

**THIS FORM IS TO BE COMPLETED BY THE CUSTOMER**

1. Customers must notify Tigerair of any intended carriage of a Continuous Positive Airway Pressure machine onboard Tigerair aircraft.
2. Only battery powered equipment may be used onboard Tigerair flights. The aircraft power supply is not permitted to be used.
3. Customers must carry sufficient batteries to last the entire journey to operate the unit for 150% of the total expected travel time. This includes the duration of that flight, all ground time before and after the flight, any other sectors to be flown and for any unexpected delays.
4. Any spare batteries are to be carried in carry-on luggage only as long as they are carried in a way that protects them from short-circuit or damage. Lithium ion batteries must meet Tigerair dangerous goods requirements. For further information refer to the Tigerair website.
5. This form must be returned to Tigerair at least five (5) days prior to travel for assessment by our team. Once this form has been completed please e-mail it to [priorityassistance@tigerair.com.au](mailto:priorityassistance@tigerair.com.au). Customers will be contacted by a member of our team within 48 hours of submitting this form.
6. Customers must carry a copy of their approved form on each sector of their journey to present to Ground Services at check-in and to Cabin Crew during boarding.
