

Suttons Trucks

FAMILY OWNED SINCE 1943

THE DAF LF

HISTORY OF SUTTONS

For more than 80 years, Suttons has been a cornerstone of Sydney's transportation landscape - a name synonymous with exceptional service, professionalism, innovation, and, of course, quality vehicles and service. Established in 1943 by the late Sir Frederick Sutton, Suttons is still owned and operated by the Suttons Family with Craig and Ryan Sutton as joint Managing Directors. Suttons has grown into Sydney's Largest family-owned dealer group, a comprehensive family business covering all facets of the motor industry; sales, finance, service, and parts, including segments from volume, prestige, and trucks. Suttons has expanded and diversified exponentially since its inception. In the late 1940s, the acquisition of Suttons Motors Homebush marked the beginning of Bedford Truck sales and the beginning of an Automotive Legacy.

Today, Suttons remains committed to delivering the same excellent brand and service experience envisioned by Sir Frederick Sutton in 1943.

The benchmark for transport efficiency

With superb safety systems, excellent performance, great manoeuvrability, exceptional comfort and versatility, the DAF LF offers everything you expect from a modern distribution truck.

A range of innovations are included on the popular LF model range to take distribution transport to a greater level of excellence. Included are the latest safety systems, driveline enhancements, a luxurious interior, stylish exterior design, a comprehensive instrument panel and improved visibility for the driver. With higher load capacity and better efficiency, the DAF LF is an exceptional distribution truck for operators and drivers. In short, the DAF LF is **PURE EXCELLENCE.**

Safety Systems

The DAF LF offers elevated safety systems as standard. These include a fully Electronic Braking System and Adaptive Cruise Control (ACC), with Forward Collision Warning (FCW) and Advanced Emergency Braking System (AEBS-3) both integrated into the ACC system. The Lane Departure Warning System (LDWS) alerts the driver if the truck begins to stray unintentionally from its lane.

Driveline and Payload Excellence

Agile and light with a small turning circle, the DAF LF also has a robust and strong engine block and cylinder head. The trucks are built

with a long service life, maximum reliability and low weight in mind. PACCAR PX engines are also designed to simplify maintenance and maximise performance at low operational cost.

Superb Driver Comfort

The superb interior design makes the DAF LF attractive and comfortable, making driving easier, safer and more enjoyable. Stylish interior fabrics and seat functionality offer an exceptional level of driver comfort. And because distribution drivers are constantly in and out of the truck, doors and steps are designed to make entry and exit as easy as possible.

Driveline excellence

Light and responsive, with a range of engines, transmissions and rear axle ratios, the DAF LF offers you versatility, reliability and fuel efficiency, excellent performance and low emissions.

The PACCAR 6.7 litre PX-7 Euro 6 engines. Powerful and fuel efficient.

The power-to-weight ratio of the six-cylinder PACCAR PX engines are among the best in this performance class. Highly flexible, these engines result in excellent driveability and less gear-shifting.

PACCAR PX Euro 6 engines use EGR, SCR and DPF technologies to comply with the most stringent requirements for exhaust gas emissions. PACCAR PX Euro 6 engines offer excellent reliability, fuel efficiency, excellent performance and low emissions.

DAF's Unique Driver Performance Assistant (DPA) System to Measure and Improve Driver Performance

The DPA records the driving of individual drivers, benchmarks this against an ideal and gives useful tips for efficient acceleration and braking, and optimal gear selection.

Added Driver Comfort

The PACCAR PX engine's compact design, with various components integrated into the engine block and cylinder head, means it is extremely quiet, adding to driver comfort.

Fully Optimised Suspension

The front suspension is fully optimised to offer the perfect balance between damping, lateral stability and stiffness offering the driver further comfort.

Great Load Capacity

With its modern, strong and light chassis, the DAF LF does not compromise on robustness and flexibility, while offering low kerb weight and high load capacity.

High-Performance Axles

The axles have been developed with performance, long service life and maximum driving comfort in mind.

Superb Bodybuilder Friendliness

The DAF LF also incorporates innovations that improve bodybuilder friendliness, such as Body Attachment Module (BAM) programmes, that fast, easy installation of bodies. Also, by positioning various components on the inside of the chassis, the DAF LF chassis is completely flat which gives extra flexibility for different configurations.

The DAF LF Specifications

ENGINE	TYPE INDICATION	PERFORMANCE	TORQUE
PACCAR PX-7 engine 6.7 litre	PX-7 189	257 hp (189 kW) at 2,300 rpm	990 Nm at 1,000-1,700 rpm
PACCAR PX-7 engine 6.7 litre	PX-7 212	287 hp (212 kW) at 2,300 rpm	1,090 Nm at 1,100-1,600 rpm

Designed for comfort

Every aspect of the DAF LF's cab has been designed with driver comfort and ergonomics in mind. The result is a superior standard of user-friendliness and care for the driver's well-being.

The Perfect Working Environment

The dashboard is attractive and comprehensively equipped, offering maximum ease of use. All controls are within easy reach and arranged logically by function. And the extra-large capacity of the heating and ventilation system means the interior can quickly be brought to the ideal temperature. With doors that open to a wide 90° angle and steps designed to make entry and exit as easy as possible for the driver, no aspect of driver safety or comfort has been left to chance.

Even Better Driver Information and Visibility

The clear instrument panel fonts and styling enhance clarity, increasing driver comfort and

efficiency. Outstanding visibility is a design fundamental in the DAF LF. Integral mirrors are optimally positioned and easy to adjust. The large windscreen and side windows give the driver unobstructed views to the front and sides and with (optional) cornering lights to enhance visibility in the direction of travel.

Great Storage Space

The DAF LF offers extensive storage options, including side pockets in the door panels and two large compartments above the windscreen. The Extended Day Cab and Sleeper Cab come with three additional lockable storage boxes behind the seats as standard.

◀ **High-End Trim**

The cab features a high-end trim with stylish fabrics in warm colours on the seat, curtains and optional mattress.

◀ **Highly Adjustable Seat**

The DAF LF has an extremely comfortable driver's seat, with a large range of adjustments. This results in the perfect driving position for drivers of all heights.

Ergonomic Design ▶

The adjustable, multifunctional steering wheel contributes to an excellent driving position. The integrated switches for operating the cruise control, engine brake and radio are all within easy reach.

High-end exterior design

The DAF LF's superb exterior design delivers a great looking, aerodynamic and safe truck.

Roof Air Deflector and Fenders

Roof air deflector and fenders improve aerodynamics and lower fuel consumption.

Mirror Location

Integral mirrors are optimally positioned and easy to adjust.

Vision Door

An optional vision door improves safety by giving drivers a better view of pedestrians and cyclists on the near-side, next to the cabin. The passenger window is controlled electronically from the driver's side and slides to open.

Airflow

The design channels airflow for engine performance and helps keep the windscreen, windows and door handles clean.

Large Windscreen

The large windscreen gives the driver a clear view of the road and surrounding environment.

Upper Panel and DAF Logo

The panel above the grille has been enlarged with the DAF logo which is centred to provide a bold exterior.

Bumper

A galvanised bumper and Lexan headlights resist minor damage.

Silver Grille Strips

Silver grille strips give the DAF LF a strong, appealing and modern look.
