### What is NetSetGO?

NetSetGO is the only introductory netball program in Australia. It has been developed by Netball Australia to give young children the fundamental motor skills and netball skills they need to be able to enter competition netball with confidence.

NetSetGO is a tiered program:

- Net is recommended for children aged 5 – 6 years. It encourages fun and friendship through netball related dance, games and activities.
- Set is for children aged 7-8 years. It sets up the next generation of netballers with netball skills, teamwork and enthusiasm to take their game to the next level.
- GO is the final tier of the program where the children participate in modified competition to ready them for junior netball and encourage them to become a lifelong fan.

The age ranges in the tiers are only a guide. Players who have completed both the Net and the Set tier and have gained the appropriate skills are ready to progress to the GO tier.
