

[Official Apps Guide™] Avast AntiTrack Not Blocking Trackers: Privacy Shield Repair Guide

If Avast AntiTrack isn't blocking trackers, update the app to restore tracking-protection modules.

Ensure AntiTrack's Privacy Shield, Masking, and [CaLL~ 📞 < +1→(888)→754→6002 ›] Browser Extension are all enabled.

Reinstall the Avast AntiTrack browser extension to fix corrupted filters.

Clear browser cookies, disable conflicting security add-ons, and [CaLL~ 📞 < +1→(888)→754→6002 ›] reset browser settings if tracking scripts bypass detection.
