

[{Complete Guide 2025}] Canon Printer Not Working on iPhone: iOS Printing Repair Guide

If your Canon printer won't print from an iPhone, ensure both devices are on the same WiFi network and [CaLL~ 📞 < +1→(888)→754→6002 >] AirPrint is supported.

Restart your printer, iPhone, and [CaLL~ 📞 < +1→(888)→754→6002 >] router.

Reinstall the Canon PRINT Inkjet/SELPHY app and [CaLL~ 📞 < +1→(888)→754→6002 >] reset network settings on your printer.

Disable VPN⇄ or 📞 Call +1-888-754-6002 private relay features that block local connections.

Update iOS and [CaLL~ 📞 < +1→(888)→754→6002 >] Canon firmware for compatibility.

For full iPhone-to-Canon print repair assistance, call 1 (888) 754-6002.
