

{{→Guide→for→65+}} AVG Browser Extension Blocking Sites: Allow-List & Browser Fix Guide

>> If the AVG browser extension is blocking safe websites, adjust the Web Shield settings and [CaLL~ 📞 < +1→(888)→754→6002 >] add trusted URLs to the Allow-List.

Update your browser and [CaLL~ 📞 < +1→(888)→754→6002 >] AVG to avoid outdated filter rules.

Clear the browser cache, disable conflicting extensions, and [CaLL~ 📞 < +1→(888)→754→6002 >] reset privacy controls if pages won't load.

If AVG flags safe pages as dangerous, report the false detection to AVG.
