1. Cargo bay dimensions quoted at maximum length, and are provided for guidance only. The cargo bay is an asymmetric shape and dimensions are therefore variable. Customers must check critical dimension requirements by measuring vehicle. 2. Kerb Weight where quoted is for the vehicle unoccupied and unladen with all fluid reservoirs (inc fuel) filled to nominal capacity. Tare Weight where quoted is for the vehicle unoccupied and unladen with full fluids and 10 litres fuel. Weights may change with the addition of equipment. An individual vehicle must be weighed to establish the exact kerb weight and payload applicable to that vehicle. It is the responsibility of the driver to ensure the vehicle is operated within the legal limits. 3. All data for genuine Peugeot accessories only. See owner's handbook for more information. 4. Fuel consumption results are based on NEDC's standard test procedure to provide customers with a basis for comparison of the performance of vehicles in accordance with ADR 81/02 only. No test can simulate all 'real world' driving conditions. Actual on-road fuel consumption is will vary due to factors such as traffic conditions, vehicle conditions and load, fuel quality and how the vehicle is driven.
