

**THE NEW XF**  
PURE EXCELLENCE

**XF**

**DAF**

# PURE EXCELLENCE: The new benchmark

The New XF has been developed to greater levels of excellence.

It has all the benefits you are used to, excellent efficiency, reliability, durability, driver comfort and styling, all taken a major step further. The New XF sets the benchmark for **PURE EXCELLENCE**.

## **New Powertrain**

The New XF delivers exceptional fuel economy. Higher torque at lower revs in combination with optimised drivelines, new high-efficiency rear axles, enhanced electronics performance and aerodynamic improvements result in increased fuel efficiency.

## **Safety**

Safety isn't just one more thing to think about, it's everything. The New XF features passive and active systems that elevate safety standards.

## **Outstanding Driver Comfort and Interior Design**

New levels of driver comfort are another enhancement of the New XF. The cab has new features that make it an even more comfortable place to work, live and sleep.

## **Exterior Design Evolution**

Great design is a hallmark of DAF. The premium exterior styling makes the New XF a very attractive option and new design features contribute to excellent aerodynamics to enhance your transport efficiency.

# Driveline excellence

Great fuel efficiency starts with the engine. The New XF is powered by a multi-torque PACCAR MX-13 engine with an extra powerful 390 kW/530 hp rating. Many innovations result in even more torque at lower revs for better fuel efficiency.

## **Engine Innovations**

Achieving extra fuel efficiency, lower CO<sub>2</sub> emissions and excellent performance starts with having the right engine and driveline for the job. The New XF features a 530 hp multi-torque MX-13 engine, as well as valuable innovations, including highly efficient combustion and air management systems. Smart oil, steering and water pumps deliver output matched to the exact demand of the engine in every situation.

## **Eco Mode**

To boost fuel efficiency, reduce emissions and lower operating costs, the New XF includes Eco Mode and Eco Roll functionality. Eco Mode supports the driver to drive more economically and, When required, more engine performance can be selected in an instant.

### **High-Performance Gearbox**

The latest generation of TraXon automated 16 speed gearbox is standard on the New XF. Less friction losses, and faster upshifts contribute to the lowest fuel consumption. Driver comfort is also improved thanks to its quiet and smooth operation and precise clutch actuation. The new generation TraXon automated gearbox also provide a wider ratio spread enabling even faster drivelines.

### **High-Efficiency Rear Axles**

In addition to an exceptional new engine and gearbox, the New XF has high-efficiency rear axles with low-friction wheel ends. Faster ratios enable even lower engine revs for fuel efficiency. To reduce friction losses, grinded differential gear sets and new bearings and seals in the rear axle along with low-level, low-friction rear axle oil are used.

### **Strong, Light and Superb Handling**

Pure Excellence is also carried through in the New XF's chassis. Manufactured from high-quality steel, it's both strong and light and its superior design offers unmatched flexibility with configurations. Components can be positioned to optimally meet your specific requirements.

### **Battery Energy Monitoring**

Battery Energy Monitoring allows the driver to check the status of the batteries and provides warnings when energy levels are critical. It also prevents overcharging. The result is increased uptime due to longer battery life, and reduced operating costs.

# Excellent safety and comfort

The New XF comes with enhanced features that ensure the highest possible safety of the driver and other road users.

- 1. Adaptive Cruise Control (ACC)** automatically adjusts the truck's speed to maintain a safe distance from the vehicle ahead.
- 2. Forward Collision Warning (FCW)** generates a warning sound and a visual alert on the instrument panel, urging the driver to take action in order to prevent a collision.
- 3. Advanced Emergency Braking System (AEBS)** intervenes to slow the truck down in an emergency.
- 4. Lane Departure Warning System (LDWS)** warns the driver if the vehicle begins to move out of the lane owing to driver error, drowsiness or distraction.
- 5. Vehicle Stability Control (VSC)** the electronic braking system features improved VSC to prevent jack-knifing and overturning.
- 6. Protective Cab Suspension and Construction** the energy-absorbing cab suspension and reinforced cab structure has pre-programmed front and rear crumple zones to provide industry-leading vehicle safety and passenger protection.
- 7. Side Camera** on the cab provide additional visibility for the driver.
- 8. LED Lighting** an improved lighting technology, LED lighting offers better light output offering greater visibility of the road for the driver and of the truck for other road users.
- 9. Cornering Lights** designed to provide extra illumination in the direction of a driver's intended turn or lane change.
- 10. Reduced Interior Noise** with an extremely quiet interior cabin the driver is not fatigued by engine noise.
- 11. Driver Configurable Switches** can be adapted to suit individual preferences and applications, allowing the driver to customise the layout to suit their needs.
- 12. Greater Visibility** improved mirror position means mirrors have been placed further to the back in order to create more space between the A-pillar and the mirrors, reducing the blind spot to a minimum.

# The standard for driver comfort and interior design

The New XF builds on the excellent standards of driver comfort for which the DAF flagship truck is renowned worldwide. It offers a completely new, attractive look and feel, which includes a large cab interior and bunk area.

## **New Temperature and Climate Control**

The completely new and highly efficient climate control unit stands out in comfort and user-friendliness. It features one-touch defrosting, park ventilation, park heating with timer, rest heat and automatic air recirculation and can also be operated using the rear wall control unit. All of which adds up to maximum driver comfort.

## **New Interior Lighting**

The interior lighting with an innovative rotary switch control has been completely redesigned. The control button is centrally located in the middle of the dashboard console so it is within easy reach. The driver can select different lighting modes for various driving and resting conditions, and there's also a dimming function. For convenience, there's a toggle switch on the rear wall.

## **Attractive Interior**

New warm and sophisticated sand colours for dashboard, seats, curtains, mattresses and side and back walls give the interior a great appearance in which every driver feels comfortable.

## **Even Better Driver Information**

The driver's access to information has been further expanded, making it easier to take effective action. The clear instrument panel has new fonts and styling for improved readability. The Driver Information Panel (DIP) provides more information to increase driver comfort and efficiency. To enhance driver performance even further, settings are grouped on the instrument panel logically and the Driver Performance Assistant (DPA) includes even more tips for economical driving.

## **High-End Trim**

The dashboard comes in Dark Sand trim with Piano Black deco panels as standard. The deco panels also come in the colours Rustica (dark wood) and Argenta (silver). It all adds up to a stylish, modern look.

## **Driver Configurable Switches**

Thanks to smart electronics, the positioning of switches can be adapted to individual applications and preferences. This adds to great driver comfort as well as maximum vehicle efficiency.

# New exterior styling and design

Exterior styling design includes a range of aesthetic developments as well as a number of enhancements that improve the truck's aerodynamics for greater efficiency.

## New Sun Visor

The sun visor has a new design to optimise aerodynamics and enhance fuel efficiency. It also includes a stylish aluminium-look element for great exterior appeal.

## Rounded Shape

The new XF has a more rounded shape with larger radii on the corners, without compromising comfort in the cabin.

## Upper Panel and DAF Logo

The panel above the grille has been enlarged with the DAF logo now centred to provide a bold exterior.

## New Air Deflector Kits

New air deflector kits reduce drag.

## LED Headlights

New headlights complement the exterior design.

## Great Welcome

A stylish DAF-logo in the doorstep welcomes the driver to the luxurious cab.

## Lower Bumper Insert

For a high-end look, the lower bumper has an aluminium-look accent.

## Grille Mesh

Grille mesh gives The New XF a strong, appealing and modern look.

## Cab Closures

New cab split closures channel the air into the radiator and improve the airflow.
