DISASTER DASHBOARD?

Please share the Disaster Dashboard with your friends and family to stay up to date with all local disaster and emergency information.

REMEMBER:

Before, during and after a disaster or emergency event the Disaster Dashboard is the place to go for all disaster related updates including current warnings, local road conditions and river heights.

The Disaster Dashboard has all:

- Emergency News Updates
- A list of local radio stations

- State Road Conditions are linked to the Dashboard via the QLD Traffic website

- Links to Local Road Conditions page on Council's website
- Links to BOM

- Power outage information
- Links to river heights

- A number of social media feeds including Council's facebook pages, Queensland Department of Education and Emergency Services pages
