### *What are the objectives of the Past Students' Association?*

1. To foster the spirit of good fellowship between past & present students of the School with the honour and progress of the School as the common ideal.
2. To preserve the bonds of friendship in the years following school-life.
3. To give opportunities for social recreation & reunion & to preserve the family spirit outside the immediate school-life & precincts.
4. To promote the welfare of the School and to support the School in academics, in sport, in public appeals, and generally as the Management Committee shall think fit.
5. To assist in the education at the School of children of past students and such others as the Management Committee may from time to time think fit.

### *What is the philosophy of the body?*

Our philosophy from our foundation in 1925 was espoused by the School's second Headmaster, "Pat" O'Keefe. He said we have a philosophy of giving: "it is a question of giving to others (the current students), as helpless as we once were, those inspiring influences which have done so much to make us what we are" – to enable them to drink at the same well as we once did but our efforts help make it a better well. He asked past students to do these things for the Association: "Work for it. Talk about it. Give to it." It is really an extension of the School's motto of service.

### *What is in it for members?*

To be honest, very little because it's more about the kids than us. You will receive an Association Pin and information about us and your role. We will send you two magazines (*Servire Regnare*) each year. You can join the Management Committee which controls our body. You can join us at Reunions (for play) and Burry Project Weekends (for work and play too). However, your greatest satisfaction will be that you made a difference not just to the school, but more importantly the kids.
