

NEW SERVICE PROVIDERS AT CAPITAL AND WOODLAWN WIND FARMS

The wind turbines at Infigen's wind farms are manufactured by four turbine manufacturers providers: Vestas (Lake Bonney 1, 2 and 3), Vestas and NEG Micon (Alinta wind farm), Suzlon (Capital and Woodlawn wind farms) and GE (Bodangora wind farm that is under construction). While Infigen is the owner of these wind farms, the service and maintenance of the turbines at the operating wind farms have been outsourced to Vestas (Lake Bonne and Alina wind farms) and Suzlon (Capital and Woodlawn wind farms).

In June 2017 Infigen executed service and maintenance agreements with Vestas for all of its operating assets (excluding Bodangora). The new agreements come into effect on 1 January 2018.

Vestas designs, manufactures, installs, and services wind turbines across the globe, and with more than 83 GW of wind turbines in 75 countries, they have installed more wind power than anyone else.

CAPITAL COMMUNITY COMMITTEE

The Capital Community Committee met on 22 June 2017 at the Woodworks Café in Bungendore to review sponsorship applications.

It was decided that the Bungendore Community Soccer team would receive \$2,500 towards purchasing equipment and new jerseys; the Bungendore Spring Ball would receive \$5,000 in support of organising the charity ball; and the Bungendore BP&H Society would receive \$15,380 towards upgrading doors and windows of the Showground Pavilion.

Members of the committee are Judy Alcock, Jane Osborne, Sarah Hyles, and Michael Johnson with Broughen Richardson providing administrative support. Infigen's Capital community fund of \$42,000 is available for applications from 1 June 2017 to 31 May 2018. You can apply online at www.surveymonkey.com/r/Infigen-sponsorship-applications

ABOUT INFIGEN ENERGY

Infigen Energy (Infigen) is an active participant in the Australian energy market. It is a developer, owner and operator of generation assets delivering energy solutions to Australian businesses and large retailers.

Infigen has 557 MW of installed generation capacity across New South Wales, South Australia and Western Australia with a further 113 MW under construction in New South Wales. It sells the electricity and Large-scale Generation Certificates through a combination of medium and long-term contracts and through the spot market.

Infigen is looking to diversify and expand its customer base and will grow its generation portfolio in response to strong price and investment signals. In the short term it is targeting expansion in New South Wales and entry into the Victorian and Queensland regions of the National Electricity Market.
