

Ready. Set. NetSetGO.

ANZ NetSetGO at your School.

ANZ NetSetGO is the only introductory program for netball that is nationally branded and endorsed. It has been developed to provide children aged 5 to 10 years with the best possible introduction to the sport of netball.

The program incorporates skill activities, minor games and modified matches in a fun and safe environment, delivered as a weekly 1 hour session across an 8 to 10 week period. To insure a quality experience for all participants, sessions are coordinated by accredited coaches.

The sessions can be run before school or after school hours.
