

Pacific Tiger is a 24m twin-screw tug/utility vessel with a combined power rating of 1200hp and bollard pull of 15t.

She is our primary bed levelling or plough dredging vessel and has been maintaining berth pockets and shipping channels on the east Australian coastline since 2007. The vessel is always configured to carry out these works and is equipped with WASSP sea bed mapping software.

Pacific Tiger is also equipped with digital sweep bar depth monitoring, RTK positioning and custom software programs to ensure the accuracy of our sub-sea equipment.

### Specifications

Class ..... AMSA  
Survey.....AMSA 2B  
Length.....23.8m  
Width ..... 7.8m  
Operating Draft..... 2.6m

### Machinery
