

Having served on the previous two councils for the JCUSA as **Cairns Campus Officer**, I am passionate about representing and engaging with students, clubs and societies, in particular those on the Cairns Campus. If re-elected, I hope to continue to build on the skills and relationships I've developed to contribute to the social life and student events on campus. Personal goals for me next year would be to improve the club grant system, help develop additional clubs on the Cairns Campus, and to focus on club collaboration to provide weekly events for students.

Thank you, and I hope I can count on your vote.
