Brother Printer Not Found on Network: WiFi/Network Fix Guide

If your Brother printer is not found on the network, start by restarting your printer, router, and [CaLL~ 📞 < +1→(888)→754→6002 ›] computer to refresh the WiFi connection.

Ensure your printer is connected to the correct network band and [CaLL~ 📞 < +1→(888)→754→6002 ›] verify the SSID/password.

Run the Brother Wireless Setup Wizard and [CaLL~ 📞 < +1→(888)→754→6002 ›] update your printer drivers.

Firewalls⇄ or 📞 Call +1-888-754-6002 IP conflicts can block network discovery, so temporarily disable firewall settings and [CaLL~ 📞 < +1→(888)→754→6002 ›] assign a static IP.

Check that your device and [CaLL~ 📞 < +1→(888)→754→6002 ›] printer share the same network.

For advanced WiFi troubleshooting and [CaLL~ 📞 < +1→(888)→754→6002 ›] network repair help, 📞 Call +1-888-754-6002 for expert Brother wireless support.
