Introduction

Ensuring members, visitors and guests getting to and from club games, activities and events safely is an important part of being a responsible, healthy club.

While Townsville Hockey Association wishes to avoid club members becoming intoxicated and notes the recommendation by the National Health and Medical Research Council to consume no more than four drinks in one sitting, as part of our club's duty of care we encourage our members to plan safe transport home. This will reduce the risk of drink-driving, injury or worse.

Alcohol and drugs affect pedestrians and drivers' abilities to stay safe. They affect decision-making, reaction times, speed and distance judgements, concentration, balance, perception, and alertness. It can also increase risk-taking behaviour by giving a pedestrian or driver a false sense of confidence. Sporting clubs such as ours help prevent drink driving related tragedies in the community by improving safety around transport and minimising the risk of developing a drinking culture.

Purpose

This policy outlines our procedures for safe transport after club games, special events, functions, and other club-related activities where alcohol may be consumed. It represents our club's commitment to its members, volunteers, and visitors, acknowledging the role that sporting clubs and associations play in building strong and healthy communities.

This policy will help to ensure our club:

- Meets its duty of care in relation to the health and safety of our members, volunteers and visitors who attend any club games, special events, functions, and other activities.
- Upholds the reputation of our club, our sponsors, and partners.
- Understands the risks associated with alcohol use and driving, and our role in minimizing risk.
- Educates our members about standard drinks.

General Principles

Our club recognises that:

- Drink driving is one of the main causes of road deaths in Australia.
- Driving when over the legal blood alcohol limit is illegal and hazardous to individuals and the wider community.
- Mixing drugs (including prescription medication) with other drugs or alcohol can seriously affect the ability to drive safely.
