Founded in 1970, Remsa has extensive manufacturing knowledge and expertise in producing brake parts. Remsa today is regarded as one of the leading manufacturers of the world's friction industry.

With production of over 130 million brake pieces annually, manufactured in 12 dedicated factories around the world, Remsa brake pads cover up to 99% of European, American, Japanese, Korean and Australian applications.

100% of the pad production is manufactured to OE standards and all pads are ECE R90 certified to deliver the best quality aftermarket pad on the market.

Every DAF truck that rolls off the production line has already travelled a long road through development and testing. This ensures that all our trucks meet the highest standards in relation to safety, reliability, performance, operating costs and the environment.

We also place the same high demands on our DAF Genuine Parts. This makes it possible for you to obtain the maximum returns from your truck.

100 YEARS OF CUMMINS

2019 marks Centennial celebrations for Cummins. Cummins as a brand is far more than a logo. It represents their identity, their beliefs and the journey, both past and future.

As part of the Cummins family, Fleetguard has been manufacturing quality filtration, coolant and emissions control products for over 60 years.

The Fleetguard range offers dependability and reliability beyond OEM specifications, field tested in Australian conditions. All Fleetguard products are backed by the most comprehensive warranty in the industry, so you're not only buying quality but peace of mind.

ENGINE

BE CONFIDENT IN YOUR FUEL

The sophistication of today's equipment requires higher fuel and fluid cleanliness levels than ever before. Donaldson bulk tank filtration systems help save on costly component replacement, prevent unplanned downtime and even prevent a decrease in fuel efficiency due to injector wear.

Donaldson Clean Diesel kits are easy to install and come with everything needed to filter out even the finest contaminants before they enter your equipment's fuel system.

For complete protection Donaldson recommend installing a T.R.A.P. Breather to keep airborne contamination and moisture from entering your tank.

Clean & Dry Kit - P506073

Ideal for:

- All diesel fuel applications up to 189 litres per minute
- Service Vehicles, Mobile & Fixed Bulk Tanks

Replacement Elements

- DBB8666 - Fuel Filter 4 micron @ Beta 2000

TRANSPEC

BPW is Europe's leading manufacturer of commercial trailer axles and suspension systems and offers axles with capacities up to 30 tonne. Designed and developed in Germany, BPW axles have been used in Australia since the 1950's and are industry proven in Australia's demanding conditions. BPW manufactures all of its components to exacting standards to ensure longevity and reliability, and as many customers across Australia will attest to, BPW equipment is not only reliable and safe, it also offers excellent low operating costs.

Prices herein are recommended selling prices for both Privilege members and non-members, inclusive of GST. Recommended selling prices are a guide only and there is no obligation for Dealers to comply with these recommendations. Freight charges may apply. All items have been included in good faith on the basis that goods will be available at the time of sale. Prices and promotions are available at participating Dealers from 1 April to 31 May 2019 or while stocks last.

*Calls from Australian landlines are generally free of charge whilst calls from mobile phones are typically charged based on the rate determined by the caller's mobile service provider. Please check with your mobile service provider for call rates.
