Site	36	24	48 months
The Townsville Hospital ✓	✓ (Components of)	✓ (Components of)	
Mackay Base Hospital ✓	✓ (Components of)	✓ (Components of)	

Possible rotations include: Rural, remote and private

LAN 2 - Local Area Network 2 (HUB 2)	Accreditation Type	LAN 2 - Local Area Network 2 (HUB 2)	Accreditation Type	The types of accreditation which are available are :
Royal Brisbane and Women's Hospital	Full	I-MED Radiology Network (Redcliff Hospital)	Linked	<ul style="list-style-type: none"> • Full Accreditation – A site which is able to provide the full five-year training program, either internally or via a combination of internal & external rotations • Specialty Accreditation – A site which provides training in a particular sub-specialty/ies and receives trainees on rotation from multiple sites. E.g. Paediatric hospitals. Specialty sites are subject to the full accreditation standards, with the exception of criteria pertaining to coverage of the five-year Curriculum. • Linked Accreditation – A site where specific training is undertaken for certain periods. This will always be in association with a Full site. The Full site is responsible for monitoring the rotation so as to be aware of whether it is beneficial to their trainees. Specific Accreditation Standards for Linked sites are currently being developed. • Linked Satellite Accreditation – Full site and linked site departments are administered as single/department group over multiple campuses with a shared Director/s of Training.
