Hi Scott,

May I ask for another 3 month extension to the Information Request response period for this application, until Tuesday, 13 January 2026?

I understand that they now have a confirmed position on the infrastructure and have engaged engineers who are preparing the flood assessment in accordance with the latest TLPI. This will inform the final layout and then we have our consultants ready to finalise their technical reporting on receipt of the final layout.

I anticipate being in a position to lodge the response to the Information Request in the next 6-8 weeks however, we also have a 6 week public notification period and would like to avoid the blackout period. As such, if we can please have the extension until January.

Thanks Scott. Please give me a call if you wish to discuss.

Kind Regards,

**Nikki Christmas**
