

# AVOID SURGERY / REDUCE PAIN

by helping your body heal

**JOIN US FOR A FREE EDUCATIONAL SEMINAR**  
June 13th, 2019

**Regenexx Pittsburgh** offers the nation's most advanced non-surgical adult stem cell and blood platelet procedures for common injuries, arthritis and other joint conditions. These procedures increase function, decrease pain and offer the patient a viable alternative to invasive surgery. This seminar is your opportunity to learn about these cutting-edge procedures from the region's leading regenerative medicine doctors.

**SPACE IS LIMITED. REGISTER TODAY!**

Courtyard by Marriott Monroeville

7:00 p.m. - 8:30 p.m.

3962 William Penn Highway • Monroeville, PA 15146

**FREE REFRESHMENTS AND SNACKS**

RSVP at [www.rapsmd.com](http://www.rapsmd.com) or by calling 412-963-6480

## REGENEXX® IS USED FOR:

- Knee pain, osteoarthritis
- Knee ACL and meniscal tears
- Hip arthritis, pain and labral tears
- Shoulder pain and rotator cuff tendonitis
- Low back, neck and nerve pain, sciatica
- Tennis/golfer's elbow
- Achilles tendonitis
- Foot & ankle pain, plantar fasciitis
- Sacroiliac joint instability
- Most other common joint injuries

**Dr. Jesse Sally** will discuss the **Regenexx®** procedures of non-surgical stem cell and platelet rich plasma treatments. Dr. **Sally** specializes in fluoroscopically guided spinal procedures and regenerative medicine, and incorporates these procedures into an overall rehabilitation plan designed to decrease pain and improve quality of life.
