

HOW TO PLAY

- 1 One player holds the ball in the centre zone. Teams pass the ball to each other and get it to their teammate on the scoring line. The ball must pass through each zone before reaching the scoring line and players cannot run once they have the ball.
- 2 Once the ball gets to the player on the scoring line, a point is scored and the ball is returned to the centre and given to the other team.
- 3 If a defender intercepts the ball, the defenders become the attackers and the game continues!
- 4 Keep a total and see who wins!

EQUIPMENT

Bibs for half the Auskickers. 1 football, a stack of cones and an adult per group.

SET-UP

Divide the playing area into three and split the players into two teams, one with bibs.

One player from each team stands on opposite edges of the playing area (these are the "scoring lines").

The remaining players from both teams spread out evenly across the three zones.

CHANGE IT UP

- Try limiting the ways of passing the ball or try using different balls.
- Allow players to move with the ball. You can even remove the zones.
