

PACIFIC MARINE GROUP PTY LTD
AUSTRALIA

'Fenders & Brows'

Complete Fendering Systems

Pacific Marine Group has a range of quality pneumatic fenders available in North Queensland suitable for wharf side and slip side use.

The high deflection rates of these fenders provide maximum protection for wharves and vessels when berthing.

Pacific Marine Group fenders are constructed

using three thick rubber layers bonded together.

The centre layer is reinforced with nylon fabric and protected by a tyre net. They are capable of supporting vessels up to 100,000 tonnes.

Custom designed breasting barges and other associated equipment is available to cater to special requirements.

The berthing of an Australian Navy Collins Class Submarine using Pacific Marine Group's breasting barges, fenders & brows.

Fendering of HMAS Adelaide in Townsville.
