Please select 'Yes' for each of the 'service types' you propose to provide.
Only include those services you are currently approved to supply / or plan to become approved to supply.
'Service types' are further described in NAFC service types
Your 'Service types' may be 'verified' by one or more reviewers and incorrect data may result in a pilot not being approved to operate.
Any completed 'verifications' can be viewed using the link on the left of the screen.

Verifications0

This page lists any completed verifications of your proposed service types.

A verification shows whether you have, or have not, met the technical requirements of a service type. You may have verifications completed by more than one agency.

A 'passed' verification does not mean you are 'approved' to operate in any particular jurisdictions it just means you have met the technical requirements.

Upload documents supporting your relevant flying experience here. Please down load and complete the download the NAFC 'Flight Crew Experience' form. You will be requested to upload it on experience page after you click the ADD button. Other relevant documents may include a scan of the last pages of your log book, reports from Air maestro or other electronic time sheets, etc. When you gain more experience use the [+ Add] button to add a new line here rather than edit existing data. This will clearly show your progression in experience

COMPETENCE

HistoryPete

Once you have been associated with an aircraft operator the company Chief Pilot must then attach a statement of competence to you that states they consider you competent to perform the types of services you have proposed.
You should have one statement of competency for each operator you fly for listed here.
