## Who is this Guide for?

The Implementation Guide is designed to assist assessors, trainers, registered training organisations (RTOs) and enterprises to deliver nationally endorsed industry training packages.

Nationally endorsed training packages are developed to meet the *Standards for Training Packages* (and accompanying policies) which were ratified by Commonwealth and State/Territory ministers in 2012.

As well as information relevant to all training packages, it provides specific information and advice about the history, structure, key features and application of the *BSB Business Services Training Package*.

## ***What is in the Guide?***

This *BSB Business Services Training Package* Implementation Guide provides:

- information relevant to all training packages
- list of qualifications, skill sets and units of competency
- mapping information for qualifications, skill sets and units of competency
- specific information and advice about the history, structure, key features and application of the *BSB Business Services Training Package*.

## ***What is a training package?***

A training package is a set of nationally endorsed qualifications, units of competency and assessment requirements developed for a specific industry, sector or workplace. A training package:

- specifies the skills and knowledge required to perform effectively in the workplace
- provides consistent components for training, assessing or recognising skills
- enables nationally recognised qualifications to be awarded through direct assessment of workplace competencies
- promotes flexible modes of training to suit individual and industry requirements
- encourages learning and assessment in a work-related environment that leads to verifiable workplace outcomes
- may also provide support materials.

While a training package *does* specify workplace skills and knowledge requirements, it *does not* suggest how a learner should be trained. Users of training packages, such as trainers or assessors, must develop learning and assessment strategies that support the needs of their particular learners.

## ***Components of PwC's Skills for Australia training packages***

Training packages consist of the following endorsed components:

- **Qualifications** which consist of units of competency combined into meaningful groups to meet workplace roles, and aligned to vocational qualification levels identified in the *Australian Qualifications Framework (AQF)*
- **Units of competency** which specify the standards of performance required in the workplace
- **Assessment requirements** which specify the performance evidence, knowledge evidence and conditions for assessment for each unit of competency
- **Credit arrangements** which specify details of existing credit arrangements between vocational and higher education qualifications in accordance with the *AQF*. Currently no credit arrangements exist between any PwC's Skills for Australia training package qualifications and higher education qualifications.

Training packages may also include non-endorsed components, such as:

- **Skill sets** which are groups of endorsed units of competency that address a defined industry need or licensing or regulatory requirement
- **Companion volumes** (including this Implementation Guide) which provide support for delivery and assessment
- **User guides** which provide information about specific components.

---

# About training packages

## ***Training package development and endorsement process***

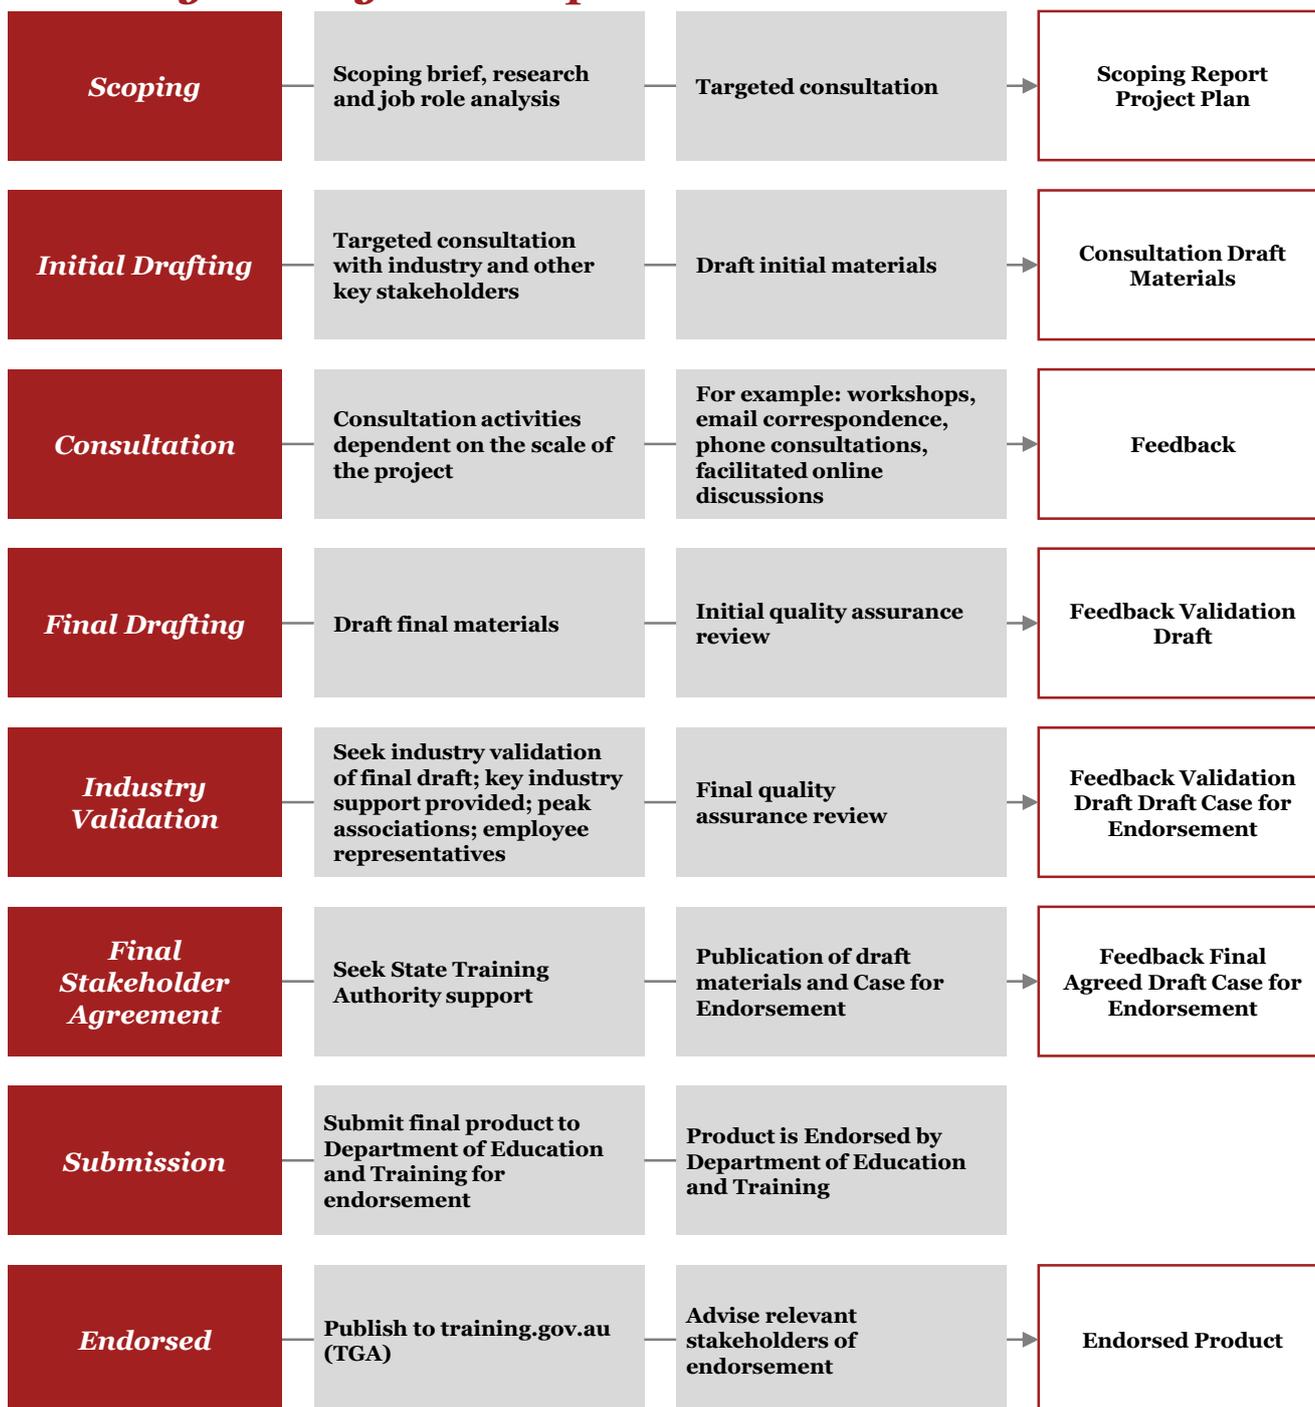

All training packages must be designed and developed to comply with the Australian Government's *Standards for Training*

*Packages* and accompanying policies, which were approved by Commonwealth and State/Territory ministers in 2012. More information about training package standards and policies is available on the Department of Education and Training website:

<https://docs.education.gov.au/documents/training-packagedevelopment-and-endorsement-process-policy>

Training packages are developed to meet the training needs of specific industries and sectors. They differ from other education and training courses in that they must be created with industry involvement and extensive national consultation. They are regularly reviewed through a continuous improvement cycle, and updated to ensure they remain current and relevant. The following diagram demonstrates PwC's Skills for Australia development or review process.

## Training Package Development Process

## Who can deliver and assess a qualification?

For the purpose of national recognition, delivery and assessment must be conducted by an RTO with the qualifications or specific units of competency on its scope of registration.

All RTOs must comply with the requirements set out in applicable national frameworks and standards. The current registering bodies, frameworks and standards, and which type of RTO they apply to, are shown in the table on the following page. Users of this Implementation Guide are advised to check the applicable standards for their particular circumstances.

More information about national standards and standards for non-referring states can be found at:

<https://education.gov.au/standards-non-referring-statesaustralian-quality-training-framework>

RTOs must make sure that training and assessment complies with the relevant standards. This includes ensuring that training delivery and assessment is conducted by those who:

- have the necessary training and assessment competencies
- have the relevant vocational competencies at least to the level being delivered or assessed
- can demonstrate current industry skills directly relevant to the training/assessment being delivered
- continue to develop their VET knowledge and skills, industry currency and trainer/assessor competence.

In some cases RTOs may need to use team-based or collaborative approaches to bring together all the necessary skills and knowledge to train and assess the full range of skills within a program of vocational training

**Check for specific assessor requirements in the *Assessment conditions* section of the assessment requirements for the unit of competency.**

### Summary of Frameworks and Standards for RTOs

| Registering body  | Standards   | Applicable RTOs  |
|---|---|--|
| <b>Australian Skills Quality Authority (ASQA)</b>                 | Standards for Registered Training Organisations (RTOs) 2015   | RTOs that deliver training in the Australian Capital Territory, New South Wales, the Northern Territory, South Australia, Queensland, or Tasmania<br><br>RTOs in Victoria and Western Australia that offer training to overseas students and/or students (including online courses) in the Australian Capital Territory, New South Wales, the Northern Territory, South Australia, Queensland, or Tasmania |
| <b>Training Accreditation Council (WA TAC)</b>                    | Standards for Registered Training Organisations (RTOs) 2015   | RTOs that deliver vocational education and training solely in Western Australia and do not intend to apply to be registered on the Commonwealth Register of Institutions and Courses for Overseas Learners (CRICOS)  |
| <b>Victorian Registration and Qualifications Authority (VRQA)</b> | AQTF Essential Conditions and Standards for Initial Registration<br>AQTF Essential Conditions and Standards for Continuing Registration | RTOs that deliver vocational education and training solely in Victoria and/or Western Australia and do not intend to apply to be registered on the Commonwealth Register of Institutions and Courses for Overseas Learners (CRICOS)  |

## About the Business Services industry

### The sector at a glance

The business services sector covers a broad range of workers who are employed by a vast range of Australian organisations. Workers in the sector provide a range of skills needed to effectively operate and successfully

manage an organisation. There is no unifying organisation type which use business services, rather workers in the sector provide professional assistance to all organisations.

There are 2 million people working in business services occupations, down 7 per cent over the past two years, but still representing a high proportion (17 per cent) of Australian jobs. The three industries that employ the most business services graduates are: Health Care and Social Assistance, Retail Trade and Public Administration and Safety.

The business services sector referred to in this report is broadly defined as the workforce served by the Business Services Training Package. The Training Package is made up of a variety of qualifications that can be broadly grouped as follows:

- Business administration and governance has 21 qualifications from Certificate I to Advanced Diploma
- Business communications has 7 qualifications from Certificate II to Advanced Diploma
- Business compliance has 5 qualifications from Certificate III to Advanced Diploma
- Business leadership and management has 13 qualifications from Certificate IV to Graduate Diploma
- Other specialised business services has 20 qualifications Certificate III to Advanced Diploma.

More detail of the Business Services Training Package, including an overview of enrolment levels, is included after the sub sector descriptions.

### **Business administration**

Business administration workers provide support for the operation of businesses. This grouping includes occupations such as: receptionists, personal assistants and executive assistants, general clerical workers and office administrators. In providing operational support for businesses, workers in this group often need a range of generalist business skills such as basic project management, procurement and contracting. Employees in this sub sector are embedded across all industries within the Australian economy.

### **Business and governance**

Governance personnel are vital to the proper functioning of organisations. Workers in governance positions are involved in setting the strategic direction of organisations and contribute to the proper process and conduct in the management of an organisation. Governance training in the Business Services Training Package is aimed at providing the skills needed to operate on the management board of community group, club, association or business. Specific Aboriginal and Torres Strait Islander (ATSI) governance training is also available for people in governance positions of ATSI organisations.

### **Customer engagement**

Customer engagement workers are primarily those workers who personally have contact with customers. Typical roles for workers in customer engagement include those in call or contact centres, social media engagement or those working at inquiry desks for example. These roles typically require a high degree of emotional intelligence and customer service skills.

### **Marketing and communication**

Marketing and communication workers consist of those in roles such as advertising, marketing and public relations. Workers in this sub-sector manage the communication and messaging of businesses, including its brand, image and social relevance. The primary function of these roles is to communicate messaging of businesses to society generally as well as current and future customers and stakeholders. In Australia there are currently over 7,700 specialist marketing and advertising agencies, producing services valued at \$2.3 billion annually. However, this does not fully capture the employment opportunities available to workers in marketing and communications. A significant proportion of marketing and communication workers are embedded within other businesses, rather than specialist marketing and communication organisations.

### **Quality auditors**

Quality auditors help organisations ensure that they comply with their relevant quality management systems, such as ISO9001, food safety standards or environmental management standards. Specialist quality auditors are more common within larger businesses which have rigorous quality assurance frameworks such as food preparation or manufacturing.

### **Recordkeeping**

Recordkeeping workers are found in large private businesses and the public sector, where they are primarily involved in the collection, maintenance and retrieval of records. Public sector organisations, particularly in health care, public safety and training sectors employ specialist records managers to administer records. Private businesses also employ specialist recordkeepers, particularly in sectors such as financial services which require detailed client records to be retained to meet regulatory requirements. Increasingly, there is a convergence in the skills required of recordkeepers, archivists, and library and information services workers. In Australia there are a number of specialist document management businesses such as Recall and Iron Mountain, businesses in this sector together produce revenues approximately \$490 million annually. However, the majority of recordkeepers are embedded within organisations, rather than specialist document management businesses.

### **Business leadership and management**

Workers operating in leadership and higher level management roles set the strategic direction of businesses and are responsible for building and managing relationships of strategic importance. These roles include supervisors to business leaders and executives. Business leaders and managers can work in operational to strategic capacities, and often undertake administration of contracts, organisational programs, special projects, and manage support services.

### **Project, program and portfolio management**

Project, program and portfolio managers are similar but distinct roles. Project managers have specific training in initiating, scheduling, directing teams to achieve specific goals within a project. Much of the role of project managers is to develop trust and communication channels between stakeholders, to achieve a common purpose. Program managers are responsible for multiple related projects and portfolio managers are responsible for the selection, prioritisation and alignment of projects and programs with an organisation's strategy.

### **Environmental management**

Environmental managers are often employed in the construction, infrastructure and facilities management industries, where they help manage and reduce the environmental impacts of the relevant project or facility. Workers may also be involved in ensuring compliance with relevant environmental protection standards and improving efficiency through reduced waste and energy consumption.

### **Conveyancing and legal services**

Conveyancers provide specialist services to facilitate the sale and purchase of real estate and related transactions. In many Australian states and territories, conveyancing is a licenced occupation and VET can form part of the licencing requirements. More generalised legal services workers such as legal secretaries often work alongside lawyers to assist in the preparation of legal documents, conducting legal research and apply their basic legal knowledge. Conveyancers and legal services workers often work within specialised legal or conveyancing firms. However, larger organisations may also employ legal services workers in their in-house legal divisions. The total legal services market in Australia is estimated to produce services worth \$23.1 billion annually with conveyancing and property law services accounting for approximately 19 per cent of this market.

### **Franchising**

Franchises are a common structure for businesses in the Australian economy. Business Services qualifications in the sub sector are concerned with providing the skills which franchise owners and operators need to operate and manage their businesses effectively. Although many of the skills required to operate a franchise are generalist business skills, franchising qualifications also include specific skills such as: knowledge and application of the franchising code of conduct and management of franchising agreements. Typically the Certificate IV in Franchising is aimed at franchisees and the Diploma of Franchising aimed at franchisors. In Australia it is estimated that there are almost 95,000 businesses operating as a unit in a franchise, up 16,000 over the past year, and approximately 580,000 people directly employed in one of these businesses, an increase of 8,000 in the past year.

### **Human resources**

Human resources (HR) professionals work within business to support functions such as recruitment, workforce planning and management, and dispute resolution. A large number of government agencies and private businesses employ dedicated HR staff, however there is also a significant number of HR staff which work in specialist recruitment firms. In Australia, there is estimated to be approximately 7,000 specialist recruitment and employment placement businesses employing HR professionals. However, as mentioned above, workers in this sector are also embedded in businesses across the entire economy. Increasingly human resources staff are also managing learning and development practices which provide employee training within businesses.

### **International trade**

There is no unifying type of occupation or type of business in which international trade VET graduates work. Rather, International Trade qualifications provide knowledge and skills which can be applied to any business which is involved in importing, exporting or managing foreign clients. Workers in this area have specialist knowledge of international trade in areas such as compliance, tariffs, and duties and have knowledge of international markets and global supply chains.

### **Library and information services**

Workers in the library and information services sub-sector manage storage, organisation, access, retrieval, dissemination and preservation of information. In most cases, they work closely with clients to suggest resources and locate information. There are a significant number of employers in the library and information services sector with 1,491 public libraries in Australia, however the number of registered library users has decreased from 10.2 million in 2010 11 to 8.2 million in 2014 15. Within the library and information services workforce, there are three primary work levels: Librarians, Library Technicians and Library Assistants. VET is primarily concerned with the training of library technicians. At this level, workers have sound knowledge and skills in library and information management and undertake a varied range of tasks and library procedures.

### **Purchasing and procurement**

Purchasing and procurement workers deal with sourcing activities and strategic contracting of goods and services providers for businesses. A large number of purchasing and procurement specialists are employed in the public sector, however public sector specific training is provided under the Public Sector Training Package. Most procurement specialists in the private sector work in small teams and are primarily involved in managing relationships, negotiations and contracts with external suppliers and service providers. The Business Services Training Package provides training for private sector employees, who are typically have industry experience but are up skilling to move into purchasing and procurement roles.

### **Work health and safety**

Workplace health and safety workers setup compliance frameworks, undertake safety audits and provide advice to businesses on ways of working and management of work health and safety to prevent work-related health problems, diseases, injuries and death. While all workers require an understanding of work health and safety, many businesses (across all sectors of the economy) employ specialised work health and safety advisors, this is particularly concentrated in higher risk sectors such as mining, manufacturing and construction industries. VET is primarily aimed at the work health and safety practitioners. A person with a Certificate IV to Diploma would typically work in a role such as a work health and safety officer.

### **Looking to the future**

The Business Services Industry has benefited from long periods of growth and as the economy strengthens and as outsourcing continues, the outlook for this industry is positive. There are a number of trends in play that will impact on most sectors in the industry coming years:

- End of the mining boom - the economy is going through a transition period as the mining boom, which has been sustaining the economy for several years, begins to slow. Business services which benefited from this expansion will need to look for new areas of revenue.
- Offshoring – the continuing drive for increased efficiency in the face of strong competitive pressures as well as advances in communication technologies and skill shortages in Australia have underpinned longer term efforts to shift parts of the internal operations of some business services organisations offshore.

- Customer engagement – efforts to increase demand for services and business sustainability by enhancing customer engagement is a key theme in the business services.
- New technologies – the cloud and mobile devices will be used progressively more as business tools. The use of software that integrates various social media platforms for use in daily business processes will enhance and extend internal and external collaboration. Data analytics is becoming integral to business processes to enhance understanding of customers and to forecast more accurately.
- Deeper global engagement - larger business services are already working closely through partnerships and collaboration with overseas companies, particularly in Asia. This will continue as businesses recognise new opportunities in emerging markets and are supported, through policy changes, to integrate more with Asia.
- End to end services – business services organisations are increasingly called upon to provide full solutions for their customers. Rather than focussing on solving a small slice of a problem, clients are looking to one service to design total business solutions and manage all aspects of design, implementation and monitoring.
- Environmental sustainability - increasingly all businesses are expected to minimise their environmental impact, particularly as the effects of climate change become clearer. Environmental sustainability practices also have benefits for businesses in terms of cost savings, energy efficiency, staff engagement and gaining a competitive edge.

Business services are responding to these trends by forging business partnerships, specialising in niche areas, employing more professionals, distributing decision making more widely within organisations, getting closer to customers through data, and harnessing the contingent workforce. These responses will all have an impact on the future skill set of the workforce.

## ***Qualifications, skill sets and units of competency***

The *BSB Business Services Training Package* contains:

- 66 AQF aligned qualifications
- 57 skill sets
- 643 native units of competency
- 128 imported units of competency

### **List of qualifications, skill sets and units of competency:**

- Qualifications in the BSB Business Services Training Package version 4.0
- Skill sets in the BSB Business Services Training Package version 4.0
- Units of competency in the BSB Business Services Training Package version 4.0

| TLIE4006                  | Collect, analyse and present workplace data and information                    | TLI - Transport and Logistics Training Package         |

## ***Mapping to previous version of the training package***

Mapping information can be useful for delivery and assessment as it:

- explains the main changes between the previous and current versions of qualifications, skill sets and units of competency
- shows whether the outcomes of the previous and current versions are equivalent or not equivalent
- Shows new components as well as any components removed from the training package.

## ***Qualification mapping***

| <b><i>Qualification code and title BSB Business Services version 3.0</i></b> | <b><i>Qualification code and title BSB Business Services version 4.0</i></b> | <b><i>Comments</i></b>    | <b><i>Equivalence to previous qualification</i></b> |
|--|--|---------------------------|---|
| BSB30115 Certificate III in Business (release 3)                             | BSB30115 Certificate III in Business (release 4)                             | Updates to elective units | Equivalent  |

| <b><i>Broad</i></b> | <b><i>Titles for specific competency fields (alpha code)</i></b> | <b><i>Description<br/>This code is used to indicate:</i></b>   |
|---------------------|--|--|
|                     | Workplace Relations (WRK)  | Specialist units of competency applied in workplace review processes, dealing with and through trade unions, and in a range of industrial relations contexts |

---

# Implementation information

## **Regulation and licensing implications for implementation**

Regulation or licensing issues are identified in the *Application* section of units of competency and the *Qualification description* section of qualifications. If there are no requirements, the following statement will appear: No licensing, legislative or certification requirements apply to this unit/qualification at the time of publication.

### **Information for conveyancers**

Conveyancers help prepare all legal documents involved in a real estate transaction (in Western Australia, conveyancers are known as settlement agents). The following licensing, legislative and certification requirements apply to conveyancing qualifications in the *BSB Business Services Training Package*.

### **Minimum qualifications/required units of competency**

Conveyancers must be either qualified legal practitioners or hold BSB52015 *Diploma of Conveyancing* with the following units of competency:

- *BSBCNV501 Take instructions in relation to a transaction*
- *BSBCNV502 Read and interpret a legal document and provide advice*
- *BSBCNV503 Analyse and interpret legal requirements for a transaction*
- *BSBCNV504 Prepare legal documents*
- *BSBCNV505 Finalise the conveyancing transaction*
- *BSBCNV506 Establish and manage a trust account*
- *BSBLEG415 Apply the principles of contract law*
- *FNSACC413 Make decisions in a legal context*
- *FNSINC401 Apply principles of professional practice to work in the financial services industry*
- plus 4 elective units.

Independent conveyancing contractors need to complete the following two sectoral units of competency to be licensed with the Business Licensing Authority

- *BSBCNV601 Identify and conduct searches*
- *FNSORG601 Negotiate to achieve goals and manage disputes.*

### **Relevant legislation and regulatory requirements**

Legislative and regulatory requirements differ between States and Territories in Australia, and are subject to change. RTOs are responsible for ensuring that delivery and assessment incorporates the appropriate requirements.

#### **Commonwealth**

- *A New Tax System (Goods and Services Tax) Act 1999*

- *Age Discrimination Act 2004*
- *Anti-Money Laundering and Counter-Terrorism Financing Act 2006*
- *Australian Capital Territory Government Service (Consequential Provisions) Act 1994*
- *Australian Human Rights Commission Act 1986*
- *Australian Prudential Regulation Authority Act 1998*
- *Australian Securities and Investments Commission Act 2001*
- *Competition and Consumer Act 2010*
- *Corporations Act 2001*
- *Disability Discrimination Act 1992*
- *Fringe Benefits Tax Assessment Act 1986*
- *Income Tax Assessment Act 1997*
- *Privacy Amendment (Enhancing Privacy Protection) Act 2012*

#### **Licensing requirement**

- *Racial Discrimination Act 1975*
- *Sex Discrimination Act 1984*
- *Tax Agent Services Act 2009*
- *Taxation Administration Act 1953*
- *Work Health and Safety Act 2011*

#### **State/Territory**

- Anti-discrimination: *Discrimination Act 1991 (ACT); Antidiscrimination Act 1977 (NSW); Anti-Discrimination Act 1996 (NT); Anti-Discrimination Act 1991 (Qld); Anti-Discrimination Act 1998 (Tas); Equal Opportunity Act 1995 (Vic); Equal Opportunity Act 1984 (WA)*
- Occupational health and safety: *Occupational Health and Safety Act 2004 (Vic); Occupational Safety and Health Regulations 1996 (WA)*
- Trustee: *Trustee Act 1958 (Vic); Trustee Act 1925 (NSW); Trustee Act 1936 (SA); Trustee Act 1962 (WA); Trustee Act 1978 (Qld)*

#### **Regulatory authorities/Standards**

- *Australian Accounting Standards Board (AASB) Standards*
- *Financial Reporting Council*

#### **Licensing requirement**

| <b>State/Territory</b> | <b>Licensing requirements</b>   |
|------------------------|---|
| <b>NSW</b>             | Conveyancers must be licensed. Compliance with the <i>Conveyancers Licensing Act 2003</i> and the <i>Conveyancing Licensing Regulation 2006</i> . |

| <b>State/Territory</b> | <b>Licensing requirements</b>  |
|------------------------|--|
| <b>NT</b>              | Conveyancers must be licensed. Compliance with the <i>Agents Licensing Act</i> .                 |
| <b>SA</b>              | Conveyancers must be registered. Compliance with the <i>Conveyancers Act 1994</i> .              |
| <b>Vic</b>             | Must be licensed. Compliance with the <i>Conveyancers Act 2006</i> .                             |
| <b>WA</b>              | Need Settlement Agents' licence.   |
| <b>ACT &amp; Qld</b>   | No conveyancing Act. Need to hire a legal practitioner or conveyancer working within a law firm. |
| <b>Tas</b>             | Must be licensed. Compliance with the <i>Conveyancing Act 2004</i> .                             |

## ***WHS implications in the industry***

*Work health and safety (WHS)* requirements are covered either by:

- embedding requirements in the elements/performance criteria of units of competency
- Including specific *WHS* units in qualifications.

In jurisdictions where the National Model *WHS* Legislation has not been implemented RTOs are advised to contextualise units of competency by referring to the existing State/Territory *occupational health and safety (OHS)* legislative requirements.

## ***Requirements for assessors***

Assessor requirements are identified in the *Assessment conditions* section of units of competency.

All assessors must meet the requirements set by the applicable registering body (refer to the section 'Who can deliver and assess a qualification?' in this Guide).

As well as the requirements set by the registering body, assessors of *BSBWHS402 Assist with compliance with WHS laws* must hold a *WHS* qualification or equivalent at diploma level or higher.

## ***Entry requirements***

Generally individuals may commence a qualification as long as have the knowledge, skills or experience required for entry.

Industry feedback has determined that particular entry requirements are required to maximise the successful completion of some qualifications by learners.

The table shows those qualifications in the *BSB Business Services Training Package* with specific entry requirements.

| <b>Qualification code and title</b>               | <b>Entry requirements</b>   |
|---|---|
| <b>BSB51315 Diploma of Work Health and Safety</b> | <p>This qualification requires individual to hold core units of competency from <i>BSB41415 Certificate IV in Work Health and Safety</i>, or equivalent competencies. Equivalent competencies are the predecessors of the following units which have been mapped as having equivalent outcomes:</p> <ul style="list-style-type: none"> <li>• BSBWHS402 Assist with compliance with <i>WHS</i> laws</li> <li>• BSBWHS403 Contribute to implementing and maintaining <i>WHS</i> consultation and participation processes</li> </ul> |

| <b>Qualification code and title</b>                             | <b>Entry requirements</b>  |
|---|--|
|   | <ul style="list-style-type: none"> <li>• BSBWHS404 Contribute to WHS hazard identification, risk assessment and risk control</li> <li>• BSBWHS405 Contribute to implementing and maintaining WHS management systems</li> <li>• BSBWHS406 Assist with responding to incidents</li> </ul>  |
| <b>BSB52318 Diploma of Governance</b>                           | <p>Entry to this qualification is limited to those individuals who:</p> <ul style="list-style-type: none"> <li>• have completed a <i>Certificate IV in Governance</i> or</li> <li>• provide evidence of competency in the core units required for <i>BSB40915 Certificate IV in Governance</i> or</li> <li>• have vocational experience in a range of environments working with boards of governance, but with no formal qualification.</li> </ul>   |
| <b>BSB52415 Diploma of Marketing and Communication</b>          | <p>Entry to this qualification is limited to those individuals who have completed all core units in <i>BSB42415 Certificate IV in Marketing and Communication</i>.</p>   |
| <b>BSB60615 Advanced Diploma of Work Health and Safety</b>      | <p>This qualification requires individuals to hold all core units of competency from <i>BSB51315 Diploma of Work Health and Safety</i>, or equivalent competencies. Equivalent competencies are the predecessors of the following units which have been mapped as having equivalent outcomes:</p> <ul style="list-style-type: none"> <li>• BSBWHS502 Manage effective WHS consultation and participation processes</li> <li>• BSBWHS503 Contribute to the systematic management of WHS risk</li> <li>• BSBWHS504 Manage WHS risks</li> <li>• BSBWHS505 Investigate WHS incidents</li> <li>• BSBWHS506 Contribute to developing, implementing and maintaining WHS management systems</li> </ul>   |
| <b>BSB61218 Advanced Diploma of Program Management</b>          | <p>Entry to this qualification is limited to those who:</p> <ul style="list-style-type: none"> <li>• have completed a <i>Diploma of Project Management</i> qualification.</li> </ul> <p>or</p> <ul style="list-style-type: none"> <li>• have completed two years equivalent full-time relevant workplace experience at a significant level within a project or program environment within an enterprise.</li> </ul>  |
| <b>BSB61315 Advanced Diploma of Marketing and Communication</b> | <p>Entry to this qualification is limited to those individuals who have completed all core units in <i>BSB52415 Diploma of Marketing and Communications</i> or equivalent units of competency.</p>   |
| <b>BSB80215 Graduate Diploma of Strategic Leadership</b>        | <p>Entry to this qualification is limited to those who:</p> <ul style="list-style-type: none"> <li>• have completed a Diploma or Advanced Diploma qualification in related fields of study and 3 years equivalent full-time relevant workplace experience at a significant level of leadership and management responsibility and/complexity in an enterprise</li> </ul> <p>or</p> <ul style="list-style-type: none"> <li>• have completed a Bachelor degree in related fields of study and 2 years equivalent full-time relevant workplace experience at a significant level of leadership and management responsibility and/or complexity in an enterprise</li> </ul> <p>or</p> <ul style="list-style-type: none"> <li>• have five years equivalent full-time relevant workplace experience at a significant level of leadership and management responsibility and/or complexity in an enterprise.</li> </ul> |
| <b>BSB80315 Graduate</b>  | <p>Entry to this qualification is limited to those who:</p>  |

| <b>Qualification code and title</b>                      | <b>Entry requirements</b>   |
|--|---|
| <b>Certificate in Leadership Diversity</b>               | <ul style="list-style-type: none"> <li>• have completed a Bachelor degree in related fields of study or</li> <li>• have completed a Diploma or Advanced Diploma qualification in related fields of study and 2 years equivalent full-time relevant workplace experience at a significant level of leadership and management responsibility and/or complexity in an enterprise.</li> </ul> <p>or</p> <ul style="list-style-type: none"> <li>• have three years equivalent full-time relevant workplace experience at a significant level of leadership and management responsibility and/or complexity in an enterprise.</li> </ul>  |
| <b>BSB80415 Graduate Diploma of Portfolio Management</b> | <p>Entry to this qualification is limited to those who:</p> <ul style="list-style-type: none"> <li>• have completed a Diploma or Advanced Diploma qualification in related fields of study and 3 years equivalent full-time relevant workplace experience at a significant level of project or program leadership and management responsibility and/or complexity in an enterprise. or</li> <li>• have completed a Bachelor degree in related fields of study and 2 years equivalent full-time relevant workplace experience at a significant level of project or program leadership and management responsibility and/or complexity in an enterprise.</li> </ul> <p>or</p> <ul style="list-style-type: none"> <li>• have five years equivalent full-time relevant workplace experience at a significant level of leadership and management responsibility and/or complexity in an enterprise.</li> </ul> |

## ***Access and equity considerations***

Access and equity relates to the approaches used to make sure training and assessment practices consider and respond to the individual needs of learners, so that potential learning barriers are minimised. Individual needs that could present barriers to access, participation and achievement of learning outcomes include:

- age
- gender
- cultural or ethnic background
- disability
- sexuality
- language, literacy or numeracy skills
- employment status
- geographical location.

The design and content of this training package supports equitable access and progression for all learners. It is the responsibility of the RTO delivering and assessing qualifications to:

- ensure that training and assessment processes and methods do not disadvantage individual learners
- determine the needs of individual learners and to provide access to any educational and support services necessary.

Some practical ways that access and equity issues could be addressed include:

- modifying assessment processes and techniques for learners who are located at a distance from a campus location
- checking that materials are culturally appropriate for learners and amending, as necessary
- making sure that activities and assessments are suitable for the language, literacy and numeracy skill levels of learners (while meeting the requirements of the unit of competency).

### *Considerations specific to learners with disability*

A legislative and regulatory framework underpins and supports the delivery of vocational education and training across Australia. Under this framework, providers of vocational education and training must take steps to ensure that learners with recognised disabilities can access and participate in education and training on the same basis as learners without disabilities.

RTOs have obligations to support learners with disability under the Standards for RTOs 2015, Disability Discrimination Act 1992, and the Disability Standards for Education 2005. RTOs need to be able to provide advice and information to students with disability on the suitability of a course, any inherent requirements for the course, reasonable adjustments that can be made, and support that is available.

Training and assessment practices must give due consideration to learners with disability, and in particular recognise the diverse range of disabilities and individualised impact that disability has on learners. Disability is broad and diverse, including physical and learning disabilities, chronic medical condition, or mental illness. RTOs must take an individualised approach to supporting learners with disability, recognising that each learner's disability will be unique, and will have a unique impact on their learning experience. An individual's disability may necessitate the implementation of specific supports to allow them to participate in learning.

It is recommended to ask universally (and also on an individual basis) whether a person requires adjustments to complete their course. Make it clear that all personal information will be handled confidentially and that this question is only asked for the purposes of being able to offer support and arrange reasonable adjustments. Students with disability do not have to disclose their disability, but by making it clear that disclosure is only for the purposes of providing support so they can access and participate in training equally, students are more likely to feel comfortable disclosing. If a student does choose to disclose, they must be consulted to determine what supports or reasonable adjustments should be put in place for them.

It is important that all staff are made aware of what their responsibilities are in negotiating and implementing adjustments and supports.

Examples of educational and support services that can assist students with disability meeting course requirements include:

- study support and skills programs, including language, literacy and numeracy (LLN) programs
- providing equipment, resources and/or programs to increase access for learners with disabilities
- use of trained support staff including specialist teachers, note-takers and interpreters
- flexible scheduling and delivery of training and assessment, including allowing longer time periods where appropriate, and adjustment to delivery methods and communication techniques
- provision of learning materials in alternative formats.

### *Reasonable adjustment*

A legislative and regulatory framework underpins and supports the delivery of vocational education and training across Australia. Under this framework, providers of vocational education and training must take steps to ensure that learners with recognised disabilities can access and participate in education and training on the same basis as learners without disabilities.

Sometimes reasonable adjustments, are made to the learning environment, training delivery, learning resources and/or assessment tasks to accommodate the particular needs of a learner with a disability. An adjustment is reasonable if it can accommodate the learner's particular needs, while also taking into account factors such as:

the views of the learner; the potential effect of the adjustment on the learner and others; the costs and benefits of making the adjustment.

Adjustments must:

- be discussed and agreed to by the learner with a disability
- benefit the learner with a disability
- maintain the competency standards
- be reasonable to expect in a workplace.

Adjustments are not required if they could:

- cause the RTO unjustifiable hardship
- harm other learners.

Making reasonable adjustments requires the RTO to balance the need for change with the expense or effort involved in making this change. If an adjustment requires a disproportionately high expenditure or disruption it is not likely to be reasonable.

### *Reasonable adjustment considerations specific to learners with disability*

Sometimes *reasonable adjustments*, are made to the learning environment, training delivery, learning resources and/or assessment tasks to accommodate the particular needs of a learner with disability. The purpose of reasonable adjustments is to make it possible for learners to participate fully. It is not to give learners with additional or different needs an advantage over others, to change course standards or outcomes, or to guarantee success. A reasonable adjustment in learning and assessment activity needs to be justifiable and uphold the integrity of the unit/qualification. An adjustment is reasonable if it can accommodate the learner's particular needs, while also taking into account factors such as: the views of the learner; the potential effect of the adjustment on the learner and others; the costs and benefits of making the adjustment. Reasonable adjustments should be negotiated on an individualised basis, recognising that each person with disability will have unique learning needs and requirements for adjustment.

Inherent requirements are the fundamental parts of a course that must be met by all students in order for them to be deemed competent. They are the abilities, skills and knowledge students need to complete the course – those components which, if removed, would compromise the learning outcomes. Students with disability should be provided with reasonable adjustments to enable them to meet these inherent requirements, provided this would not cause unjustifiable hardship to the RTO. However, if a student cannot meet the inherent requirements, even with adjustments, then they cannot complete the course. Students should be given as much information as possible to allow them to make informed decisions about whether they will be able to meet inherent course requirements.

Adjustments must:

- be discussed and agreed to by the learner with disability
- benefit the learner with disability
- maintain the competency standards
- be reasonable to expect in a workplace or training and assessment environment.

Adjustments are not required if they could:

- cause the RTO unjustifiable hardship
- harm other learners.

Making reasonable adjustments requires the RTO to balance the need for change with the expense or effort involved in making this change. If an adjustment requires a disproportionately high expenditure or disruption, it is not likely to be reasonable.

Reasonable adjustments can encompass a range of areas including the physical environment, teaching delivery and format, utilisation of assistance equipment and reduction of study load. Examples of reasonable adjustments that can assist students with disability to participate fully in training and assessment include:

- accessible classrooms
- changes to class scheduling
- note-taking or interpreting support
- modification to presentation mediums and techniques, or teaching practices
- alternative course materials, information formats, and learning tasks
- alternative assessment formats, timeframes or tasks
- implementation of assistive technologies or specialised equipment
- allowing a carer or support person to be present in the learning environment

### **Additional Resources**

The following resources can provide further information about different types of disability, as well as additional guidance and support for meeting the needs of learners with disability:

- the Australian Disability Clearinghouse on Education and Training (ADCET)
- the Australian Human Rights Commission
- National Disability Coordination Officers

Student Support Services, Access and Equity or Disability departments within your Training organization may also be referred to, to provide further guidance on supporting and including learners with disability.

An overview of some specific types of disability, their possible impacts, and teaching and assessment strategies to assist students with these impacts, can be found at: <https://www.adcet.edu.au/inclusive-teaching/specific-disabilities/>

Some practical examples for implementing reasonable adjustments to address different learner needs can be found at:

[http://www.ndco.stepscs.net.au/uploads/5/0/2/0/5020317/7\\_reasonable\\_adjustments\\_sept\\_2014.pdf](http://www.ndco.stepscs.net.au/uploads/5/0/2/0/5020317/7_reasonable_adjustments_sept_2014.pdf)

## ***Foundation skills***

Foundation skills are the non-technical skills that support an individual’s participation in the workplace, in the community and in education and training.

In this training package (and all training packages developed by PwC’s Skills for Australia) the foundation skills incorporate the learning, language, literacy and numeracy (LLN) skills described in the *Australian Core Skills Framework (ACSF)*, and the employability skills described in the *Core Skills for Work Developmental Framework (CSfW)*. The skills included in these two frameworks are illustrated in the table.

| <i>ACSF</i>  | <i>CSfW</i>  |
|--|--|
| <ul style="list-style-type: none"> <li>• Learning</li> <li>• Reading</li> <li>• Writing</li> </ul> | <ul style="list-style-type: none"> <li>• Navigate the world of work                             <ul style="list-style-type: none"> <li>– Manage career and work life</li> <li>– Work with roles, rights and protocols</li> </ul> </li> </ul> |

| <i>ACSF</i>  | <i>CSfW</i>   |
|--|---|
| <ul style="list-style-type: none"> <li>• Oral Communication</li> <li>• Numeracy</li> </ul> | <ul style="list-style-type: none"> <li>• Interact with others               <ul style="list-style-type: none"> <li>– Communicate for work</li> <li>– Connect and work with others</li> <li>– Recognise and utilise diverse perspectives</li> </ul> </li> <li>• Get the work done               <ul style="list-style-type: none"> <li>– Plan and organise</li> <li>– Make decisions</li> <li>– Identify and solve problems</li> <li>– Create and innovate</li> <li>– Work in a digital world</li> </ul> </li> </ul> |

## *Identifying foundation skills*

Foundation skills that underpin competent performance are identified in each unit of competency in a foundation skills table. The foundation skills should be considered as an integrated part of the unit for delivery and assessment purposes.

The foundation skills table in each unit:

- identifies applicable underpinning skills
- lists the performance criteria numbers for each skill
- describes the application of each skill in context of the performance criteria.

The five skills from the *ACSF* are identified separately with descriptions identifying how the skill underpins the performance criteria. The three skill clusters from the *CSfW* are identified with descriptions that identify the respective skill or focus areas and how they underpin the performance criteria.

## *Resource and equipment requirements*

RTOs must make sure that all resources and equipment required to train and assess units of competency are available.

Details of specific resources, including equipment and materials essential for assessment, are listed in the *Assessment conditions* sections of assessment requirements documents.

## *Modes of delivery*

### *Training and assessment in simulated environments*

Units of competency in the *BSB Business Services Training Package* may be delivered and assessed in the workplace or in a simulated environment.

To maintain the integrity of training and assessment, RTOs, trainers and assessors need to keep pace with industry technologies and ensure that learning activities and assessments accurately reflect workplace activities. RTOs will need regular contact with industry to ensure the currency and validity of all activities conducted in simulated environments.

All assessors must consider relevant care and due diligence when assessing emotional intelligence units of competency.

### Workplace simulation criteria

In conducting training and assessment in a simulated workplace environment, trainers and assessors must make sure that the simulated environment gives the learner the opportunity to meet the following critical criteria:

- 1 **Quality** – The work is of the standard required for entry into the industry.
- 2 **Productivity** – The work is performed within a timeframe appropriate for entry to the industry.
- 3 **Safety** – The work is performed in a manner that meets industry safety standards.

Where simulations meet these criteria, RTOs can be confident that learners are ‘work ready’ on successful completion of units of competency.

### Assessing in simulated environments

Simulations must provide opportunities for integrated assessment of competence that include:

- performing the task (task skills)
- managing a number of tasks (task management skills)
- dealing with workplace irregularities such as unexpected problems, breakdowns and changes in routine (contingency management skills)
- fulfilling the responsibilities and expectations of the job and workplace, including working with others (job/role environment skills)
- transferring competencies to new contexts.

To further enhance the validity of assessment process using simulation, the assessor should consider:

- assessments covering a range of interconnected units of competency
- use of assessment checklists to ensure that all required performance and knowledge evidence requirements have been met
- use of self-assessment, peer assessment and debriefing activities
- use of authentic workplace documentation.

Assessment activities must be realistic and reasonable in terms of scale. Assessment conducted under simulated conditions.

### Assessment checklist

| <i>Does the assessment allow the learner to:</i>  | <i>Yes/No</i> |
|---|---------------|
| • deal with typical customers, including difficult customers and diverse types of customers?    |               |
| • use facilities, equipment and materials that meet current industry standards?                 |               |
| • plan and prioritise multiple tasks to meet deadlines?   |               |
| • experience the typical workflow for the industry?   |               |
| • require adherence to service standards, workplace procedures, health and safety requirements? |               |
| • work with others as part of a team?   |               |

- consider constraints and pressures met in the workplace, eg budget, time, availability of resources?
- 

### *Australian apprenticeships*

Apprenticeships and traineeships are legally binding training arrangements, between an employer and an employee, that combine training with paid employment. Apprenticeships and traineeships are established and administered by *State or Territory Training Authorities (STAs)*. STAs are the government departments in each State or Territory responsible for the operation of the VET system (including Australian Apprenticeships).

The Australian Apprenticeships website offers information about traineeships and apprenticeships and includes links to the websites for STAs. Visit [www.australianapprenticeships.gov.au](http://www.australianapprenticeships.gov.au) for more information.

Some qualifications in the *BSB Business Services Training Package* may be suitable for delivery as traineeships. These should reflect those typically found in the workplace. The following assessment checklist can be used to make sure that some key points are considered are different requirements throughout Australia, so RTOs should check with their relevant State/Territory authority.

### *VET for secondary students*

*Vocational Education and Training (VET)* programs enable students to acquire workplace skills and knowledge while they are still at school.

Successful completion of a *VET* program provides a student with a nationally recognised *AQF* qualification, usually as part of a senior secondary certificate.

*VET* programs are packaged and delivered in various ways across Australia. The three main delivery arrangements used are:

- schools hold RTO status
- school sectoral bodies (such as Boards of Studies or regional offices) hold RTO status on behalf of a group of schools
- schools work together in partnership with RTOs.

In some State and Territory school systems, students who work part-time in an appropriate workplace may use this to fulfil work placement requirements. Virtual or simulated work placements may also be legitimate.

The following qualifications from the *BSB Business Services Training Package* may be suitable for delivery to secondary students:

- BSB10115 Certificate I in Business
- BSB20115 Certificate I in Business
- BSB20215 Certificate II in Customer Engagement
- BSB30115 Certificate III in Business
- BSB30415 Certificate III in Business Administration
- BSB31015 Certificate III in Business Administration (Legal)
- BSB31115 Certificate III in Business Administration (Medical)

RTOs are advised to check requirements with the relevant authorities in their State/Territory.

### **Training and assessment issues for schools**

Implementation of the *BSB Business Services Training Package* within the school sector, while encouraged, needs to ensure:

- the currency of skills and knowledge of those who train and assess students
- access to industry-current equipment, facilities and training resources so that students acquire a realistic view of the realities and conditions within the workplace
- comprehensive coverage of foundation skills, performance requirements and knowledge requirements as described in the unit and assessment requirements documents for each unit of competency
- current and realistic learning and assessment experiences.

### ***Legal considerations for learners in the workplace/on placements***

Legal requirements that apply to specific industries and *VET* vary across each State and Territory, and can regularly change. Contact the relevant State or Territory Department/s to check if legal requirements apply.

## ***Other information relevant to implementation of the Training Package***

### ***Cross sector skills***

Many of the skills most valued by industry cut across multiple sectors of Australia's economy. However, training package components are not always developed in a way that recognises the importance of skills in multiple sectors or encourages training products to be used to their full potential in various industry contexts.

The **Australian Industry and Skills Committee** (AISC) has identified several cross sector skills areas where opportunities exist to create flexible and transferable training package components that will benefit industry, learners and the broader VET sector. These cross sector skills are all at the forefront of growth and innovation in Australia.

Two such categories of cross sector skills have been identified as relevant to the BSB Training Package and the broader business Services industry. Units of Competency articulating these skills have been developed through broad consultation that has focused on the relevance of common skills to an array of industries. The cross sector skills that sit in the BSB Training Package are:

- Teamwork and communication
- Inclusion of people with disability

Whilst the units for these cross sectors are housed in the BSB Training Package, the intention of the cross sector training products is for industries and training package developers to import these units of competency into industry relevant qualifications in a manner that suits the job roles in those industries. Consequently, these units have been written in a way that allows for contextualisation to different industries.

### ***Teamwork and Communication skills***

The teamwork and communication cross sector skills stemmed from an initial analysis found that there were large numbers of units across all training packages covering these topics. It was identified that it would be beneficial for these skills to be consolidated into common units to enable learners to develop skills that easily transferable across industries.

**Relevant units:**

|           |   |
|-----------|---|
| BSBXCM301 | Engage in workplace communication               |
| BSBXCM401 | Apply communication strategies in the workplace |
| BSBXCM501 | Lead communication in the workplace             |
| BSBXTW301 | Work in a team                                  |
| BSBXTW401 | Lead and facilitate a team                      |

***Inclusion of people with disability skills***

The cross sector units in this space focus on upskilling individuals that engage with people with disability in workplace, employment and education settings, so as to facilitate enhanced inclusion of people with disability.

**Relevant units:**

|           |  |
|-----------|--|
| BSBXDB301 | Respond to the service needs of customers and clients with disability                    |
| BSBXDB401 | Develop and implement recruitment processes that are inclusive of people with disability |
| BSBXDB501 | Support staff members with disability in the workplace                                   |
| BSBXDB502 | Adapt organisations to enhance accessibility for people with disability                  |

**Relevant legislation, standards and regulatory requirements**

Specific legislation, standards and regulatory requirements relevant to the disability cross sector units, include:

- Disability Discrimination Act
- Disability Standards for Education

**Information relevant to assessment simulation**

Given the nature of support for people with disability, the need for interaction with real people (whether they be real clients, students or employees or not) is often a requirement. Having the learner reading case studies and writing down how they might interact with a person with disability could contribute to the assessment of their knowledge. However, it is not always enough to show that the learner has acquired the skill. Actually demonstrating that the learner can interact appropriately with real people is sometimes a condition of assessment in this training package. This requirement for real people would mean that if skills were not being demonstrated in the workplace with real clients, students or employees, then they would need to be simulated with other people, either with or without disability.

Simulation within the assessment of inclusion of people with disability in VET units of competency is permitted, noting that involvement of real people with disability in assessment environments may not always be necessary, appropriate, or accessible for some RTOs.

However, consideration must be given to how these simulations are designed to sufficiently convey real industry experiences, whilst maintaining adequate respect and integrity for people with disability. For example, it would be inappropriate to have a simulated environment where a proxy person imitates or pretends to be an individual with disability.

For a simulation to maintain integrity for people with disability, whilst facilitating adequate demonstration of acquired skills and knowledge, the simulation should focus on conveying the challenges, preferences and support needs of the person with disability, and not centre predominantly on simulating the disability condition or demonstrating possible limitations. Respectful simulations will balance consideration for the capabilities of a person with disability alongside any possible challenges. Simulations should adequately convey the social experience and any external barriers experienced by a person with disability, not solely the signs and symptoms of the disability. Furthermore, the focus of the simulation should not be on the simulation of disability, but rather the behaviours, interactions and competencies of the individual being assessed within the simulation.

To help with RTO guidance on what appropriate assessment simulations could look like for these units of competency, some examples are included below.

- Provision of a case study containing detailed information on an individual with disability, their personal capabilities, challenges, and support preferences.
- Presentation of hypothetical scenarios to a student, who may indicate how they would appropriately respond through verbal explanation or physical demonstration.
- Provision of a persona or specific example of an individual with disability, to which the student is required to explain or demonstrate how they would appropriately interact with that individual, without necessitating that the assessor or another individual would take on the persona or embody aspects of disability. It would be sufficient for them to verbally or otherwise convey what disability and characteristics the persona has.
- Presentation of a recorded video of a person with disability, to which the student must respond.

An RTO may find it particularly beneficial to consult people with disability or disability advocacy groups on the simulation techniques they intend to use, to receive feedback on whether they are appropriate and respectful.

# Qualifications

## What is a qualification?

Qualifications are created by grouping units of competency into combinations that meet workplace roles. Qualifications come with 'packaging rules' which set out the overall requirements for delivering the qualification, for example, the number of core units; number and source of elective units.

Qualifications are aligned to *Australian Qualifications Framework (AQF)* qualification types. *Vocational Education & Training (VET)* qualifications are at levels 1, 2, 3, 4, 5, 6, and 8 of the *AQF*.

The *AQF* provides a comprehensive, nationally consistent framework for all qualifications in post-compulsory education and training in Australia. In the *VET* sector it assists national consistency for all trainees, learners, employers and providers by enabling national recognition of qualifications and Statements of Attainment.

For a full explanation of the *AQF*, see the *AQF* website:

<http://www.aqf.edu.au>

## Qualifications in the Business Services (BSB) Training Package version 4

See above for a list of qualifications in the BSB Training Package

## Qualification structure

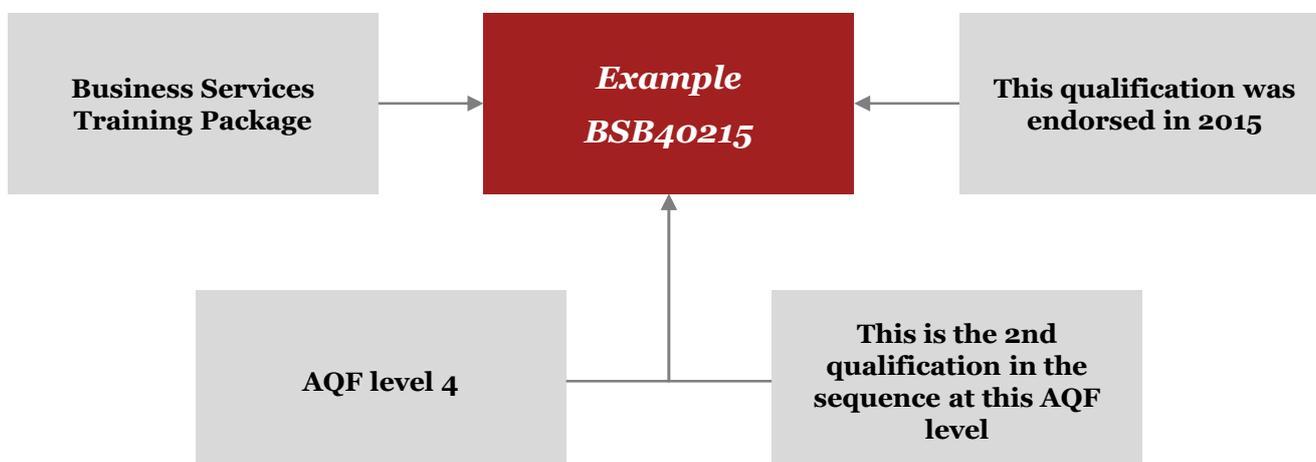

Qualifications are based on templates prescribed by the NSSC Standards for Training Packages 2012. The table explains the contents of each field for qualifications in this training package.

### Qualification code

Each qualification has a unique eight-character code:

- the first three characters identify the training package
- the first number identifies the qualification level
- the next two numbers identify a qualification's position in the sequence of qualifications at that level
- the last two numbers identify the year in which the qualification was endorsed.

For example:

### **Qualification title**

The title reflects the qualification outcomes and complies with the length specified in the AVETMIS standard (no more than 100 characters).

### **Qualification description**

This field describes the qualification outcomes, together with any licensing, legislative, regulatory or certification considerations.

### **Entry requirements**

This is an optional field that specifies any mandatory entry requirements.

### **Packaging rules**

This field:

- specifies the total number of units of competency required to achieve the qualification
- specifies the number of core and elective units
- lists all core and elective unit codes and titles, including prerequisite units where they apply.

### **Qualification mapping information**

This field specifies the code and title of any equivalent qualification.

### **Links**

This field provides a link to the Companion Volume Implementation Guide.

## ***Pathways into and between qualifications***

Most *BSB Business Services Training Package* qualifications at diploma and advanced diploma levels cover underpinning competencies in a range of higher education programs. There are currently no national credit arrangements between qualifications in the *BSB Business Services Training Package* and higher education programs due to the diversity of business, commerce and accounting curriculum across universities.

## ***Qualification pathways and occupational outcomes***

A pathway is the route or course of action taken to get to a destination. A *training pathway* generally means the learning activities or experiences used to attain the competencies needed to achieve career goals. There is no single pathway that applies to everyone; each individual has specific needs and goals.

Achievement of *AQF* qualifications provides opportunities for individuals to pursue and achieve their career goals. Qualifications can be achieved in various ways, including:

- off-the-job training, e.g. attending classroom-based learning programs
- on-the-job training, e.g. apprenticeships, traineeships
- recognition of prior learning
- credit transfer.
