low-end torque, and fuel-sipping economy with its compact engine design and advanced direct injection.

Choose the Xtronic CVT transmission for a driving sensation as smooth as butter. Unlike traditional automatic transmissions, the Nissan JUKE's Xtronic CVT eliminates the need for gear-hunting to deliver a seamless escalation of power. In case you miss the feeling of gears, you can engage manual mode and bring it right back.

Or check out the 1.2L turbo-charged petrol engine paired with a 6-speed manual and idle stop/start technology. It delivers a torque-rich kick while cutting back on CO₂ emissions[^]. Of course, whichever engine you choose, from the powerful 1.6L to the fuel-efficient 1.2L, driving fun comes standard.

ENGINE/ TRANSMISSION	POWER (kW)	TORQUE (Nm)	FUEL ECONOMY [^] (L/100km)	CO ₂ EMISSIONS [^] (g/km)
1.2L DIG-T 6MT	85	190	5.6	129
1.6L DIG-T 6MT	140	240	6.0	139
1.6L DIG-T Xtronic CVT	140	240	6.5	153

[^] Figures have been calculated in accordance with ADR81/02. Actual fuel consumption and emissions will vary depending on driving conditions, driver behaviour, the condition of your vehicle and the accessories fitted. Figures stated for the purposes of comparison amongst vehicles only.

Ti-S Auto model shown in Vivid Blue with optional Tokyo Gloss Black myJUKE Personalisation Pack.

NISSAN DYNAMIC CONTROL SYSTEM

CHANGE YOUR MOOD ON THE FLY.

Nissan Dynamic Control System lets you change up your ride with the push of a button. Whatever mood you're in, the Nissan JUKE has a mode for it. You can custom-tailor your drive, adjust the climate and keep stats on your performance, all while you're out and about.

Show in
D-mode Interface

Performance Expert. Get torque, boost, or efficiency right when you want it. In Normal mode, you'll find the perfect combination of performance and efficiency. Switch to Sport mode and immediately feel the steering, transmission (Xtronic CVT only), and throttle response adjust for more responsive driving. And when it's time to steady your pace, hit the Eco mode button to get the most out of every fill-up.

Double Agent. In addition to ride style, the system lets you control interior comfort. Simply switch from D-mode to the Climate interface, and the display changes over to all the selections you need to make the cabin as toasty or cool as you like.

Stats Keeper. Stay updated on your performance stats through the drive computer. It stores information about everything from maximum G-force to trip distance to daily fuel economy. The more information you have, the smarter you'll drive.

Ti-S model with various
myJUKE Personalisation Pack shown.

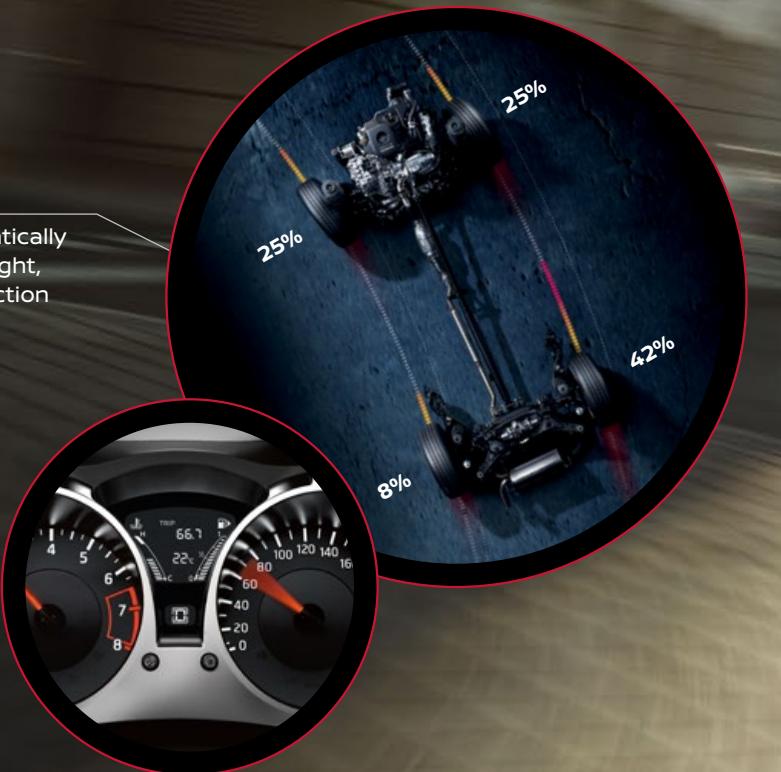

NISSAN TORQUE VECTORING ALL-WHEEL DRIVE

LEFT OR RIGHT, THE POWER IS ON YOUR SIDE.

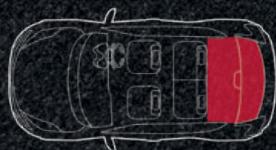

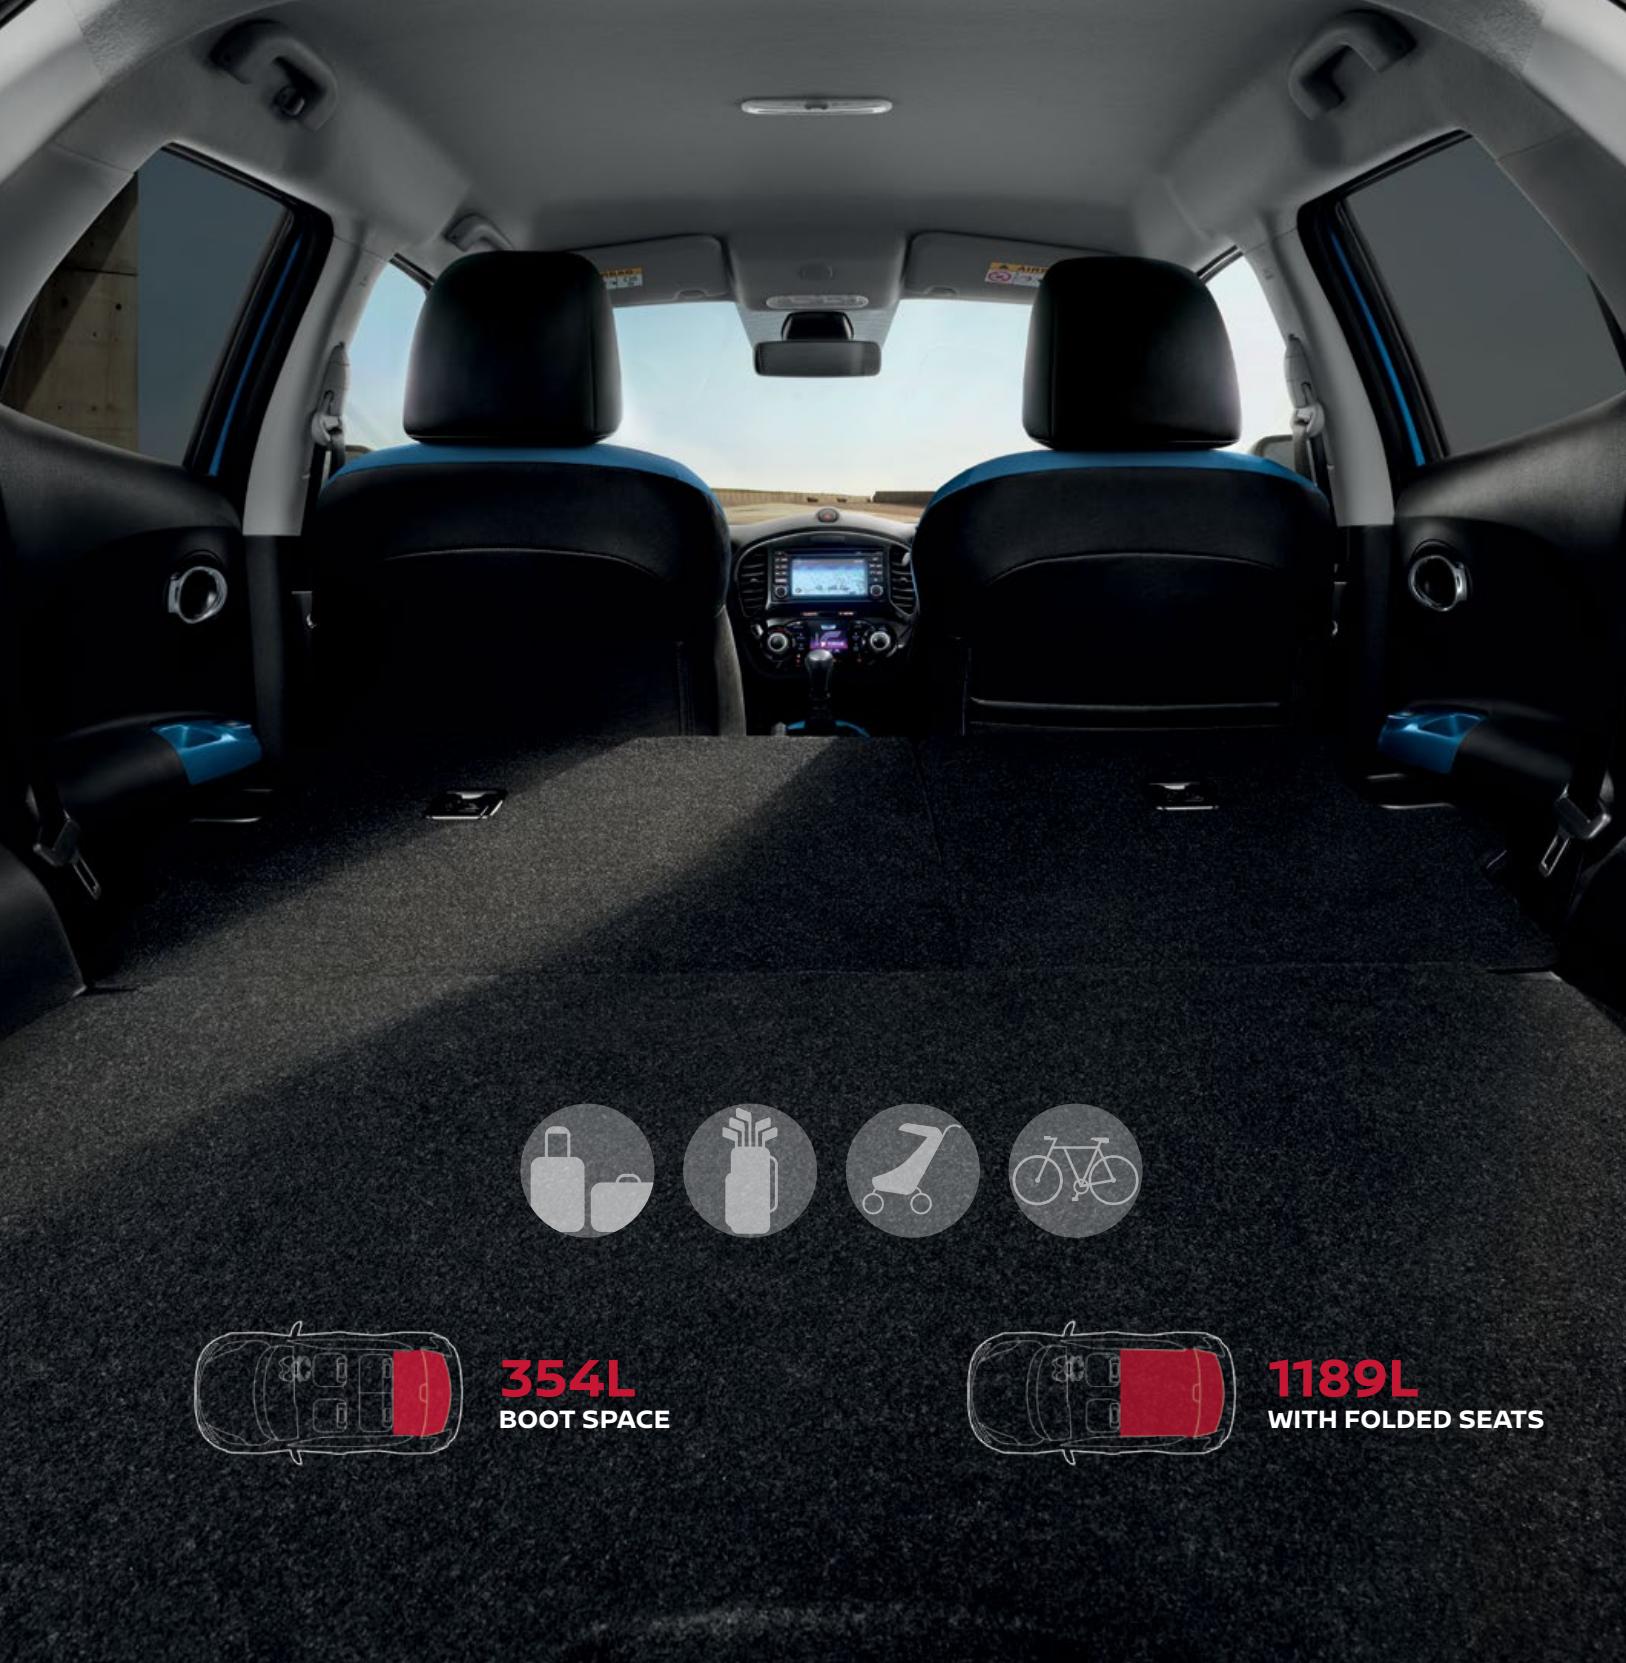

Instead of traditional All-Wheel Drive (AWD) systems that only distribute power from front to back, the torque vectoring AWD available on the Nissan JUKE Ti-S CTV adjusts power side-to-side to the rear wheels. When cornering, this means the outside rear wheel gets more power, helping you turn into the curve and accelerate out.

TORQUE VECTORIZATION

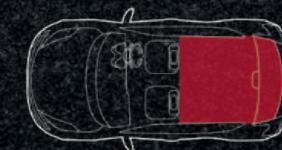

In a turn, this multi-sensor system automatically transfers rear-wheel power to the left or right, depending on need, so any change in direction feels smooth and secure.

Ti-S Auto model shown in Vivid Blue with optional Tokyo Glossy Black myJUKE Personalisation Pack.

354L
BOOT SPACE

1189L
WITH FOLDED SEATS

EXPLORE YOUR OPEN SPACES

The roominess inside JUKE is surprising. It offers high trunk capacity with smart, versatile options. Pack in larger pieces of luggage or longer, bulky gear thanks to modular 1/3 - 2/3 folding seats and a 2-level adjustable cargo floor.

Juke Ti-S shown in Vivid Blue with optional Tokyo Glossy Black myJUKE Personalisation Pack. Overseas model shown.

COLOUR CHANGES EVERYTHING

Personalise your Juke with the Nissan Design Studio!
Choose your colour combination and express yourself to the full.

myJUKE PERSONALISATION PACK

Select a stunning body colour and then strike a contrast with accents, in a dynamically different shade, among ENERGY ORANGE, POWER BLUE, TOKYO GLOSSY BLACK.

Juke Ti-S shown in Platinum with optional Power Blue myJUKE Personalisation Pack.

NISSAN INTELLIGENT AROUND VIEW® MONITOR IT'S GOT YOUR BACK, AND THE REST OF YOU TOO.

What if parallel parking was easier? A rear view monitor is great when backing up – but when it comes to parking, it's nice to see more than just what's behind you. That's why the Nissan JUKE Ti-S offers an Intelligent Around View® Monitor. Four cameras give you a virtual 360° bird's-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and kerbside views, so you can get a better look. And since all obstacles aren't stationary (shopping trolley, we're talking to you), Moving Object Detection® keeps an eye around your Nissan JUKE Ti-S and can warn you about moving objects detected in your vicinity.

Around View® Monitor is a driver's aid only and may not cover all blind spots. Moving Object Detection® may not detect every object. Always check surroundings before moving vehicle.

DON'T BUMP YOUR NOSE.

In drive, the display gives you both a front and overhead view, so you know just how far to pull up – without going too far.

SPARE YOUR WHEELS.

In drive or reverse, you can push the camera button to switch out the overhead for a side view. A great help for seeing how close you are to the kerb.

LOOK OUT BELOW.

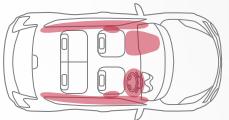

In reverse, the display helps you see what's directly behind you, while the overhead view helps with smaller objects that might be hidden below your window.

Ti-S Auto model shown in Vivid Blue.

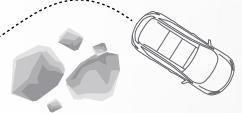

NISSAN INTELLIGENT MOBILITY

NISSAN INTELLIGENT DRIVING**SURROUND YOURSELF WITH CONFIDENCE.**

Wouldn't it be cool if you had the confidence you need for every part of your drive? The Nissan Safety Shield® technologies are a comprehensive approach to safety that guides the engineering and development of every vehicle we make. The features described here are just some of many on your Nissan, helping to protect you and yours by focusing on three key areas: keeping an eye on your vehicle's systems and the surroundings, assisting in handling unexpected situations, and helping to keep you safe in the unfortunate event of an accident.

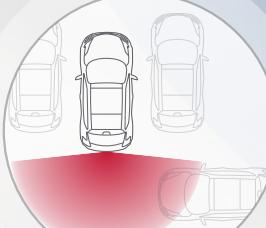

6 Airbags. When a collision is unavoidable, Nissan's Zone Body Construction helps absorb the impact, while the advanced seatbelts, front active headrests and airbag system help protect passengers.

Vehicle Dynamic Control (VDC). Nissan's Vehicle Dynamic Control system automatically activates the ABS and traction control features to help you stay in control during difficult manoeuvres like a sudden lane change.

MOVING OBJECT DETECTION*

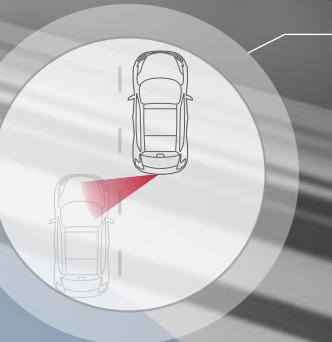

Intelligent Around View® Monitor doesn't just help you park, it also helps you pull back out of a space safely. Its Moving Object Detection feature gives you a visual and audible alert when it detects movement by the vehicle.

Ti-S CVT model shown in Platinum.

**BLIND SPOT WARNING***

If another vehicle is detected in your blind spot area, an indicator appears, which then flashes and chimes if you put on your turn signal as if to make a move.

**LANE DEPARTURE WARNING***

This system gives you a visual and audible alert if it detects you straying from your lane. And it's so smart, it's designed to stop the warnings when you engage your turn signal.

*Ti-S models only.

A complete ownership experience to help you get the most out of your Nissan. It includes the following:

NISSAN CAPPED PRICE SERVICE
All Nissan vehicles first registered from 1 January 2018 are eligible for Nissan Capped Price Service. As part of this servicing program, we've capped the maximum price you'll pay for the first six services according to your vehicle's service schedule.
