## ACKNOWLEDGEMENT OF THOSE WHO SHAPED THE HINCHINBROOK WAY

Hinchinbrook Shire Council acknowledges the many people and cultures who have helped shape our community over time. We acknowledge the Traditional Owners of the lands across the Shire – the Nywaigi, Warrgamay, and Bandjin peoples – and recognise their deep and enduring connection to country. Their stories, knowledge, and custodianship continue to enrich the identity of our region.

We also pay tribute to the generations of people from diverse backgrounds and cultures who have made Hinchinbrook their home, bringing with them traditions, skills, and values that contribute to our shared way of life.

We recognise the service and sacrifice of our local defence personnel – past and present – whose commitment has helped safeguard the freedoms and values we uphold today. Council is committed to fostering an inclusive, respectful, and resilient community – one that values all those who have helped shape the Hinchinbrook of today and continue to contribute to its future.

# Introduction

Hinchinbrook Shire Council is proud to present the 2026-2027 Budget, outlining Council's financial plan and priorities for the year ahead.

This Budget details how Council will responsibly allocate resources to deliver essential services, maintain and improve infrastructure, and support the needs of our community. It reflects the actions within Council's Annual Operational Plan and aligns with the strategic direction set out in our five-year Corporate Plan.

This document serves as a clear and transparent guide to how your rates will be invested — showing where funding is directed, which projects are prioritised, and how we are balancing immediate community needs with long-term financial sustainability.

The 2026-2027 Budget has been prepared in accordance with the requirements of the *Local Government Act 2009* and Local Government Regulation 2012, which govern the preparation and content of local government budgets in Queensland.

It is designed to inform all stakeholders — residents, ratepayers, businesses, employees, community organisations, and government agencies — and to support informed decision-making.

This Budget reflects Council's ongoing commitment to accountability, transparency, and responsible financial management, as we work together to support the lifestyle, prosperity, and future of Hinchinbrook Shire for generations to come.

Area<sub>1</sub>

We're proud to be home to some truly remarkable wonders – from the Victoria Sugar Mill, one of the largest in Australia, to the Lucinda Sugar Wharf, the longest service jetty in the southern hemisphere, stretching an incredible 5.8km into the Coral Sea.

Add to that the breathtaking Wallaman Falls, Australia's highest permanent single-drop waterfall, and the internationally recognised TYTO Wetlands, where more than 230 bird species make their home.

TYTO Wetlands have a bird species diversity that rivals Kakadu National Park in a space 18,000 times smaller.

Our region also offers some of the best fishing in the country, with the Hinchinbrook Channel and surrounding waterways considered a world-class fishing destination.

And we're especially proud that Hinchinbrook is a wonderful place to retire – with our warm climate, strong sense of community, and exceptional natural beauty making it the perfect place to enjoy life at any age.

# Mayor's Message

Hinchinbrook Shire Council has always endeavoured to keep annual rate increases as low as possible in recognition of the unique pressures our community faces, including recurring natural disasters and an ageing population. Whilst this philosophy has not always enabled Council to recover the true cost of delivering services, Council has managed to absorb costs; however, this is no longer proving possible.

Costs are escalating at levels significantly above past growth and creating budget overruns that cannot be accommodated. In the past financial year alone, the cost of providing fundamental services has increased by 30 per cent across the board and, across most areas, rapid cost escalation due to external impacts have resulted in significant unplanned expenditure.

The longer this is left unaddressed, the harder it becomes to remain financially sustainable.

To respond, and while continuing our past approach as far as possible, Council has been required this year to rethink its rating strategy. User-pays is not a new concept for Council, but this budget places greater emphasis on applying it consistently across services to better reflect actual usage and the cost of delivering those services.

To this end, Council considered a number of strategies and implemented key changes, including increasing the rate capping threshold from 10 per cent to 30 per cent, introducing a single residential rating category, increasing the minimum general rate, and adjusting multi-unit rates to better reflect the true cost of service delivery and align more closely with comparable strata-titled properties.

Council will adopt a general rate increase of 4.5 per cent, with most households experiencing an increase of \$1.70 per week or less. Across all rates, levies and charges, the overall increase is 5.21 per cent, equating to around \$4.01 per week for a typical household. This supports essential services such as water supply, waste collection, sewerage systems and the infrastructure that keeps our community functioning.

While most ratepayers will see the general increase, those who have experienced significant valuation changes, were previously subject to rate capping, or own multi-unit properties may see a higher adjustment.

The removal of rate capping was not a decision taken lightly; however, it was a necessary step.

While capping has helped soften the impact of increasing land valuations over time, it has also shifted the true rating liability away from the benefitted property and onto others. This means properties not subject to rate capping have effectively been subsidising those that are.

At the same time, Council is facing rising costs across all areas of operation. Like households and businesses, we are dealing with higher fuel prices, materials and service delivery costs, many of which are outside of our control. In response, Council is tightening operations, reducing non-essential spending, and focusing on what is necessary. This is a back-to-basics budget focused on delivering essential services responsibly in a time of rising costs.

Council's operational budget for the coming year is \$53.1 million. This funding supports the day-to-day services that keep the community running, including roads and drainage maintenance, water and sewer operations, waste services, and the upkeep of parks, public spaces and community facilities.

A significant part of this investment is in Council's workforce, who deliver these services on the ground – maintaining infrastructure, operating essential systems, managing public spaces, and supporting day-to-day service delivery across the Shire.

Council also continues to invest in environmental management and sustainability, including waste education programs, landfill management, and biosecurity initiatives to protect our natural environment and agricultural land. Ongoing work in flood recovery and drainage improvements also supports long-term community resilience.

At the same time, Council is improving how services are delivered through stronger asset management, maintenance planning, and targeted upgrades to systems and processes to improve efficiency and customer outcomes.

Not everything can be delivered at once. There are real constraints around resources, capability, time, materials and funding, and Council must remain focused on its core responsibility – delivering essential services, maintaining infrastructure, and supporting the day-to-day needs of the community.

Overall, this budget represents a \$67.2 million investment in the community, including a \$14.1 million capital works program delivering 49 projects across the Shire.

This includes around \$4 million in roads and drainage upgrades, \$6.1 million in water and sewer infrastructure, \$700,000 in fleet and equipment, \$1.2 million in buildings and facilities, and \$2.1 million in community and sustainability projects. These works focus on road improvements, drainage upgrades, water and sewer reliability, facility upgrades, and enhancements to parks and public spaces.

More than half of these projects are funded through external grants, allowing Council to deliver essential infrastructure while reducing the impact on ratepayers.

Council also continues to support the community through targeted assistance, including approximately \$110,000 in rate discounts for not-for-profit organisations, a 20 per cent pensioner rebate up to \$200, and around \$130,000 in community grants and arts development funding. These measures help support vulnerable residents and strengthen community life.

Council continues to fund services that are provided free or subsidised for the benefit of the community, including libraries, community facilities and local events, all of which carry ongoing operational costs.

Importantly, the community also plays a role. Reducing waste, recycling, saving water and making everyday choices that reduce demand on services can help manage long-term costs.

Looking ahead, the financial outlook will remain challenging. Acting now allows Council to take a balanced and responsible approach, ensuring services continue. Local government is the closest level of government to the community, yet we are increasingly being asked to do more with limited resources, and funding has not kept pace with demand. This is a back-to-basics budget focused on what matters most – delivering essential services, maintaining infrastructure, and putting Council on a sustainable path for the years ahead.

# Budget Summary

The *Local Government Act 2009* (the Act) and Local Government Regulation 2012 require local governments to consider the longer term when managing their finances.

Copies of the relevant sections of the legislation and the requirements of Council have been included in this document for the purpose of informing the community of this obligation.

Hinchinbrook Shire Council has taken this responsibility seriously and has been working to ensure that while this is a legislative requirement, it is also a good governance and management practice to ensure that Council remains financially viable and planning becomes part of the way that we regularly do business.

The Act provides for autonomy when preparing our budgets. However, with autonomy also comes accountability, and a set of local government principles are contained within Chapter 1 Section 4 of the Act.

To ensure the system of local government is accountable, effective, efficient and sustainable, Parliamentary Counsel requires:

- (a) anyone who is performing a responsibility under this Act to do so in accordance with the local government principles; and
- (b) any action that is taken under this Act to be taken in a way that –
  - (i) is consistent with the local government principles; and
  - (ii) provides results that are consistent with the local government principles, in as far as the results are within the control of the person who is taking the action.

The local government principles are –

- (a) transparent and effective processes, and decision making in the public interest;
- (b) sustainable development and management of assets and infrastructure, and delivery of effective services;
- (c) democratic representation, social inclusion and meaningful community engagement;
- (d) good governance of, and by, local government; and
- (e) ethical and legal behaviour of Councillors, local government employees and Councillor advisors.

Council's 2026-2027 Budget has been prepared in accordance with these guiding principles.

Visit <https://www.hinchinbrook.qld.gov.au/our-council/policies-and-procedures/> for the Revenue Statement Policy.

# Our Objectives

The Budget for the financial year is derived from the key strategies defined in our 2035 Hinchinbrook Liveability Strategy, 2025-2030 Corporate Plan, and our Annual Operational Plan.

The 2025-2030 Corporate Plan will act as a building block towards successfully delivering these objectives through the identification of key goals, strategies and performance indicators to achieve our vision.

The Annual Operational Plan is a framework for our operational delivery and targets over the next 12 months. Council's key themes across our suite of strategic planning documents adopted on 26 June 2025 are:

**Connected**

**Resilient**

**Authentic**

**Aspirational**

# REVENUE STATEMENT SUMMARY

# General Rating

Council raises revenue through general rates to fund services, maintain assets, and support the ongoing governance and administration of the Shire. In line with the Local Government Regulation 2012, Council applies a differential general rating scheme.

This approach ensures a fair distribution of rates by taking into account differences in land values, land use, and the level and cost of services provided to different properties.

Properties are grouped into rating categories based on defined criteria, with each category assigned a rate in the dollar, a minimum general rate, and any applicable limits on increases.

Visit <https://www.hinchinbrook.qld.gov.au/our-council/policies-and-procedures/> for the Revenue Statement Policy.

|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|----------------------------------|-------------------------|
| 2. Residential           | Land used, or capable of being used for purpose of a single residential dwelling.                                                                                                                                                                 | Land having the land use codes of 01, 02, 04, 05, 06, 08, 09 or 72.                                                                                             | 0.011212              | 1,272.60                         | No limit                |
| 4. Multi units – 2 units | Land used for the purpose of multiple residential units with 2 dwelling units within the one title.                                                                                                                                               | Land having the land use code of 03.                                                                                                                            | 0.017269              | 2,095.00                         | No limit                |
| 5. Multi units – 3 units | Land used for the purpose of multiple residential units with 3 dwelling units within the one title.                                                                                                                                               | Land having the land use code of 03.                                                                                                                            | 0.017269              | 2,947.00                         | No limit                |
| 6. Multi units – 4 units | Land used for the purpose of multiple residential units with 4 dwelling units within the one title.                                                                                                                                               | Land having the land use code of 03.                                                                                                                            | 0.017269              | 3,800.00                         | No limit                |
| 21. Multi units – 5 plus | Land used for the purpose of multiple residential units with 5 or more dwelling units within the one title.                                                                                                                                       | Land having the land use code of 03.                                                                                                                            | 0.017269              | 4,652.00                         | No limit                |
| 7. Community purposes    | Land used for community purposes, including as a sports club or facility, cemetery, library, educational facility, religious institution, showground, racecourse, airfield, park, garden or for commonwealth, state or local government purposes. | Land having the land use codes of 48, 50-59, 96, 97 or 99.                                                                                                      | 0.011173              | 1,691.20                         | No limit                |
| 8. Commercial            | Land used for commercial purposes, other than land included in category 10.                                                                                                                                                                       | Land having the land use codes of 01, 04, 07, 10, 11, 12, 13, 14, 15, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 30, 41, 42, 43, 44, 45, 46, 47, 49, 91 or 92. | 0.019862              | 1,658.90                         | No limit                |

|                              |                                                                                                                                                          |                                                                                                                                                       |          |            |          |
|------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|----------|------------|----------|
| 10. Drive-in shopping centre | Land used for the purposes of a shopping centre with a gross floor area greater than 3,500 sq. Metres.                                                   | Land having the land use code of 16.                                                                                                                  | 0.025861 | 19,447.00  | No limit |
| 11. Industrial               | Land used for industrial purposes other than land included in category 12, 14 and 15.                                                                    | Land having the land use codes of 01, 04, 28, 29, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40.                                                             | 0.019986 | 1,723.80   | No limit |
| 12. Quarries                 | Land used for the purpose of extractive industries or quarrying licensed for more than 5,000 tonnes of material other than land included in category 11. | Land having the land use code of 40.                                                                                                                  | 0.034487 | 8,323.10   | No limit |
| 13. Island land              | Land located on Pelorus Island or Orpheus Island.                                                                                                        |                                                                                                                                                       | 0.011792 | 1,691.20   | No limit |
| 14. Harbour industries       | Land used for the purpose of harbour industries including a bulk sugar terminal with a land area greater than 5 hectares.                                | Land having the land use code of 39.                                                                                                                  | 0.060911 | 65,352.30  | No limit |
| 15. Sugar mills              | Land used for the purposes of sugar milling operations.                                                                                                  | Land having the land use code of 35.                                                                                                                  | 0.106450 | 130,697.90 | No limit |
| 18. Sugar cane and forestry  | Land used for the purposes of growing sugar cane, or for forestry or logging.                                                                            | Land having the land use code of 75 or 88.                                                                                                            | 0.031876 | 1,688.30   | 30%      |
| 19. Other rural land         | Land used for rural purposes, other than land included in category 18.                                                                                   | Land having the land use codes of 60, 61, 64, 65, 66, 67, 68, 69, 70, 71, 73, 74, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 89, 90, 93, 94, 95. | 0.010060 | 1,770.50   | 30%      |
| 20. Other land               | Land not included in any of the above categories                                                                                                         |                                                                                                                                                       | 0.010060 | 1,770.50   | No limit |

Council has delegated authority to the CEO to determine the appropriate rating category for each property, in line with the Local Government Regulation 2012.

In doing so, the CEO may refer to the identification guidelines in the rating table, including land use codes issued by the Department of Natural Resources and Mines, Manufacturing and Regional and Rural Development.

# Limitations on Increases in Rates and Charges

Council has applied a cap on rate increases for certain rating categories, as outlined in Column 6 of the table above. From 1 July 2026, the general rates for eligible properties will not exceed the previous year's rates plus a percentage increase determined by Council.

This cap applies to:

- Category 18 – Sugar Cane and Forestry land used for growing sugar cane, forestry or logging; and
- Category 19 – Other Rural land used for rural purposes not included in Category 18.

Capping is subject to the minimum general rate for each category and the provisions below.

## Provisions for Capping of General Rates

- Properties sold during the 2025–2026 financial year are not eligible for capping in 2026–2027. Capping may be reapplied in 2027–2028; and
- Capping does not apply in the year, or the following financial year, where land use changes from an uncapped category to a capped category.

Visit <https://www.hinchinbrook.qld.gov.au/our-council/policies-and-procedures/> for the Revenue Statement Policy.

# Waste Management

Council applies a Waste Management Levy to help fund the delivery of waste services across the Shire. This includes the operation and management of waste facilities, transfer stations, green waste processing, site remediation, and meeting environmental standards and regulatory requirements.

The levy is based on a full cost recovery model, ensuring the costs of providing waste services, including overheads, are shared fairly across the community.

For 2026–2027, a **Waste Management Levy of \$222.78 per annum** will be applied equally to all rateable properties. This approach recognises that all properties benefit from waste services and ensures transparency in how these services are funded, separate from general rates.

Residents can also play their part by reducing the amount of waste sent to landfill and making the most of recycling opportunities. Guidance on what goes in each bin is available on Council's website, and schools or community groups are encouraged to contact Council on (07) 4776 4600 to learn more about available programs and involvement opportunities.

# Water Charges

Council charges for water services under a two-part pricing structure, in line with the Local Government Regulation 2012.

This approach supports water conservation, provides an equitable and user-pays system, and ensures the full cost of delivering water services is recovered.

Water charges include:

- **A consumption charge** based on actual water use; and
- **A base charge** which applies to each property or connection.

For 2026–2027, the consumption charge is **\$1.29 per kilolitre**, with water meters read twice yearly.

A minimum charge applies per meter, and higher-use customers may have negotiated rates.

The **annual base charge is \$523.98**, calculated based on the size and number of water meter connections or, where applicable, the number of residential uses on a property.

Charges apply regardless of whether the property is occupied.

Ratepayers can sign up to Hinchinbrook H2O (<https://h2o.hinchinbrook.qld.gov.au/>). This is a handy tool that provides water consumption information. Email and SMS alerts can be set so ratepayers are notified of water leaks and high consumption within days of occurrence.

# Sewerage Charges

Council applies sewerage charges on a per-tenement basis to fund the construction, operation, maintenance and management of sewerage services across the Shire. These charges are based on a full cost recovery model, ensuring the cost of providing sewerage services, including overheads, is shared fairly. For 2026–2027, the sewerage charge is **\$993.70 per tenement, per annum**.

Charges apply to all properties within sewered areas where Council is prepared to accept sewage, regardless of whether the property is connected or occupied. Where multiple dwellings or uses exist on a property, each is charged on an individual tenement basis. Council retains discretion to determine the number of tenements applied in cases where land use does not align with standard classifications.

Council works hard to maintain and protect the sewerage system and keep operating costs as low as possible for the community. One of the simplest ways to support this is by only flushing the three Ps – pee, poo and paper – and placing all other items in the general waste bin. Items such as disposable nappies, sanitary products, incontinence pads, disinfectant wipes (including so-called flushable wipes), paper towels, gloves, cloths, bandages, fats, grease and oils do not break down in the sewer network. Instead, they can cause blockages and damage infrastructure. When blockages occur, Council crews must manually clear pipes and repair pumps, resulting in costly and time-consuming work. These costs ultimately impact service delivery across the community. Blockages in private plumbing can also result in additional costs for property owners who may need to engage a plumber. In addition, sewer blockages can lead to overflows, which pose risks to the environment, waterways, wildlife and public health. Maintaining the system relies on everyone doing their part to use it correctly.

# Cleansing Utility Charge

Pursuant to section 99(1) of the Local Government Regulation 2012, Council will levy a utility charge for domestic refuse services. Charges apply from the earlier of the service commencement date or the issue of a final inspection certificate (Form 21) and/or classification certification. Waste services are not provided to non-residential properties.

A kerbside service is provided to occupied residential properties within the declared waste area, consisting of:

One 240-litre general waste bin (weekly); and

One 240-litre recycling bin (fortnightly).

Charges are set to recover the full cost of service provision, including overheads.

## 2026–2027 Charges

- Rateable land: \$333.40 p.a. (standard service)
- Non-rateable land (first service): \$535.90 p.a.
- Additional standard service: \$333.40 p.a.
- Additional general waste (weekly, 240L): \$259.52 p.a.
- Additional recycling (fortnightly, 240L): \$182.14 p.a.

## Application of Charge

Land is deemed occupied where:

- A service existed at 1 July 2026;
- Council or an authorised officer requires a service;
- A service is requested; or
- A building is present and suitable for occupation.

No refund applies where premises are unoccupied.

Charges for non-rateable land are levied on the service beneficiary. Each separate residential use on one assessment will be charged individually.

## Unserviceable Properties

Where a kerbside service cannot be provided, no charge will be levied. Owners must dispose of waste at nominated Council facilities. Determination is made by Council.

# **SPECIAL RATES AND CHARGES**

# BROWN LANE SPECIAL RATE

## OVERALL PLAN 2026-2027

### 1. Description of Facility to which Overall Plan Applies

This Overall Plan applies to the construction of Brown Lane Ingham as a rear access to the benefitted properties.

The construction provides a sealed access with entrance from Euclid Street Ingham, culminating in a circular cul-de-sac with the total area of the new road comprising 442m<sup>2</sup>.

Prior to construction the benefitted properties have agreed in writing to give up land identified for the road purposes to Council and contribute \$40,000 per property to capital costs of construction to be paid over a 20-year period.

### 2. The Rateable Land to which the Special Charge Applies

- Lot 1110 on SP272679, Parish Trebonne;
- Lot 11 on SP288756, Parish Trebonne; and
- Lot 12 on I22433, Parish Trebonne.

### 3. Estimated Cost for Implementing the Overall Plan

The agreement with the benefitted property owners for a \$40,000 contribution per owner to the capital costs of construction was based on the estimated cost for carrying out the Overall Plan of \$120,000. The final construction cost exceeded the estimated amount.

### 4. Estimated Time for Implementing this Overall Plan

The construction of Brown Lane Ingham was completed and added to the Hinchinbrook Shire Asset Register on 10 July 2015.

A Special Rate adopted in conjunction with this Overall Plan is payable by the owners of the identified rateable land at \$2,000 per annum over 20 years with the first payment due in 2017-2018 and the last in 2036-2037.

### 5. Legal Parameters

- *Local Government Act 2009*; and
- Local Government Regulation 2012.

### 6. Associated Documents

- 2026-2027 Revenue Statement Policy.

# BAMBAROO RURAL FIRE BRIGADE

## OVERALL PLAN 2026-2027

### 1. Key Activities

The Bambaroo Rural Fire Brigade area covers properties in the locality of Bambaroo in the Hinchinbrook Shire. The Brigade's key activities/services include:

- Targeting areas to burn and hazard reduction burns to the main road of property owners. These areas are Helens Hill Plains to Bambaroo Hills on the Bruce Highway;
- To have a brigade meeting before the start of the fire season;
- To keep in touch with fellow brigade members throughout the year;
- To hold training sessions during the first six months of the year; and
- To discuss fire hazards before the season so the hazard reduction scheme is effective.

### 2. The Rateable Land to which the Special Charge Applies

The special rate will apply to all rateable land situated within the area identified on the map numbered 2025/4.

### 3. Estimated Cost for Implementing the Overall Plan

The Brigade has advised Council that implementation of the Overall Plan for 2026-2027 is likely to cost \$6,265 for operational costs. Unused funds will be set aside towards purchasing a new generator and installing a training room and toilet and shower facilities.

The Brigade has requested Council to levy each parcel of rateable land an amount of \$10 per annum for at least the next year. This charge will raise \$1,190.00 per annum to be contributed to the Bambaroo Rural Fire Brigade.

### 4. Estimated Time for Implementing this Overall Plan

This Overall Plan covers the 2026-2027 financial year. It is reviewed, and updated as required, on an annual basis.

### 5. Legal Parameters

- *Local Government Act 2009*;
- Local Government Regulation 2012; and
- *Fire and Emergency Services Act 1990*.

### 6. Associated Documents

- 2026-2027 Revenue Statement Policy; and
- Bambaroo Rural Fire Brigade Area Map 2025/4.

# CRYSTAL CREEK RURAL FIRE BRIGADE

### 5. Legal Parameters

- *Local Government Act 2009;*
- Local Government Regulation 2012; and
- *Fire and Emergency Services Act 1990.*

### 6. Associated Documents

- 2026-2027 Revenue Statement Policy; and
- Crystal Creek Rural Fire Brigade Area Map 2025/4.

# SEYMOUR RURAL FIRE BRIGADE

## OVERALL PLAN 2026-2027

### 1. Key Activities

The Seymour Rural Fire Brigade area is located at the northern end of the Hinchinbrook Shire and is bordered by Girringun National Park to the northwest, the Seymour River to the east and the Herbert River to the south. The Brigade's key activities/services include:

- Identify, map and monitor fuel load in the Seymour Rural Fire Brigade area. Identified risk areas will have plans developed to reduce the risk of uncontrolled wildfires;
- Brigade Training will be ongoing as is available from Division. The Brigade will take part in cross training with the Urban Fire Fighters, including training them in our methods. This is part of the Queensland Fire and Emergency Service goal of a better understanding between the two divisions;
- Ongoing costs to maintain, repair and upgrade plant and equipment; and
- Response to wildfires.

### 2. The Rateable Land to which the Special Charge Applies

The special rate will apply to all rateable land situated within the area identified on the map numbered 2025/4.

### 3. Estimated Cost for Implementing the Overall Plan

The Brigade has advised Council that implementation of the Overall Plan for 2026-2027 is likely to cost \$2,890 for operational costs. Unused funds will be set aside towards future building and maintenance repairs. The Brigade has requested Council to levy each parcel of rateable land an amount of \$20 per annum for at least the next year. This charge will raise \$3,080 per annum to be contributed to the Seymour Rural Fire Brigade.

### 4. Estimated Time for Implementing this Overall Plan

This Overall Plan covers the 2026-2027 financial year. It is reviewed, and updated as required, on an annual basis.

### 5. Legal Parameters

- *Local Government Act 2009*;
- Local Government Regulation 2012; and
- *Fire and Emergency Services Act 1990*.

### 6. Associated Documents

- 2026-2027 Revenue Statement Policy; and
- Seymour Rural Fire Brigade Area Map 2025/4.

# STONE RIVER RURAL FIRE BRIGADE

## OVERALL PLAN 2026-2027

### 1. Key Activities

The Stone River Rural Fire Brigade area covers properties in the locality of Stone River in the Hinchinbrook Shire. The Brigade's key activities/services include:

- Put in place procedures for future shed maintenance;
- Carry out all necessary training to ensure all active members are competent in the use of all equipment;
- Continue to ensure all Brigade equipment is secure;
- Continue to advise new residents of the functions of the Brigade; and
- First Officer to liaise with Fire Wardens on areas that need attention.

### 2. The Rateable Land to which the Special Charge Applies

The special rate will apply to all rateable land situated within the area identified on the map numbered 2025/4.

### 3. Estimated Cost for Implementing the Overall Plan

The Brigade has advised Council that implementation of the Overall Plan for 2026-2027 is likely to cost \$1,240 for operational costs. Unused funds will be set aside towards future building and maintenance repairs as well as a longer term plan to build a concrete driveway and shed loft.

The Brigade has requested Council to levy each parcel of rateable land an amount of \$30 per annum for at least the next year. This charge will raise \$5,430 per annum to be contributed to the Stone River Rural Fire Brigade.

### 4. Estimated Time for Implementing this Overall Plan

This Overall Plan covers the 2026-2027 financial year. It is reviewed, and updated as required, on an annual basis.

### 5. Legal Parameters

- *Local Government Act 2009*;
- Local Government Regulation 2012; and
- *Fire and Emergency Services Act 1990*.

### 6. Associated Documents

- 2026-2027 Revenue Statement Policy; and
