23.4 For the purposes of general condition 23, the expression "periodic outgoings" does not include any amounts to which section 10G of the *Sale of Land Act 1962* (Vic) applies.

24.1 Words defined or used in Subdivision 14-D of Schedule 1 to the *Taxation Administration Act 1953* (Cth) (Tax Act) have the same meaning in this general condition unless the context requires otherwise.

24.2 Every vendor under this contract is a foreign resident for the purposes of this general condition unless the vendor gives the purchaser a clearance certificate issued by the Commissioner under section 14-220 (1) of Schedule 1 to the Tax Act. The specified period in the clearance certificate must include the actual date of settlement.

24.3 The remaining provisions of this general condition 24 only apply if the purchaser is required to pay the Commissioner an amount in accordance with section 14 -200(3) or section 14-235 of Schedule 1 to the Tax Act ("the amount") because one or more of the vendors is a foreign resident, the property has or will have a market value not less than the amount set out in section 14-215 of the legislation just after the transaction, and the transaction is not excluded under section 14-215(1) of the legislation.

24.4 The amount is to be deducted from the vendor's entitlement to the contract consideration. The vendor must pay to the purchaser at settlement such part of the amount as is represented by non-monetary consideration.

24.5 The purchaser must –

(a) engage a legal practitioner or conveyancer ("representative") to conduct all the legal aspects of settlement, including the performance of the purchaser's obligations under the legislation and this general condition; and

(b) ensure that the representative does so.

24.6 The terms of the representative's engagement are taken to include instructions to have regard to the vendor's interests and instructions that the representative must –

The information must be provided within 5 business days of request by the purchaser. The vendor warrants that the information the vendor provides is true and correct.

25.4 The remaining provisions of this general condition 25 apply if the purchaser is or may be required to pay the Commissioner an *amount in accordance with section 14-250 of Schedule 1 to the Tax Act because the property is *new residential premises or *potential residential land in either case falling within the parameters of that section, and also if the sale attracts the operation of section 14-255 of the Tax Act. Nothing in this general condition 25 is to be taken as relieving the vendor from compliance with section 14-255.

25.5 The amount is to be deducted from the vendor's entitlement to the contract *consideration and is then taken to be paid to the vendor, whether or not the vendor provides the purchaser with a GST withholding notice in accordance with section 14 -255 of Schedule 1 to the Tax Act. The vendor must pay to the purchaser at settlement such part of the amount as is represented by non-monetary consideration.

25.6 The purchaser must –

(b) the purchaser may at settlement give the vendor a bank cheque for the amount in accordance with section 16-30 (3) of Schedule 1 to the Tax Act, but only if.

(a) so agreed by the vendor in writing; and

(b) the settlement is not conducted through an electronic lodgement network.

However, if the purchaser gives the bank cheque in accordance with this general condition 25.9, the vendor must –

(c) immediately after settlement provide the bank cheque to the Commissioner to pay the amount in relation to the supply; and

(d) give the purchaser a receipt for the bank cheque which identifies the transaction and includes particulars of the bank cheque, at the same time the purchaser gives the vendor the bank cheque.

25.10 A party must provide the other party with such information as the other party requires to –

(a) decide if an amount is required to be paid or the quantum of it, or

(b) the amount described in a written notice given by the vendor to the purchaser under section 14-255 of Schedule 1 to the Tax Act is the correct amount required to be paid under section 14-250 of the legislation.

25.12 The purchaser is responsible for any penalties or interest payable to the Commissioner on account of non- payment or late payment of the amount, except to the extent that –

(a) the penalties or interest arise from any failure on the part of the vendor, including breach of a warranty in general condition 25.11; or

(b) the purchaser has a reasonable belief that the property is neither new residential premises nor potential residential land requiring the purchaser to pay an amount to the Commissioner in accordance with section 14-250(1) of Schedule 1 to the Tax Act.

The vendor is responsible for any penalties or interest payable to the Commissioner on account of non-payment or late payment of the amount if either exception applies.

Due diligence checklist

What you need to know before buying a residential property

Before you buy a home, you should be aware of a range of issues that may affect that property and impose restrictions or obligations on you, if you buy it. This checklist aims to help you identify whether any of these issues will affect you. The questions are a starting point only and you may need to seek professional advice to answer some of them. You can find links to organisations and web pages that can help you learn more, by visiting the Due diligence checklist page on the Consumer Affairs Victoria website (consumer.vic.gov.au/duediligencechecklist).

Urban living

Moving to the inner city?

High density areas are attractive for their entertainment and service areas, but these activities create increased traffic as well as noise and odours from businesses and people. Familiarising yourself with the character of the area will give you a balanced understanding of what to expect.

Is the property subject to an owners corporation?

If the property is part of a subdivision with common property such as driveways or grounds, it may be subject to an owners corporation. You may be required to pay fees and follow rules that restrict what you can do on your property, such as a ban on pet ownership.

Growth areas

Are you moving to a growth area?

You should investigate whether you will be required to pay a growth areas infrastructure contribution.

Flood and fire risk

Does this property experience flooding or bushfire?

Properties are sometimes subject to the risk of fire and flooding due to their location. You should properly investigate these risks and consider their implications for land management, buildings and insurance premiums.

Rural properties

Moving to the country?

If you are looking at property in a rural zone, consider:

- Is the surrounding land use compatible with your lifestyle expectations? Farming can create noise or odour that may be at odds with your expectations of a rural lifestyle.
- Are you considering removing native vegetation? There are regulations which affect your ability to remove native vegetation on private property.
- Do you understand your obligations to manage weeds and pest animals?

Can you build new dwellings?

Does the property adjoin crown land, have a water frontage, contain a disused government road, or are there any crown licences associated with the land?

Is there any earth resource activity such as mining in the area?

You may wish to find out more about exploration, mining and quarrying activity on or near the property and consider the issue of petroleum, geothermal and greenhouse gas sequestration permits, leases and licences, extractive industry authorisations and mineral licences.

Soil and groundwater contamination

Has previous land use affected the soil or groundwater?

You should consider whether past activities, including the use of adjacent land, may have caused contamination at the site and whether this may prevent you from doing certain things to or on the land in the future.

Land boundaries

Do you know the exact boundary of the property?

You should compare the measurements shown on the title document with actual fences and buildings on the property, to make sure the boundaries match. If you have concerns about this, you can speak to your lawyer or conveyancer, or commission a site survey to establish property boundaries.

Planning controls

Can you change how the property is used, or the buildings on it?

All land is subject to a planning scheme, run by the local council. How the property is zoned and any overlays that may apply, will determine how the land can be used. This may restrict such things as whether you can build on vacant land or how you can alter or develop the land and its buildings over time.

The local council can give you advice about the planning scheme, as well as details of any other restrictions that may apply, such as design guidelines or bushfire safety design. There may also be restrictions – known as encumbrances – on the property's title, which prevent you from developing the property. You can find out about encumbrances by looking at the section 32 statement.

Are there any proposed or granted planning permits?

The local council can advise you if there are any proposed or issued planning permits for any properties close by. Significant developments in your area may change the local 'character' (predominant style of the area) and may increase noise or traffic near the property.

Safety

Is the building safe to live in?

Building laws are in place to ensure building safety. Professional building inspections can help you assess the property for electrical safety, possible illegal building work, adequate pool or spa fencing and the presence of asbestos, termites, or other potential hazards.

Building permits

Have any buildings or retaining walls on the property been altered, or do you plan to alter them?

There are laws and regulations about how buildings and retaining walls are constructed, which you may wish to investigate to ensure any completed or proposed building work is approved. The local council may be able to give you information about any building permits issued for recent building works done to the property, and what you must do to plan new work. You can also commission a private building surveyor's assessment.

Are any recent building or renovation works covered by insurance?

Ask the vendor if there is any owner-builder insurance or builder's warranty to cover defects in the work done to the property.

Utilities and essential services

Does the property have working connections for water, sewerage, electricity, gas, telephone and internet?

Unconnected services may not be available, or may incur a fee to connect. You may also need to choose from a range of suppliers for these services. This may be particularly important in rural areas where some services are not available.

Buyers' rights

Do you know your rights when buying a property?

The contract of sale and section 32 statement contain important information about the property, so you should request to see these and read them thoroughly. Many people engage a lawyer or conveyancer to help them understand the contracts and ensure the sale goes through correctly. If you intend to hire a professional, you should consider speaking to them before you commit to the sale. There are also important rules about the way private sales and auctions are conducted. These may include a cooling-off period and specific rights associated with 'off the plan' sales. The important thing to remember is that, as the buyer, you have rights.s

Notes to Certificate - Land Tax

Certificate No: 10935705

Power to issue Certificate

1. Pursuant to section 95AA of the ***Taxation Administration Act 1997***, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

Amount shown on Certificate

2. The Certificate shows any land tax (including Vacant Residential Land Tax, interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue. In addition, it may show:
   - Land tax that has been assessed but is not yet due,
   - Land tax for the current tax year that has not yet been assessed, and
   - Any other information that the Commissioner sees fit to include, such as the amount of land tax applicable to the land on a single holding basis and other debts with respect to the property payable to the Commissioner.

Land tax is a first charge on land

3. Unpaid land tax (including Vacant Residential Land Tax, interest and penalty tax) is a first charge on the land to which it relates. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any such unpaid land tax.

Information for the purchaser

4. Pursuant to section 96 of the ***Land Tax Act 2005***, if a purchaser of the land described in the Certificate has applied for and obtained a certificate, the amount recoverable from the purchaser by the Commissioner cannot exceed the amount set out in the certificate, described as the "Current Land Tax Charge and Vacant Residential Land Tax Charge" overleaf. A purchaser cannot rely on a Certificate obtained by the vendor.

Information for the vendor

5. Despite the issue of a Certificate, the Commissioner may recover a land tax liability from a vendor, including any amount identified on this Certificate.

Apportioning or passing on land tax to a purchaser

6. A vendor is prohibited from apportioning or passing on land tax including vacant residential land tax, interest and penalty tax to a purchaser under a contract of sale of land entered into on or after 1 January 2024, where the purchase price is less than $10 million (to be indexed annually from 1 January 2025, as set out on the website for Consumer Affairs Victoria).

General information

7. A Certificate showing no liability for the land does not mean that the land is exempt from land tax. It means that there is nothing to pay at the date of the Certificate.

8. An updated Certificate may be requested free of charge via our website, if:
   - The request is within 90 days of the original Certificate's issue date, and
   - There is no change to the parties involved in the transaction for which the Certificate was originally requested.

Notes to Certificate - Commercial and Industrial Property Tax

Certificate No: 10935705

Power to issue Certificate

1. Pursuant to section 95AA of the ***Taxation Administration Act 1997,*** the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

Amount shown on Certificate

2. The Certificate shows any commercial and industrial property tax (including interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue.

Australian Valuation Property Classification Code (AVPCC)

3. The Certificate may show one or more AVPCC in respect of land described in the Certificate. The AVPCC shown on the Certificate is the AVPCC allocated to the land in the most recent of the following valuation(s) of the land under the ***Valuation of Land Act 1960:***
   - a general valuation of the land;
   - a supplementary valuation of the land returned after the general valuation.
4. The AVPCC(s) shown in respect of land described on the Certificate can be relevant to determine if the land has a qualifying use, within the meaning given by section 4 of the ***Commercial and Industrial Property Tax Reform Act 2024*** (CIPT Act). Section 4 of the CIPT Act Land provides that land will have a qualifying use if:
   - the land has been allocated one, or more than one, AVPCC in the latest valuation, all of which are in the range 200-499 and/or 600-699 in the Valuation Best Practice Specifications Guidelines (the requisite range);
   - the land has been allocated more than one AVPCC in the latest valuation, one or more of which are inside the requisite range and one or more of which are outside the requisite range, and the land is used solely or primarily for a use described in an AVPCC in the requisite range; or
   - the land is used solely or primarily as eligible student accommodation, within the meaning of section 3 of the CIPT Act.

Commercial and industrial property tax information

5. If the Commissioner has identified that land described in the Certificate is tax reform scheme land within the meaning given by section 3 of the CIPT Act, the Certificate may show in respect of the land:
   - the date on which the land became tax reform scheme land;
   - whether the entry interest (within the meaning given by section 3 of the Duties Act 2000) in relation to the tax reform scheme land was a 100% interest (a whole interest) or an interest of less than 100% (a partial interest); and
   - the date on which the land will become subject to the commercial and industrial property tax.
6. A Certificate that does not show any of the above information in respect of land described in the Certificate does not mean that the land is not tax reform scheme land. It means that the Commissioner has not identified that the land is tax reform scheme land at the date of issue of the Certificate. The Commissioner may identify that the land is tax reform scheme land after the date of issue of the Certificate.

Change of use of tax reform scheme land

7. Pursuant to section 34 of the CIPT Act, an owner of tax reform scheme land must notify the Commissioner of certain changes of use of tax reform scheme land (or part of the land) including if the actual use of the land changes to a use not described in any AVPCC in the range 200-499 and/or 600-699. The notification must be given to the Commissioner within 30 days of the change of use.

Commercial and industrial property tax is a first charge on land

8. Commercial and industrial property tax (including any interest and penalty tax) is a first charge on the land to which the commercial and industrial property tax is payable. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any unpaid commercial and industrial property tax.

Information for the purchaser

9. Pursuant to section 27 of the CIPT Act, if a bona fide purchaser for value of the land described in the Certificate applies for and obtains a Certificate in respect of the land, the maximum amount recoverable from the purchaser is the amount set out in the Certificate. A purchaser cannot rely on a Certificate obtained by the vendor.

Information for the vendor

10. Despite the issue of a Certificate, the Commissioner may recover a commercial and industrial property tax liability from a vendor, including any amount identified on this Certificate.

Passing on commercial and industrial property tax to a purchaser

11. A vendor is prohibited from apportioning or passing on commercial and industrial property tax to a purchaser under a contract of sale of land entered into on or after 1 July 2024 where the purchase price is less than $10 million (to be indexed annually from 1 January 2025, as set out on the website for Consumer Affairs Victoria).

General information

12. Land enters the tax reform scheme if there is an entry transaction, entry consolidation or entry subdivision in respect of the land (within the meaning given to those terms in the CIPT Act). Land generally enters the reform on the date on which an entry transaction occurs in respect of the land (or the first date on which land from which the subject land was derived (by consolidation or subdivision) entered the reform).
13. The Duties Act includes exemptions from duty, in certain circumstances, for an eligible transaction (such as a transfer) of tax reform scheme land that has a qualifying use on the date of the transaction. The exemptions apply differently based on whether the entry interest in relation to the land was a whole interest or a partial interest. For more information, please refer to www.sro.vic.gov.au/CIPT.
14. A Certificate showing no liability for the land does not mean that the land is exempt from commercial and industrial property tax. It means that there is nothing to pay at the date of the Certificate.
15. An updated Certificate may be requested free of charge via our website, if:
    - the request is within 90 days of the original Certificate's issue date, and
    - there is no change to the parties involved in the transaction for which the Certificate was originally requested.

Windfall gains tax is a first charge on land

Passing on windfall gains tax to a purchaser

8. A vendor is prohibited from passing on a windfall gains tax liability to a purchaser where the liability has been assessed under a notice of assessment as at the date of the contract of sale of land or option agreement. 10. An updated Certificate may be requested free of charge via our website, if:
    - The request is within 90 days of the original Certificate's issue date, and

STATEMENT OF ADVICE AND INFORMATION FOR PROSPECTIVE PURCHASERS AND LOT OWNERS

SCHEDULE 3

Owners Corporations Regulations 2018 Regulation 17

What is an Owners Corporation?

The lot you are considering buying is part of an Owners Corporation. Whenever a plan of subdivision creates common property, an Owners Corporation is responsible for managing the common property. A purchaser of a lot that is part of an Owners Corporation automatically becomes a member of the Owners Corporation when the transfer of that lot to the purchaser has been registered with Land Victoria.

If you buy into an Owners Corporation, you will be purchasing not only the individual property, but also ownership of, and the right to use, the common property as set out in the plan of subdivision. This common property may include driveways, stairs, paths, passages, lifts, lobbies, common garden areas and other facilities set up for use by owners and occupiers. In order to identify the boundary between the individual lot you are purchasing (for which the owner is solely responsible) and the common property (for which all members of the Owners Corporation are responsible), you should closely inspect the plan of subdivision.

How are decisions made by an Owners Corporation?

As an owner, you will be required to make financial contributions to the Owners Corporation, in particular for the repair, maintenance and management of the common property. Decisions as to the management of this common property will be the subject of collective decision making. Decisions as to these financial contributions, which may involve significant expenditure, will be decided by a vote.

Owners Corporation rules

The Owners Corporation rules may deal with matters such as car parking, noise, pets, the appearance or use of lots, behaviour of owners, occupiers or guests and grievance procedures.

You should look at the Owners Corporation rules to consider any restrictions imposed by the rules.

Lot entitlement and lot liability

The plan of subdivision will also show your lot entitlement and lot liability. Lot liability represents the share of Owners Corporation expenses that each Lot Owner is required to pay. Lot entitlement is an owner's share of ownership of the common property, which determines voting rights. You should make sure that the allocation of lot liability and entitlement for the lot you are considering buying seems fair and reasonable.

Further information

If you are interested in finding out more about living in an Owners Corporation, you can contact Consumer Affairs Victoria. If you require further information about the particular Owners Corporation you are buying into you can inspect that Owners Corporation's information register. Management of an Owners Corporation An Owners Corporation may be self-managed by the Lot Owners or professionally managed by an Owners Corporation Manager. If an Owners Corporation chooses to appoint a professional manger, it must be a Manager registered with the Business Licensing Authority (BLA).

IF YOU ARE UNCERTAIN ABOUT ANY ASPECT OF THE OWNERS CORPORATION OR THE DOCUMENTS YOU HAVE RECEIVED FROM THE OWNERS CORPORATION, YOU SHOULD SEEK EXPERT ADVICE.

Dear Members,

Thank you to those members who were able to attend the recent Annual General Meeting (AGM) for the Saltwater Coast Owner's Corporation (OC) and residential community held on Thursday 5th of March 2026 at the Saltwater Coast Lifestyle Centre.

Enclosed is a copy of the Annual General Meeting Interim Minutes. We invite you to take a moment to review the minutes and if you have any questions, please do not hesitate to contact your Community Management Team at Quantum United Management via saltwater@quantumunited.com.au.

Owners Corporation Fees:

The proposed budget was approved by the members at the AGM, and we would like to advise that there has been no fee increase for the current financial year, with the fees to be issued at $948.00 (incl GST) per lot per annum.

GET READY FOR A BETTER LIFE.

IT ALL STARTS HERE: YOUR DESIGN GUIDE TO THE CONSTRUCTION AND MAINTENANCE OF YOUR LIFESTYLE AND INVESTMENT.

1 INTRODUCTION

1.1 ABOUT AVEO

AVEO's vision for Saltwater Coast is a delicate balance of urban, natural coastal and rural residential themes providing a popular living environment responsive to the characteristic, aspiration and cultural identity of the community.

Saltwater Coast will offer a choice of homesites to suit every lifestyle. Designs will reflect a unified contemporary Australian style with a clear coastal influence.

Premium lots will retain captivating vistas to Port Phillip Bay and the Melbourne CBD skyline, whilst more affordable lots will provide a convenient low-maintenance lifestyle.

Saltwater Coast will respond to the distinctive coastal identity and contribute to the natural setting.

Saltwater Coast will also boast an array of lifestyle facilities with the planned commercial and retail shopping precinct, providing residents with convenience and specialty shops and the proposed Saltwater Lifestyle Centre featuring a recreation club, indoor and outdoor pool and gym.

1.2 SALTWATER COAST VISION

Saltwater Coast is a thriving bayside community, located only 20kms from the city. Situated in tranquil Point Cook, it's surrounded by the Point Cook Coastal Park, a protected marine sanctuary and the Cheetham Wetlands.

Designed with the community in mind, residents at Saltwater Coast have a lot to look forward to. They can enjoy access to a state-of-the-art Lifestyle Centre, with three pools, a gym, function room, bar and a café. There are also over 120 acres of parklands with BBQ facilities, playgrounds and picnic areas. Plus the development is only a stones throw from a number of great beaches.

What's more, its location by Port Phillip Bay makes it the last development in Melbourne with bay and city views. Just another reason why Saltwater Coast is a great place to call home.

1.3 TELSTRA SMART COMMUNITY®

Saltwater Coast is a Telstra Smart Community®. This provides our development with an exclusive Telstra Velocity™ network which uses the next generation optical fibre to smart wire your new home with the most up to date communication and entertainment services.

Figure 1.

2 THE PURPOSE

The Design Guidelines are intended to protect your lifestyle and investment by ensuring a high standard of design, construction and maintenance of all dwellings and landscaping; and by providing owners and builders with guidance on their home and garden designs.

The Design Guidelines allow flexibility in housing styles and formats to suit your lifestyle, without compromising the prestige and character of the community.

Saltwater Coast will provide enhanced streetscapes, parks, lakes, wetlands and valuable community amenities. It is particularly important that individual residences contribute to the overall character and image of the community estate.

All residential building designs must be approved and endorsed by the Saltwater Coast Design Review Committee. Compliance with the Design Guidelines is a requirement of your Contract of Sale prior to obtaining your building permit.

Buildings designed for non-residential uses (including community centres) are exempt from the Building Design Guidelines.

2.1 THE STRUCTURE

The Design Guidelines have been written to help you design your new home with high levels of amenity, privacy, sustainability and visual appeal, in terms of architectural form, building materials, colours and landscape treatments. Individuality is encouraged and the design of all new homes must reflect a contemporary Australian design character.

The Design Guidelines comprise a number of sections, each relating to different aspects of your home layout and design. These include:

- Site Layout and Set Backs
- Building Height
- Architectural Design
- Access and Parking
- Landscape
- Fencing
- Ancillary Features

Within each section, a series of Design Objectives and Design Controls are provided. The Design Objectives are intended to communicate the broad principles for the design and siting of your home and landscape, and the corresponding Design Controls are specific standards which must be met when designing your home. The design of your home must be able to demonstrate clearly that it meets both the Design Objectives and the Design Controls.

Note: Unless otherwise specified in the Design Guidelines, all development must comply with the relevant provisions of ResCode, as contained within the Wyndham Planning Scheme (clauses 54 to 56). Other relevant Government requirements such as Building Code of Australia (BCA) provisions for energy efficient new housing with a minimum of 5 star rating must also be demonstrated. Only house designs that satisfy these requirements will be permitted to be constructed.

Figure 2.

2.2 THE PROCESS

Step 1 Once you have purchased your property, decide upon your builder, house and façade design. If you are an owner-builder, consult with your building designer / architect to ensure that they are aware of the requirements of the Saltwater Coast Design Guidelines.

Step 2 Refer to the Design Guidelines and ensure the house design complies with or can be altered to comply with the Design Objectives and Design Controls. If unsure, contact the FKP Saltwater Coast Design Review Committee (DRC) for clarification.

DESIGN REVIEW COMMITTEE

Locked Bag 35007, Collins Street West, VIC 8007
Email drc@saltwatercoast.com.au
Phone 1300 357 000

Step 3 Forward your completed application package (see section 6 – Application Requirements) to the FKP Saltwater Coast Design Review Committee.

Step 4 Upon review by the Committee, written comments and feedback will be provided within 14 days to ensure compliance with the Saltwater Coast Design Guidelines. If required, non-conforming aspects of the design must be addressed and re-submitted for approval.

Any alterations to your approved design must be confirmed with the Review Committee.

Step 5 While the Review Committee has the authority to approve the house design applications, the property owner is responsible to obtain a building permit prior to construction.

Step 6 Commence construction of your home within 18 months of settling the land and complete construction within 30 months from date of settlement.

Landscaping of front gardens must be completed within 90 days of obtaining a Certificate of Occupancy.

3 THE VILLAGES

The vision for Saltwater Coast is to achieve a neighbourhood character which:

- Reflects a unified contemporary Australian style in residential development with a clear coastal influence.
- Retains important vistas to Port Phillip Bay and the Melbourne CBD skyline.
- Responds to the distinctive coastal identity and contributes to the natural setting.

Figure 4.

4 THE DESIGN GUIDELINES

4.1 SITE LAYOUT AND SET BACKS

4.1.1 Design Objectives

- To limit each lot to a single dwelling.
- To ensure a dedicated address and frontage to the street, or both streets for corner sites.
- To provide a consistent set back of houses along the street and encourage a high level of articulation.
- To provide the opportunity for landscape between houses.
- To encourage private living spaces on the north and east side of houses.
- To encourage useable private open space.
- To minimise overlooking and overshadowing of neighbours.
- To provide energy efficient housing appropriate to local conditions.
- To reduce resource consumption in the heating and cooling of your home.
- To promote passive methods of cooling your home.
- To ensure efficient and safe stormwater drainage and runoff from your property.

4.1.2 Design Controls

BUILDING ENVELOPES

- One single dwelling only may be constructed on each lot. Excluding Future Medium Density Sites.
- Lots greater than 450m² require a house plot (ground floor) of no less than 150m². Excluding Future Medium Density Sites.
- Lots smaller than 450m² require a house plot (ground floor) of no less than 110m². Excluding Future Medium Density Sites.

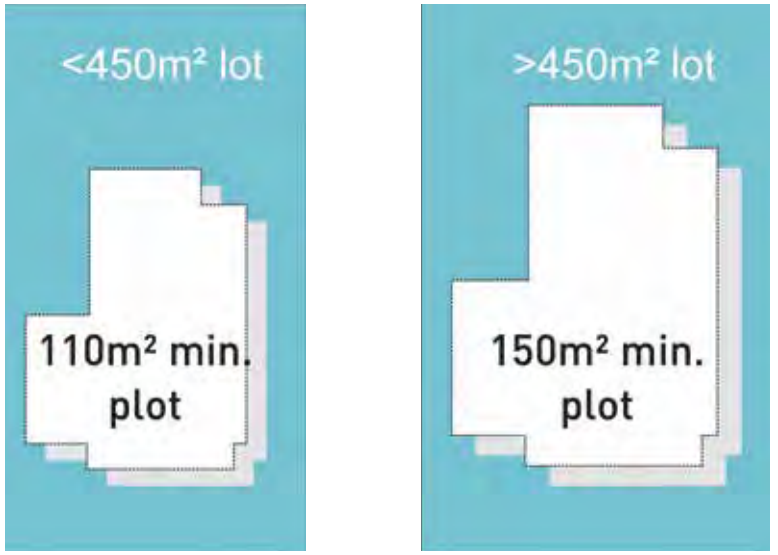

Figure 5.

SET BACKS

Building set backs are designed to create articulated streetscapes which respect view corridors. Set backs should also ensure good solar access is maintained to all habitable room windows and private open space, and avoid excessive amenity impact between lots. The following minimum set backs apply:

Single Dwelling Lots

Front Minimum 4.5m and maximum 5m from the front boundary to the building line.

Roofed verandah/porch/balcony elements and eaves may encroach no more than 1.5m into the front setbacks.

Rear Minimum 3.0m from the rear boundary.

Side Minimum 1.2m for single storey dwellings.

Minimum 1.8m for the upper level of double storey dwellings.

House design must comply with the provisions of ResCode as outlined in the Wyndham Planning Scheme (Clauses 54 to 56) unless specified. Single storey walls and garages may be built to the boundary if the design can be justified by demonstrating efficiency and amenity benefits. Dwellings will not be permitted to have zero lot line set backs on both side boundaries.

Garages Garages must be set back behind the front façade of the dwelling at least 0.5m.

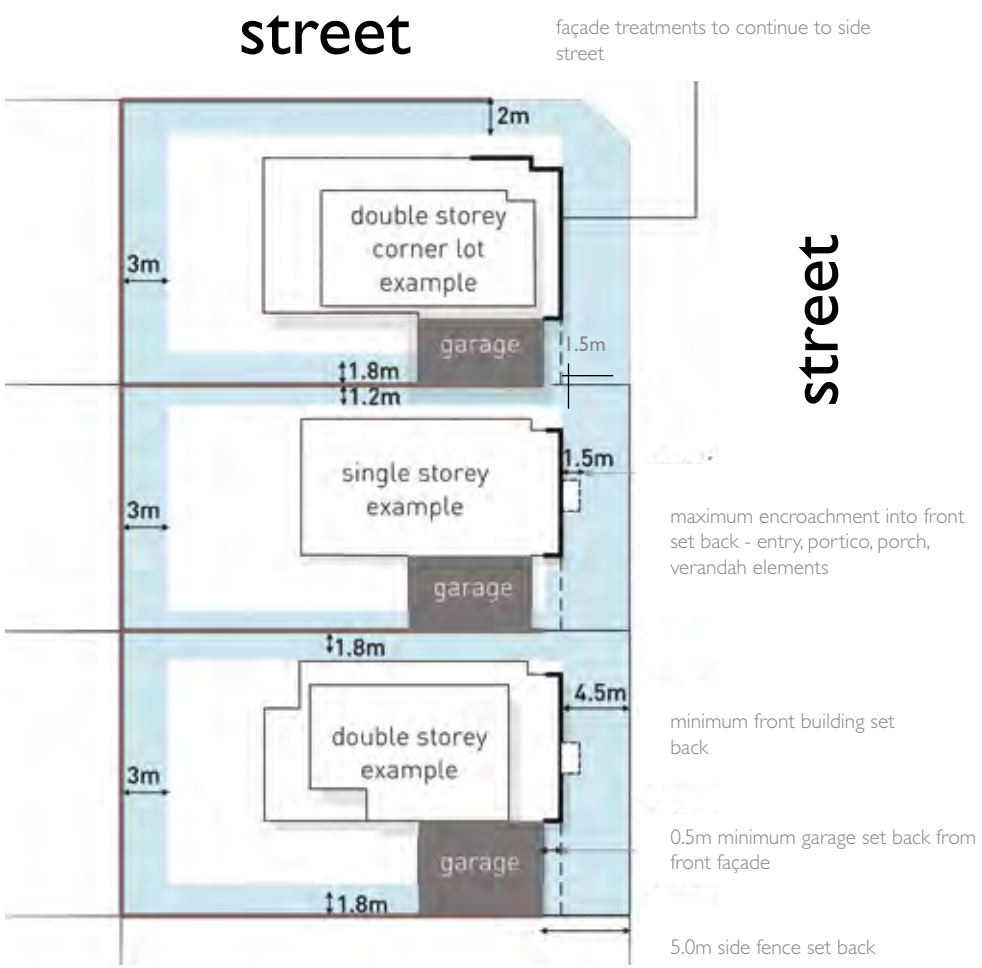

Figure 6.

Corner Single Dwelling Lots

Side

Minimum 2.0m from side street boundary.

Designs for corner sites must address both street frontages. Side elevations should be given equal attention on these sites to create 'multi-sided' buildings. Primary façade treatments must continue along the exposed side façade to at least the same depth of the starting point of side fencing.

A home that is constructed on a corner lot must address both streets so that:

- habitable room windows overlook the side street, and
- there are no external services visible from either street.

Corner lots to address both streets and continue façade treatments

Figure 7.

Future Medium Density Sites

Future Medium Density Sites are excluded from Site Layout and Set Back requirements.

Figure 8. North facing open space and direct access to living areas

Figure 9. Place windows to maximise solar access and natural ventilation

4.2 BUILDING HEIGHT

4.2.1 Design Objectives

- To ensure that all houses conform to a consistent range of heights.
- To ensure that no individual house dominates the streetscape or neighbourhood.

4.2.2 Design Controls

HEIGHT

- The height and form of two storey homes must be consistent with the objectives and standards of ResCode and relevant Building Regulations, in particular with respect to off-site amenity impacts including overshadowing, overlooking and visual bulk.
- Building height restrictions are applicable to single residential lots only unless approved by the saltwater coast DRC.

Note: Building height restrictions are applicable to single residential lots only and may not affect Future Medium Density Sites, commercial and / or community buildings.

Figure 10.

- Excluding Dedicated Medium Density Sites, buildings must not be of identical façades within three house lots along either side of the street. In the event that two applications request the same or similar façade design, approval will be granted to the first application to be received (see Figure 19).

- To ensure that garages do not dominate the streetscape.
- To achieve safe access for cars and pedestrians to each dwelling.
- To ensure that garages are set back behind the dwelling frontage.
- To limit the number of vehicle crossovers in the street.

4.4.2 Design Controls

ACCESS AND DRIVEWAYS

- The number of crossovers to individual properties is limited to one. Relocation of crossovers requires FKP Saltwater Coast Design Review Committee approval and related costs must be paid by the property owner prior to work commencing. Relocation is not always possible due to the layout of streets and underground services.
- Driveways must not dominate front gardens. They should be a secondary element to landscaping and not detract from the appearance of the streetscape.
- The design and finish of your driveway must complement the design of your home. Exposed aggregate concrete is the minimum standard and unfinished natural grey concrete or asphalt will not be acceptable. Unit pavers in natural stone, brick or coloured concrete are strongly encouraged.
- All driveway finish and colour designs must be lodged with building plans to the Design Review Committee for approval prior to installation.

SALTWATER COAST DESIGN GUIDELINES
UDIA ENVIRODEVELOPMENT

Saltwater Coast has been awarded EnviroDevelopment certification for outstanding environmentally sustainable design in the areas of ecosystems, energy, water and community. As part of this outstanding achievement, Saltwater Coast wishes to apply these practices into our design guidelines.

As a result of the energy and water certification in EnviroDevelopment, Saltwater Coast homes must achieve a minimum 20% reduction of Energy and Water efficiencies.

To achieve the Energy Reduction in Greenhouse gas production a minimum reduction of 20% must be achieved from minimum required standards (Building Codes and local government requirements).

To meet the Water Reduction in potable water demand a minimum reduction of 20% is required from relevant federals, state and local government requirements. The main applicable requirement is the 6 Star FirstRate requirements through the Building Code and the requirement for either a solar hot water system or a 2,000L (min.) rainwater tank to be connected to all toilets.

Please choose out of the following requirements:
