

AVOID SURGERY / REDUCE PAIN

by helping your body heal

**JOIN US FOR A FREE EDUCATIONAL SEMINAR
May 28th, 2019**

Regenexx Pittsburgh offers the nation's most advanced non-surgical adult stem cell and blood platelet procedures for common injuries, arthritis and other joint conditions. These procedures increase function, decrease pain and offer the patient a viable alternative to invasive surgery. This seminar is your opportunity to learn about these cutting-edge procedures from the region's leading regenerative medicine doctors.

SPACE IS LIMITED. REGISTER TODAY!

Springhill Suites by Marriott Pittsburgh

7:00 p.m. - 8:30 p.m.

611 Washington Road • Mt. Lebanon, PA 15228

RSVP at www.rapsmd.com or by calling 412-963-6480

REGENEXX® IS USED FOR:

- Knee pain, osteoarthritis
- Knee ACL and meniscal tears
- Hip arthritis, pain and labral tears
- Shoulder pain and rotator cuff tendonitis
- Low back, neck and nerve pain, sciatica
- Tennis/golfer's elbow
- Achilles tendonitis
- Foot & ankle pain, plantar fasciitis
- Sacroiliac joint instability
- Most other common joint injuries

Dr. Marc Adelsheimer will discuss the **Regenexx®** procedures of non-surgical stem cell and platelet rich plasma treatments. Dr. Adelsheimer specializes in fluoroscopically guided spinal procedures and regenerative medicine, and incorporates these procedures into an overall rehabilitation plan designed to decrease pain and improve quality of life.
