

Item	Level 1 (32 kids)	Level 2 (36 kids)	Level 3 (40 kids)	Tips
Footballs	25	30	35	With the addition of a round ball and spiky ball in activities for Level 1, you will hopefully be able to have a ball per kid where required! Please note not all activities require a ball per child.
Cones	40	50	50	The activity squares only require 4 cones per grid to signify the space, use different colours if possible to differentiate each activity square
Posts	12	12	12	Goal posts, behind posts, agility sticks can all serve the same purpose and act as goals for the grid games. We recommend setting up two posts per end to allow for quick and easy set-up
Bibs	16	18	20	If you don't have enough bibs, you can always group kids based on their colour tops they have on, or use sashes or other uniform you may have available
