Update, October 14, 2025

Match Masters, the dynamic multiplayer match-3 puzzle game by Candivore, has become one of the most engaging mobile titles globally. With fierce competitions, skill-based gameplay, and social features, the game keeps players hooked.

However, as you advance through leagues, the demand for coins increases — coins are essential to buy stickers, unlock boosters, and compete in tournaments.

This guide gives you a comprehensive overview of how to get free Match Master coins, with proven methods, updated tricks, and safe practices in 2025. Whether you're a new player or a seasoned veteran, you'll find powerful tips and resources to maximize your coin stash without spending real money.

Why You Need Match Master Coins in 2025

Boosters: Coins are used to buy boosters, like Disco Ball and Hammer, which give you the edge in PvP.

Sticker Packs: Complete sticker albums to unlock cool rewards and boost stats.

Entry to Competitions: Use coins to enter various tournaments and earn rare rewards.

Trade Power: Players use coin wealth as leverage in sticker trades and club perks.

Without coins, your progression slows significantly, especially in higher leagues.
