BBQ Etiquette

I am glad to see the revamped barbeque and patio area in greater use by our Members. The only time the outdoor area will be unavailable to members is when the facility has been booked for a function. At other times, Members and their guests, can use these facilities for their leisure on a shared basis. If you are planning a special occasion using the patio and BBQ area, it would pay to check with the Office to make sure there are no conflicts with other Club activities or facility bookings. BBQ utensils and washing up gear will normally be available, and we ask Members who use the facilities to leave them clean when finished. Please use bins provided for general rubbish and recycling to help us keep the area tidy.

As the whole area is licensed, BYO alcohol is not allowed when the Club bar is open which is currently the first and third Friday nights of the month and Sunday afternoons from 3:00 pm. When the Club bar is not operating, BYO alcohol is permitted as long as it is consumed responsibly and within licensing regulations, especially in regard to no alcohol being served to minors.

Gatherings of more than 25 persons intending to make use of the BBQ area are regarded as being a function and will require a Clubhouse hiring arrangement to be in place. (These are arranged with the office) For these the clubhouse bar will be engaged, and no BYO alcohol will be permitted.
