Installation Manual

Notes

- System rating: DC48V
- FOR INDOOR USE ONLY and in dry and dust free spaces. System is rated IP20.
- Do NOT electrically or physically overload system.
- Use only products intended for operation (DC48V) in this track or compatible.
- The secondary wiring should be kept as short as possible to ensure good EMC. The max. secondary cable length is 30m including track.

Installation Steps

1. To install, cut the ceiling with a linear cut-out of 36mm width and required length Fig 2.
2. Push the track inside the ceiling as shown in fig 3.
3. Turn the screw clockwise to secure the track to the ceiling as shown in fig 4 and fig 5.
4. Click-in the required light fittings to the recessed track and installation is complete. Fig 6.
