

## Policy Statement

Hey everyone! My name is **Phillip Kirk** and I am running to be the **President** of the JCU Student Association with **Your Campus 2020**. I have had the pleasure of being your Vice President for the past year, which has given myself the knowledge and skills to improve the services JCUSA can provide.

Being elected as your President to represent the students of JCU is not a right, but a privilege. One I will take seriously like I have thus far in my position as Vice President. I wish to continue the great work of the 49th Student council leading into 2020 to ensure your university experience is the best that it can possibly be. Here is a couple of reasons why you should vote for me to be your President.

Firstly, Clubs and Societies. Throughout the year myself and Kyran (current Townsville Campus Officer, and Vice-Presidential candidate) have been working hard with Clubs and Societies at JCU to create consistency in the relationship between JCUSA and Clubs. I have worked hard

to ensure the grant application process has been streamlined with Kyran, and as your President will continue to build on these strong foundations - To be available to support clubs and societies in any way possible.

Secondly, Experience. With my experience as Vice President I understand how the student association is run and know all the staff. This experience ensures both consistency of administration and allows me to swiftly pursue more important issues in my tenure. I understand the financials of the organisation, and with this knowledge as your future President I will take a strategic approach making sure that the budget is spent efficiently to provide you with the best services possible!

Thirdly, Free Breakfasts. JCUSA this year in semester 2 was able to start back up the Free Breakfast tradition! It is my passion as your future President to ensure that this tradition continues in 2020. Free Breakfast is a fantastic service the student association can provide, and I have every desire to see this continue.

Fourthly, I will lobby to see the Refect space revived! For those students who may not know, the Refect provided a space where students could gather, chill out and grab a tasty lunch. It provided cheap and affordable options which is every Uni students dream! As your President I will endeavour to bring this back to JCU.

And lastly as your President, you can trust me to be reliable, consistent and transparent to the students of JCU. I'll hold the Council and JCU accountable to their student body, and continue the work done by the 49th Student Council, to make 2020 a strong year.

Be sure to vote for me as your President and put Your Campus 2020 #1st in this election, to ensure the success of JCUSA in 2020!
