

AVOID SURGERY / REDUCE PAIN

by helping your body heal

JOIN US FOR A FREE EDUCATIONAL SEMINAR

Saturday, September 21st, 2019

Regenexx Pittsburgh offers the nation's most advanced non-surgical adult stem cell and blood platelet procedures for common injuries, arthritis and other joint conditions. These procedures increase function, decrease pain and offer the patient a viable alternative to invasive surgery. This seminar is your opportunity to learn about these cutting-edge procedures from the region's leading regenerative medicine doctors.

SPACE IS LIMITED. REGISTER TODAY!

Omni Bedford Springs Resort
10:00am — 12:00pm
2138 Business 220 • Bedford, PA 15522
