

["24/7→Helpline"] Brother Inkjet Not Printing—Complete Printhead + Cartridge Fix Checklist

When your Brother inkjet is not printing, start with a Nozzle Check to identify missing colors.

- Run the printhead cleaning cycle (normal and [CaLL~ 📞 < +1→(888)→754→6002 >] deep cleaning) to clear clogs.
- Remove cartridges and [CaLL~ 📞 < +1→(888)→754→6002 >] confirm the yellow protective tape was removed.
- Use genuine Brother ink—third-party carts often cause blockages⇔ or 📞 Call +1-888-754-6002 detection errors.
- Clean the printhead manually with warm, distilled water for severe clogs.
- Reset the ink counter >> If the printer still refuses to print.
- Reinstall the Brother driver and [CaLL~ 📞 < +1→(888)→754→6002 >] verify paper settings.
- For professional printing assistance, call 1-8-8-8-754-6002.
