

HOW DO I BECOME A COMMERCIAL PILOT?

Details of Training Delivery Methods

Full time Integrated CPL study with Townsville Flight Training:

Gain your CPL from scratch in approx. 9 months directly with TFT.

- > Takes approximately 7-9 months - 4 intakes per year
- > Integrated 150 hours (minimum) flight training
- > All theory conducted onsite in our 12 week theory course
- > Paid as you go, in blocks of 10 hours flight training, in advance
- > Least expensive option but no funding available

Part time Non-Integrated CPL study with Townsville Flight Training:

Although full time study is recommended, we understand that is not always possible. TFT allows non-integrated students to study at a pace that suits them.

- > Start whenever you are ready – best to aim for 12-18 months to complete
- > Theory subjects can be self-studied, or; sit in class for individual subjects
- > Non-integrated 200 hours (minimum) flight training
- > Paid as you go, in blocks of 10 hours flight training, in advance – no funding available
- > Regular training recommended for continuity and to minimise chances of going over on flight training hours to reach competency

AVI50219 Diploma of Aviation (Commercial Pilot Licence – Aeroplane) through TAFE Queensland

Townsville Flight Training provides training and assessment of this accredited qualification on behalf of TAFE Queensland RTO 0275 who will award the qualification upon successful completion.

- > Same course structure as above (classes are combined) – all training through TFT
- > Course length is 9 months full time – 4 intakes per year
- > 150 hours flight training included in course
- > Theory conducted onsite in our 12 week theory course
- > On successful completion, students receive a Diploma of Aviation (Commercial Pilot Licence) and a CASA Commercial Pilot Licence
- > Contact TAFE Queensland for course prices, entry requirements & payment options
- > Students with previous flight training experience should contact TFT to discuss how to join the Diploma course as an 'accelerated' student.

CL09 - Bachelor of Aviation through CQUniversity

Study a degree in aviation with CQUniversity while completing flight training locally with Townsville Flight Training

- > Details on course structure available from CQUniversity
- > 3 years full time - 2 intakes per year
- > Study theory through CQU - online lectures & self-directed study
- > Flight training conducted through TFT
- > Flight training over 3 years - RPL through to CPL (with MEIR)
- > Contact CQUniversity for course prices, entry requirements & payment options
