

COURSE OUTLINE

Electrical Contractors Licence – Qualified Technical Person (QTP) course

This course has been designed for Queensland Licensed Electricians to gain the qualification requirements to become a Qualified Technical Person on a Queensland Electrical Contractors Licence. Upon successful completion of the course students will be awarded the following nationally recognized units of competency:

- UEENEEG123A Conduct compliance inspection of LV electrical installations with demand exceeding 100 A per phase
- UEENEEG122A Conduct compliance inspection of single-phase LV electrical installations
- UEENEEG197A Apply currency of safe working practices and compliance verification of electrical installations

ENROLMENT:

3 Question pre-test. Prior to your enrolment being accepted we require you to complete a 3 question pre-test to help us to understand your training requirements. Your enrolment in the QTP course is not confirmed until one of our Trainers has discussed your pre-test results with you.

TRAINING:

Workbook (Completed either via distance OR by attending a 2-day workshop) – Using the course workbook and from communications with your trainer complete all the review activities in the workbook, this will refresh your knowledge of AS3000 and AS3008. Please note, you must have your own copies of AS/NZS 3000 and AS/NZS 3008 to complete this course.

ASSESSMENT:

Assessment day (Completed face-to-face over 1 day) – Final assessment comprising of written and practical assessment of content covered in the course workbook. The final assessment must be completed on site in our Brisbane or Townsville office. Assessment dates are set once a month in each area and require a minimum of 6 students to run. If an assessment date is cancelled due to low numbers, the following date will not be dependent upon numbers (i.e. an assessment date is guaranteed to go ahead at least once every 2 months in each location).

Work experience record (Completed on the job) -Under the supervision of a qualified electrical contractor you will complete 3 jobs where you test and verify an electrical installation on a switch board. This is completed via distance. We supply a work experience record and you organize the qualified person (QTP on Electrical contractors licence) to supervise your testing.

WHO IS ELIGIBLE TO DO THIS COURSE:

Suitable for persons wishing to meet the requirements for the “qualified technical person” status on an Electrical Contractor Licence. Technical applicants must hold a current electrical mechanic licence issued by a recognised Licensing authority.

COURSE DURATION:

Students are required to complete all assessment tasks within **3 months** of enrolment.

The course can be completed either via distance (with 1-day attendance for assessment in Brisbane or Townsville)

or

The course can be completed over 3 days (2 days training and 1-day assessment) with a work experience record completed in the student’s own time via distance.

COURSE OUTCOMES:

Participants will gain skills that enable them to fulfil the role of Qualified Technical Person in an Electrical Contracting business.
