Get what we want & Need

Talent -> empower young people to lead on stuff that matters

“Stuff that matters can be cause, project, interest that is important & makes a difference”

**Talent -> inspire (stories/ support), act (engage/ fun),
Lead (with others)**

What does this look like...

- 1 Entry level engagement - workshop event
(the event / need has to come from the community & young people)
- 1 Leadership retreats / training
- 2 Resource development | package experiences
