WHAT'S INVOLVED IN A TRIAL?

- ▷ The **10-week FREE trial** is a **no-obligation** opportunity to evaluate the resource.
- ▷ Edrolo will set up your accounts and classes. All teachers, school leaders and students have their own accounts.
- ▷ Edrolo will provide training for teachers, usage updates and tips to ensure your teachers and students have the best possible experience during the trial.
- ▷ After the trial, we will support your planning on how to implement Edrolo long term, sharing how our 1000+ partner schools use Edrolo to support their strategic goals.

TESTIMONIALS

"Many students have used Edrolo so successfully that they attribute it to 'Band jumping' in successive assessment tasks, and in their final HSC result. We are excited to have teachers, students and parents on board with an appreciation of the value Edrolo presents to teaching and learning, revision, practice responses and overall understanding, readiness and preparation for the HSC study."

Kellie Boyd is Head Teacher Secondary Studies at Wyndham College, NSW

"The exam questions show them how they can assess themselves, and it is a good tool for us teachers to know what outcomes they are understanding and what parts they are lacking and need to fill in the gap for. Their responses are improving, their examples of evidence are improving and the reliability of what they discuss and write is obviously improving."

Shannon teaches at St John Paul II Catholic College
