

I'm **Dillon Weightman** and I'm running for **Vice President** with **YOUR STUDENT VOICE**. I want to represent you because I believe in strong student representation that looks out for what's best for every student. As your student association Vice President I will aim to improve communication between students and their representatives, something I see as currently lacking. My ticket and I don't see student VOICES being heard on campus, we want to fix that and give you a strong VOICE. I bring 7 years of community and student group experience, having formed and ran a number of student and community organisations. Most recently I've worked with the Bachelor of Arts Student Society to get it active again. I think a healthy campus life and Student involvement are essential to a great university experience. If elected I will work towards making the JCU Townsville campus somewhere with a healthy and vibrant student life. Most importantly I will aim on giving students a VOICE again on the issues that matter most to them.
