

## Transfers and clearances

### Explaining the difference of transfers and clearances

**Transfers** – Person Transfer involves adding an existing person’s record to one or more other organisations – however a person only has one record.

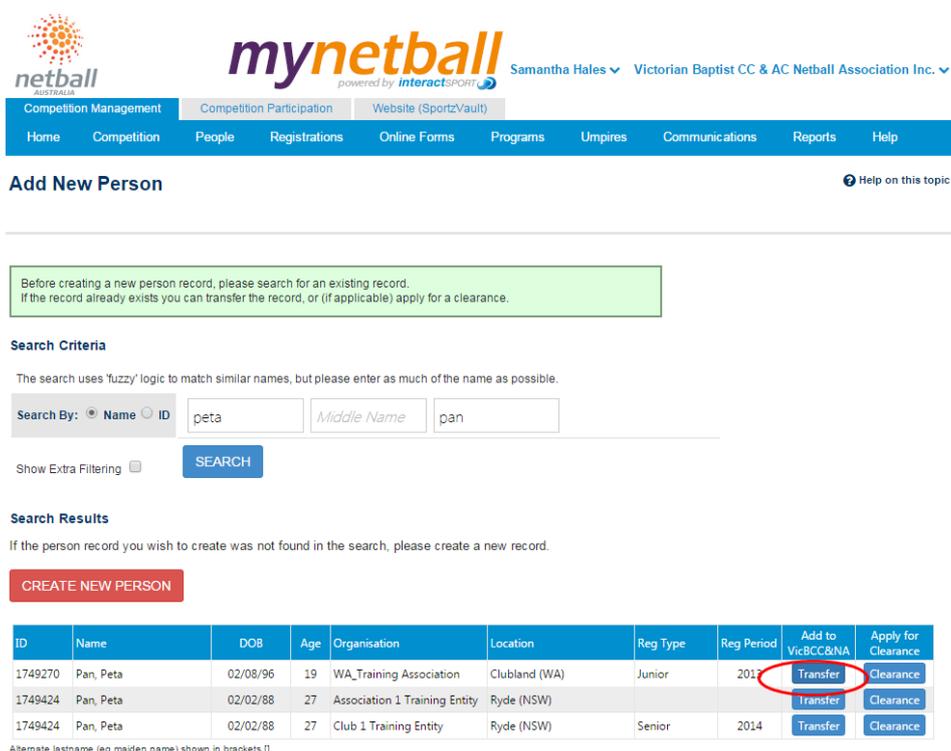

Transferring a person does not alter the Roles held by the person within other organisations. It is up to those organisations to remove roles as appropriate. For example, if a person is a **PLAYER** at Club **A**, and wishes to play at Club **B**, Club **B** would initiate the transfer. This adds a **PLAYER** role for the person at Club **B**. If the person is no longer playing at Club **A**, Club **A** should remove the **PLAYER** role from the person record.

For Privacy reasons, you cannot edit this record for 5 days, however you are able to register the player and select them on a team.

**Clearances** – moving a player from one association to another OR moving from one club to another OR one club to another association, does need authorisation, and is referred to in MyNetball as a clearance.

### Transferring an existing record to your association

If your member is on list but is not linked to your association or club you will need to click on the transfer button.

### Add New Person Help on this topic

Before creating a new person record, please search for an existing record.  
If the record already exists you can transfer the record, or (if applicable) apply for a clearance.

**Search Criteria**

The search uses 'fuzzy' logic to match similar names, but please enter as much of the name as possible.

Search By:  Name  ID

Show Extra Filtering

**Search Results**

If the person record you wish to create was not found in the search, please create a new record.
