

A creative hackathon finding solutions to problems facing the Great Barrier Reef

April 21, 2018 | The Cairns Institute

# M HACK THE REEF

[myriad.live/hackthereef](http://myriad.live/hackthereef)

Plastics and other marine debris is a big issue for the Great Barrier Reef, with more than 8 million pieces estimated to be along the Reef coastline. With humans the main cause of the problem, humans must be part of the solution.

## What do you want to do to help the Reef?

Hack the Reef is a creative hackathon dedicated to finding solutions to problems facing the Great Barrier Reef. This year your challenge will be to come up with novel solutions that can help eliminate plastics and marine debris.

**Saturday, 21 April**  
**The Cairns Institute**  
**8:30AM - 5:30:PM**  
**FREE EVENT**
