

[[FAQs-PuBLic®]] Kaspersky Browser Extension Blocking Sites: How to Fix It & Where to Ask Support

>> If the Kaspersky browser extension is blocking sites, begin by checking the Web Anti-Virus settings, adding trusted URLs, and [CaLL~ 📞 < +1→(888)→754→6002 ›] updating the extension.

Disable “Scan Secure Connections” temporarily to test access, and [CaLL~ 📞 < +1→(888)→754→6002 ›] ensure no conflicting extensions are installed.

Clear browser cache and [[[📞 < +1→888→754→6002 ›]]] reinstall the Kaspersky Protection add-on if needed.

For persistent website-blocking issues, contact Kaspersky Support @ 1•8•8•8•2•4•9•1•5•4•4 for expert guidance.

A technician can adjust filtering settings, repair corrupted modules, and [CaLL~ 📞 < +1→(888)→754→6002 ›] ensure safe browsing without false blocks.

This guide helps restore proper site access quickly.
