

EXTREME PERFORMANCE EXCEPTIONAL QUALITY

Utilizing a nano-ceramic construction, Vantalux maintains the same flawless appearance and clarity throughout the years. Blocking up to 88% infrared heat rejection, Vantalux will provide you with the level of performance you expect from a top-of-the line film without breaking the bank.

CRYSTAL CLEAR SIGNAL

Does not interfere with radio, cellular, and Bluetooth signals like traditional metallised films.

CERAMIC PARTICLE TECHNOLOGY

More effective than metallised or dyed films to filter out the sun's infrared radiation.

WARRANTY COVERAGE

VANTALUX Automotive Window Film to be free of manufacturer defects for the life of your vehicle.

UV RAY PROTECTION

Provides SPF 1,000 protection that blocks over 99% of harmful UV rays.

SUPERIOR HEAT REJECTION

Rejects up to 88% infrared heat, keeping your interior cool and improving fuel efficiency

GREATER CLARITY

Our Ceramic technology provides the highest performance without sacrificing clarity and colour.

The Skin Cancer Foundation recommends this product as an effective UV protectant.
