

BRUTUS LOUNGE CHAIR

The Brutus collection is inspired by the architectural Brutalism movement of the mid-20th century.

Each style is designed as a simplified block-like structure, which reminisces architectural building components of concrete. Characterized by its curved back and armrest, Brutus emphasizes the fine balance between sharp architectural lines and soft organic curves, creating a sculptural signature and increasing the overall seating comfort.

The Brutus collection features a dining chair, lounge chair and a coffee table all cast in lightweight fiber concrete, which creates a unique surface texture and increases mobility. Each piece is hand painted with multiple layers of paint, creating a unique and textured surface.
