

CERAMIC PARTICLE TECHNOLOGY

More effective than metallised or dyed films to filter out the sun's infrared radiation.

SUPERIOR HEAT REJECTION

Rejects up to 88% infrared heat, keeping your interior cool and improving fuel efficiency.

WARRANTY COVERAGE

Vantalux Automotive Window Film to be free of manufacturer defects for the life of your vehicle.

CRYSTAL CLEAR SIGNAL

Does not interfere with radio, cellular, and Bluetooth signals like traditional metallised films.

UV RAY PROTECTION

Provides SPF 1,000 protection that blocks over 99% of harmful UV rays.

GREATER CLARITY

Our Ceramic technology provides the highest performance without sacrificing clarity and colour.
